

Program History and Philosophy

Over the past 44 years, the Wyoming Valley West Aquatics programs have been providing opportunities for individuals to learn and develop skills in an environment of excellence and intensity. From novice to elite, we have been continuously competitive at all levels. From learn to swim, to competition swimming, diving, and water polo; we have experienced success at the local and national level. Our goal is to develop and assist each individual to reach their potential and aspirations. We look forward to you joining us in our...

"Tradition of Excellence"

The Wyoming Valley West High School 25-yard indoor pool is utilized for all aquatic training. This facility guarantees each individual a comfortable atmosphere 100% of the time.

T-Shirt Size: _____

My children have no restrictions for aquatic training and activities. If there are any questionable health issues, I will discuss them with the head coach and/or obtain a doctor's release. I do understand that I may need a Doctor's Permission Release for one or more of my children to participate in aquatic training and activities at WVW. I also agree that if there are any changes in my children's medical history at any time that I will advise the coaches. I also will reinforce with my children that they are to follow rules and directions from the coaches to help maintain a safe environment at all times for all participating individuals.
