District Office

 *From the Board President*

As we wrap up the budget season for the 2026–2027 school year, I want to reflect on the tremendous amount of work that has gone into this process over the past year. I am proud of the efforts of our Board of Education to actively engage our school community throughout budget development, and we look forward to continuing and expanding upon that collaboration in future budget seasons.

For the upcoming school year, the district will move forward with a 0% tax increase. We believe this budget reflects the needs and priorities of our community while continuing to support the high educational standards our students, families, and staff have come to expect. This marks the second consecutive year that the district has not increased the school tax levy.

As we look ahead, our Board of Education, Superintendent, and broader school community will continue engaging in thoughtful dialogue regarding what constitutes an acceptable and sustainable tax rate for our community. These discussions will require balancing the very real economic challenges facing taxpayers while ensuring we continue providing the high-quality educational opportunities our students deserve.

I want to thank our community, staff, and administration for their continued partnership, engagement, and support throughout this process.
