Dear Southern Fulton School District Families,

We hope this letter finds you well. As we look forward to the upcoming 2025–2026 school year, we wanted to take the opportunity to communicate important information about our student Chromebook/iPad/device program.

We understand the vital role technology plays in our curriculum and want to ensure all our students have access to the resources they need to succeed. With this in mind, every student in our district has been provided a device to support their learning.

As in previous school years, we are offering a **Device Insurance** option. The cost for this insurance is **\$40 per student**. This coverage includes **one free repair (“freebie”)** per school year. The insurance **does not cover intentional damage. Software issues or manufacturer defects that are no fault of the student will be fixed free of charge.** In the event a device must be replaced, the **current replacement cost is \$350** (as of this writing).

Insurance payment is **due no later than Friday, September 26, 2025** (end of the school day). Please make checks payable to **Southern Fulton School District (SFSD)**. This policy will be **strictly enforced**.

If you choose **not** to purchase device insurance, **any repair costs—including labor and materials—will be your responsibility**. Repairs will be performed in-house by our technology staff. Should payment for repairs not be received within 60 days, the matter will be referred to the district justice for judgment. There will be no exceptions for non-insured families.

This policy is designed to protect families from unexpected expenses and ensure devices remain in working order to support student learning.

The attached form should be completed and returned to your child’s homeroom teacher at the start of the 2025–2026 school year.

Thank you for your continued support of our district’s commitment to providing the best educational experience for all students.

Best Regards,

Southern Fulton School District Admin Team
