More Than 2/3

of students need extra support to read and do math at grade level

Source: Nation's Report Card, 2024

Help students succeed with reading and math.

Nationwide, fewer than one-third of our students are proficient in reading and math. Together we can help give kids more — more opportunities, more success, and more confidence.

Whether helping preschoolers make a strong start, supporting K-3 students with reading, or building foundational math skills with elementary and middle school students, we train local people to make an incredible impact as tutors. Placed at schools nationwide, our tutors provide extra practice and support to help students build strong skills. Be part of creating more success stories — become a tutor!

Make a difference, tutor kids!

Our programs help kids build stronger skills. We train people just like you to make a difference and will teach you everything you need to know. Our proven programs have already helped more than 630,000 students, and we're on a mission to support even more.

As a tutor, you will:

- Be a caring adult who's focused on helping students build their skills and confidence
- Serve at a local school or preschool program (full-time and part-time options are available)
- Work with groups of 2-3 students who need extra practice and skill-building
- Track student progress and regularly meet with the school's on-site coach

While you're making a difference, you'll receive a paycheck every two weeks and qualify for perks like tuition assistance, federal student loan forbearance, interest repayment, and more!

Qualifications

Most anyone can make a great tutor. The most important qualification is your passion to make a difference! To review minimum requirements and additional details, visit us online at

Join.ReadingandMath.org.

Students who receive tutoring from Reading Corps, Math Corps, and Early Learning Corps **make bigger gains and faster progress** than their peers.

We can support more students with your help!
