

ADVANCED COLLEGE PLACEMENT

A. Advanced Course Work / Advanced Placement Courses.

Any student who is capable of and wishes to do advanced course work or take advanced placement classes while in high school should be permitted to do so. School district administrators and guidance counselors will provide assistance to students who wish to enroll in such courses. If advanced course work or advanced placement courses are not available within the School District, administrators or guidance counselors are instructed to assist students in identifying alternative means of taking such classes. This may include taking courses through the Dual and Concurrent Enrollment Program, at a different public school or a private school, through distance education courses, or other suitable means.

Any student whose eligibility for taking advanced course work is recommended by their counselor may enroll in a course. Credit may be given, provided the course comports with applicable District policies (see policy **IK**) and state standards. The District will not be responsible for any tuition, fees, or other associated costs incurred by the student for enrollment in such courses.

B. STEM Dual and Concurrent Enrollment Program.

Kingswood Regional High School and Lakes Region Technology Center qualified students in grades 11 and 12 may participate in the Dual and Concurrent Enrollment Program, through which a student may earn both High School and College credits by enrolling in STEM (science, technology, engineering, and mathematics) and STEM-related courses designated by the Community College System of New Hampshire ("CCSNH").

Although there is no limit to the number of credits a student may earn per academic year through the Dual and Concurrent Enrollment Program, pursuant to RSA 188-E:27, II, students enrolling in courses exceeding a total of 4 credits (see Board policy **IK**) are responsible for all costs above and beyond 4 credits in an academic year.

The Superintendent shall be responsible for coordinating any agreements with CCSNH, and other measures necessary to implement and maintain the Dual and Concurrent Enrollment Program within the District. The Superintendent shall also designate a point of contact for the program who can provide for student counseling, support services, course scheduling, managing course forms and student registration, program evaluation, course transferability, and assisting with online courses. The Superintendent or designee shall establish regulations for the program which, among other things, will:

1. Require compliance with measurable educational standards and criteria approved by the CCSNH;
2. Require that courses meet the same standard of quality and rigor as courses offered on campus by CCSNH;
3. Require that program and courses comply with the standards for accreditation and program development established by the National Alliance for Concurrent Enrollment Partnerships;

4. Establish criteria for student eligibility to participate in the program;
5. Establish standards for course content;
6. Establish standards for faculty approval;
7. Establish program coordination and communication requirements;
8. Address tuition, fees, textbooks and materials, course grading policy, data collection, maintenance, and security, revenue and expenditure reporting, and a process for renewal of the agreement;
9. Require annual notification to high school students and their parents of Dual and Concurrent Enrollment opportunities.
10. Set out how any Dual and Concurrent Enrollment courses correlate with a Career Readiness Credential under Board policy **IKFG**.
