TUNE UP URSULINE 2026

2 WEEK 9TH GRADE SUMMER PROGRAM 2026

August 3 - August 13 ▪ Monday - Thursday ▪ 8:30 - 11:30am ▪ $680

ENGLISH

Writing Workshop: Aspiring Author Series

How would you like to have the opportunity to craft some skilled pieces of writing in various genres? You will spend two weeks reading compelling short works (fiction, creative nonfiction, and poetry) and use these as mentor texts to produce incredible writings of your own. All the while, you will be building skills in close reading, vocabulary and grammar, and writing. Guaranteed to be fun and inspiring for any ambitious young author!

MATH

Welcome to Algebra Foundations!

Are you taking Algebra or Geometry in the fall and want to brush up on your Algebra skills? We will reinforce computational and algebraic skills as well as strengthen critical thinking and problem- solving skills. Target topics include real number operations, factoring, solving multi-step equations, graphing relationships, and solving systems. Students will start each day with a warm-up to examine their existing skill set allowing for sessions to include individualized instruction and group work via hands-on activities. Through the use of project based tasks, students will also learn how to engage in productive mathematical discussions.

SCIENCE

Welcome to the Fascinating World of Life Science!

Have you ever wondered what the smallest building block of life is? Or if it's possible to actually see DNA? In this hands-on exploration, you'll dive into the wonders of biology using the scientific method. Through exciting experiments, you'll discover how egg shells mirror the protective membranes of cells, unlock the secrets of DNA hidden in your favorite fruits, and even extract minerals from your breakfast cereal! We'll also journey through the inner workings of plants, revealing how they transport water from their roots to their petals—and we'll even change the color of a flower in the process! Get ready for a thrilling adventure into the science of life!

ART

Bring your Creativity, We'll Supply the Rest!

An instructional art workshop, encouraging creativity, imagination, craftsmanship and fun in our sunny, air conditioned facility. Projects include: drawing & painting, ceramics & 3-D, media art . . . and more!
