EBOOKS AT WOODBURY

The C.W. Woodbury Library Media Center features electronic books. These eBooks are interactive digital copies of popular print books. Students can interact with text by highlighting key passages, searching by keyword, taking notes, and finding information with the built-in dictionary. These books can be enjoyed in school or at home on most devices including Windows (tablets, desktops, laptops) and Apple (iPads, MacBooks, iPhones) based computers, the Kindle Fire, Nook tablets, Android based phones & tablets, and Chromebooks. Follett's *Destiny Discover* is the program that students and teachers use to borrow eBooks and audiobooks from our online collection.

DIRECTIONS

eBooks can be accessed using the Destiny Discover URL.

The Destiny Discover App works in a variety of environments including those made by Windows, Apple, Nook, Kindle, and Android.

For many devices, the Destiny Discover App can be found at both the Google Play Store and Apple Store. For a complete list, 1) open any eBook and then 2) click "Book" in the upper right hand corner to open the drop down menu. 3) Finally, select *Download App*.

SET UP

1. Once installed, launch the app on your mobile phone or digital device.
2. Enter the username (student number), password (first name), state (Nevada), and our school's Follett code: **wbb26960**.
