Aug 3 - August 13 Mon - Thurs 8:30 - 11:30am | Ursuline campus, taught by Ursuline faculty.

ELA PREP

This course will review both the reading and written expression portions of the TACHS exam, helping the students become familiar with the question styles, reading content, and grammar knowledge necessary to succeed on the exam. Students will be taught essential skills and techniques that they will apply to practice questions, which they will then review in class. The course is designed to give the students exposure to the exam as well as to offer them key knowledge that they will need on both the exam and in high school.

MATH PREP

- Number sense and operations with fractions, decimals, integers, exponents, percentages, ratio, absolute value, and order of operations
- Algebraic patterns with equations and inequalities
- Properties of geometry, probability, statistics, data analysis, and estimation

PREP FOR THE ABILITY SECTION

- Spatial reasoning, figural reasoning, paper folding, and symmetry
- Identifying relationships, logical sequences, and patterns within a series of shapes or figures
- Abstract reasoning, verbal reasoning, and analogy
