School Volunteers

The Board of Education recognizes the importance of school volunteers. Volunteers can provide for expanded collaboration between the school and community, enhance the school's educational environment and ultimately enrich students' school experience. It is the policy of the Board of Education to encourage stakeholders to volunteer in our schools, while maintaining a safe environment for our students and staff.

School volunteers provide services which enrich existing school programs. Volunteers may be parents, community members, or other persons interested in assisting the school.

The school volunteer is a non-paid person who helps in the school under the direction and supervision of the school Principal or their designee.
