State Assessment Scores

We are pleased to share the 2026 state assessment results for our students from April. These scores provide valuable insights into how well our students are mastering the grade level standards set by the state of Kansas. While the assessments are just one measure of student progress, they help us identify strengths and areas of growth to better support every learner. At MCMS, our teachers are committed to providing high quality instruction aligned with the state standards to all students. We continuously strive to ensure that each student receives the support and resources needed to succeed academically. Be sure to ask your student for their report next week!

Reminders

- **Always check the website if you have questions**

- Requesting a bus pass? Due to our buses being so full, First Student must approve all bus passes before the school can. Please call them at 913.422.8501. Once approved, one parent from each student will need to contact the school @MCMS Front Office so we are able to issue the appropriate bus pass.
