Issue no.18

SY 25-26

Limited Edition Move Management Issue!

Moving Logistics

The expectation is that all educators bring their laptop devices home over the summer. While contrary to past practice, this will ensure you have your device ready to go Day 1 and that it will not get mixed up or misplaced during the Move.

Instructors **should not be concerned with packing any technology peripherals** – Monitors, docking station, Keyboard/Mouse for your desk area will be collected by Technology Services after June 24th.

This pertains to educator desk areas: **Shops that rely on computers should be making arrangements to pack these items**

EDU Certifications FREE!

That's right! Available now until June 2026 Google is offering their Educator certification exams FREE! Included in this offer are:

- Educator Level 1
- Educator Level 2
- Gemini Educator
- Gemini Faculty

Educators are able to register for one or all exams. Once registered Google will provision the exam within 48 hours. Successful completion grants educators a badge and certificate.

Register for exams and get more info at https://educertifications.google/

Diman Recipient of the Connected & Online Grant Program!

This year Diman was awarded over 70 desktop workstations through Massachusett's Connected & Online grant program! Funded by the Healy-Driscoll administration, this program provided technology equipment and software licenses to municipalities to impact community and workforce development initiatives.

While the plan is to setup these machines in our new Media Center once we move, a handful of workstations have been setup in our current library in order to meet the reporting requirements of the program.

The program's full press release is available here
