**Yellow Medicine East Schools Provide April Construction Update**

**Granite Falls, MN** — Yellow Medicine East (YME) Schools report continued progress on the district's school construction project, with significant developments achieved over the past month.

**Bid Package 4 Now Open for Bidding**

Bid Package 4 was officially released approximately one week ago and is now publicly available for contractors to review and submit proposals. This package represents the majority of the remaining construction work and includes approximately 25–30 individual bid categories. These encompass key components such as roofing, doors, interior walls, mechanical systems, and electrical work—essentially covering the bulk of the building's completion.

Bids for this package will close on **April 30**. A public bid opening and audit will take place at **2:00 PM in the MS/HS Auditorium, 450 9th Avenue, Granite Falls, MN**.

Following the opening, the construction team will conduct a thorough review of submissions. Emphasis will be placed on identifying the lowest responsible bids, ensuring completeness, and verifying contractor qualifications. In cases where inconsistencies are identified, interviews may be conducted with qualified contractors.

The YME School Board will then review the recommendations, approve selected bids, and authorize contract execution.

Earlier bid packages focused on foundational and site-related work, including utilities, paving, concrete, precast structures, steel, and masonry.

**Looking Ahead: Key Project Milestones**

- **Groundbreaking Ceremony:** May 2026
- **Sitework, Footings & Foundations:** June–August 2026
- **Major Construction Activity Begins:** July–August 2026

The first visible signs of progress on campus will include the development of a new maintenance building and parking lot on the northern portion of the site.

YME Schools remain committed to keeping the community informed as the project moves forward and appreciates the continued support throughout this exciting process.
