Summer 2026

Teaching Twice-Exceptional Learners in Today's Classroom, Kircher-Morris

Work at your own pace from June 1 - August 15, 2026

Completion Deadline: August 15, 2026

Twice-exceptional (2e) learners have often been misunderstood, disciplined, unchallenged, and left behind. Even as awareness of 2e learners has grown, educators are still in need of practical tools to recognize and support their twice-exceptional students. This book equips educators with information that will make it easier for them to advocate for their 2e students, including what they need to know about the individualized education plan (IEP) and Section 504 plan process. Special topics, such as gifted students with physical disabilities, students experiencing trauma, and gifted learners from diverse backgrounds are also included.

Fall 2026

Think Again, Grant

Nine weeks: September 14 - November 13, 2026

Registration Deadline: September 9, 2026

Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. Being good at thinking can make us worse at rethinking. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom. **15 Hours of Gifted PD**

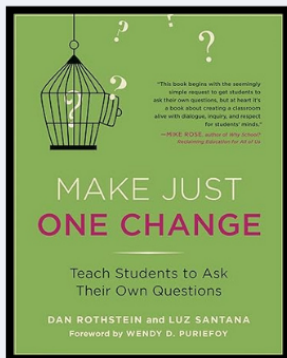

Winter 2027

Make Just One Change: Teach Students to Ask Their Own Questions, Rothstein & Santana

Nine Weeks: January 11 - March 12, 2027

Registration Deadline: January 6, 2027

The authors of *Make Just One Change* argue that formulating one's own questions is "the single most essential skill for learning"—and one that should be taught to all students. They also argue that it should be taught in the simplest way possible. Drawing on twenty years of experience, the authors present the Question Formulation Technique, a concise and powerful protocol that enables learners to produce their own questions, improve their questions, and strategize how to use them. **15 Hours of Gifted PD**

Spring 2027

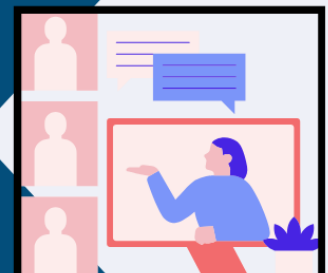

Various webinars and articles

Nine Weeks: March 1 - April 30, 2027

Registration Deadline: February 24, 2027

Designed to support focused conversations on timely issues affecting gifted learners of all ages and profiles, content is curated from current webinars and expert articles. Every three weeks new topics will be introduced, allowing this professional learning community to move from understanding to application within your classroom of learners. Opportunity may also exist for learners to suggest topics of study based on interest or questions from the field.

15 Hours of Gifted PD

FREE to Mid-Ohio ESC clients or members purchasing a gifted unit
Client or member without gifted unit: \$100 each
Non-client: \$200 each
