NOTIFICATION (CLARIFICATION)

Question 1: **Clarification**

There are 2 columns named COMMODITY CODE. Which one should we use? A or B?

Answer 1:

There is a clerical error and column A should **NOT** be on the bid form. However, the commodity code is an **internal District number used for tracking bus parts purchased each year**. Please use the part number and description for bidding. Parts in Column B without a commodity code will be assigned one after the bid is awarded.
