TUNE URSULINE UP 2026

2 WEEK 6TH GRADE SUMMER PROGRAM 2026

August 3 - August 13 ▪ Monday - Thursday ▪ 8:30 - 11:30am ▪ $680

ENGLISH

Grammar and Writing Workshop!

This eight-part program is for anyone who loves to write or just wants to strengthen her grammar and writing skills! We will creatively write each day and share our work. There will be stories to write, poems to read aloud, and grammar skills to be learned or reviewed. A variety of genres will be read that will make your experience a fun one ... just what the summer should be!

MATH

Middle School Math Matters! Welcome to 6th Grade Math!

Whether you are looking to help fill in gaps, get a head start on next year, or just maintain hard earned math skills, we've got just the program for you! Through fun, small group activities, and individualized instruction, we will learn the 'whys' and 'how's' of the most important math skills you will need for Math 6 next year. These activities will not only incorporate math concepts such as operations with fractions, decimals, and geometry, but, problem solving skills will be stimulated, confidence will blossom, and you might just be able to do the grocery shopping for your parents next year!

SCIENCE

Welcome to an Introduction to Physical Science & Engineering!

In this exciting program, you'll dive into the world of both science and engineering through fun, hands-on activities. As you explore, you'll also get a chance to connect with some of your future classmates and teachers. Together, we'll build essential skills like making observations and inferences, analyzing data, designing prototypes, and thinking critically. You'll even get to carry out your own scientific experiment and take on the challenge of designing and building a device to solve a real-world engineering problem!

ART

Bring your Creativity, We'll Supply the Rest!

An instructional art workshop, encouraging creativity, imagination, craftsmanship and fun in our sunny, air conditioned facility. Projects include: drawing & painting, ceramics & 3-D, media art . . . and more!
