SOUTHERN STATE
COMMUNITY COLLEGE

Tuesday - June 23rd

Morning Session: \$25

- Biology – 9:00 am – 10:30 am
- Math – 10:40 am – 12:10 pm

Afternoon Session: \$25

- Business – 12:50 pm – 2:20 pm
- Leadership & Improv – 2:30 pm – 4:00 pm

Career Descriptions

Biology

This session will examine science as a process to understand basic biological concepts. Students will examine current biological research and how that impacts their lives and the future.

Business

Students will step into the role of an adult and make real-life money decisions. They will choose a career path, earn a monthly salary and decide how to spend their money on things like housing, food, transportation, and fun. Along the way, they will face surprise events, some good and some challenging that will affect their budget. Their goal is to manage their money wisely, pay their bills and try to save for the future. The session will wrap up by understanding inflation and looking at the current prices of several goods.

Computer Science

Step into the exciting world of technology! In this hands-on session, students get to explore the basics of computer programming, discover how cool robots work, and learn how to stay safe online like a cybersecurity pro. Whether the student is coding for the first time or just love gadgets, this is the chance to be a tech explorer!

Wednesday - June 24th

Morning Session: \$25

- Health Sciences | Nursing – 9:00 am – 10:30 am
- Computer Science – 10:40 am – 12:10 pm

Afternoon Session: \$25

- Social Sciences – 12:50 pm – 2:20 pm
- Mental Health – 2:30 pm – 4:00 pm

Health Sciences | Nursing

Students will be introduced to the role of nurses and how they people stay healthy and safe in their homes, schools, and communities. Through age-appropriate activities, students will learn how nurses care for people who are sick or injured, support children and older adults, and work as part of a health care team. Students will practice basic safety and helping skills, including how to respond in simple first aid situations, and will create their own small first aid kit to take home.

Leadership & Improv

Students will tap into their creativity to build original stories and bring them to life in small groups. Through interactive games and activities, they'll boost engagement, strengthen teamwork, and build confidence in public speaking-all while having fun along the way.

Math

Get ready to think, move, and solve! In this interactive session, students will tackle fun challenges inspired by real-world careers and see how math is used in everyday jobs. Teamwork and creativity encouraged!

Mental Health

Interested in helping people sort out their lives and find direction? Mental health is a growing field where you can make a difference. Join us to learn more about your personality, how one chooses a career, and if mental health may be a career for you!

Social Services

In this engaging session, students will explore emotions and social awareness through fun, interactive group activities. They will play games like "Emotions and Color Matching" and "Helping Words Bingo" to build empathy and communication skills. If time allows, students will dive into how emotions are expressed through music and scenes from movies, helping to recognize and understand feelings in creative ways.
