

## Community Partners Use of Omaha Public Schools WiFi

Connecting to OPS-Guest WiFi requires no login credentials

- If you need help connecting, contact the HelpDesk at 531-299-0300.

For those with an OPS email and password, there is a wireless network called eduroam

- If you have trouble connecting from your device, please ask the school building's technology support person (BTS). If this person isn't available, you can contact the Help Desk at 531-299-0300.
- If your device uses a private address, also known as Media Access Control (MAC) Randomization, you may need to re-authenticate to the network each time the device connects. To maintain a constant connection, disable this feature for eduroam. Apple support provides information about managing private addressing.
- Manual eduroam setup for Windows:
  - On Windows, navigate to the bottom right of your desktop to view all Wi-Fi networks that are in range, and select eduroam from the list of available networks.
  - Windows will now prompt you to log in to the network. Use your organization Identity/account to authenticate. Your username must include userID and the domain. Example: joe.school@ops.org.

- Accept the eduroam certificate and authenticate using your local Windows credentials, if prompted.
  - If you previously connected to OPS-Guest, you might need to remove or 'forget' that SSID from your list of preferred networks.
- Manual eduroam setup for macOS:

- On your Mac, navigate to the Wi-Fi icon in the top right of your desktop to view all Wi-Fi networks that are in range and select eduroam from the list of available networks.
- Your Mac will now prompt you to log in to the network. Use your organization's Identity/account to authenticate. Your username must include userID and the domain. Example: joe.school@ops.org

- 
- Accept the eduroam certificate by clicking Continue and authenticate using your local macOS credentials, if prompted.
  - If you previously connected to OPS-Guest, you might need to remove or 'forget' that SSID from your list of preferred networks.

Every student. Every day.  
Prepared for success.
