

Mom, Dad, me - made in China

These 6 words represent me and my culture because most of my family all live in China. My household is the only one that has moved to America. Throughout the years, my family has lived in many different states. I was born in Georgia, then moved to South Dakota, and finally I am in Ohio, where I have lived for 7 years. Though I am now a proud American, it is always good to remember your roots and where you came from.
