Old Business		**10 min**	
Master Schedule	Brian Siesto	10 min	With the implementation of the Capital Project it has been decided to pause the plan to change the Master Schedule until a future date.
New Business		30 min	

Capital Project Update	Brian Siesto Chris Marshall (Guest) Chris Mergler (Guest)	30 min	Brian Siesto, Chris Marshall, Director of Facilities and Chris Mergler from Campus Construction came to the meeting to give the committee an overview of the early stages of the Capital Project that has begun. They shared a detailed Power Point with the group. Phase I has begun and is the complete gut and renovation of The Learning Center (the former YMCA) on High Street. The continuation of Phase I is the development of a CTE Auto/Tech program in the old transportation garage that may include students from neighboring districts. Phase I also includes installation of turf on the soccer fields once the weather breaks. Phase 2 is anticipated to begin in late July 2026 after final approval from the state. The plan is to create classroom wings across the front of the Senior High and Junior High where the current administrator/ visitor parking lot C is. This will create 22 new classrooms and two new courtyards. The district is looking for creative/alternative uses of these courtyards. Phase 2 will also include temporary moves of the administrative/office staff and the H3 entrance to the high school will be permanently closed. An alternative entrance will be made from the North Parking Lot to the A Wing. There is also a plan to build a new parking lot past the tennis courts and behind the Middle School during construction to compensate for the redirection of traffic to the North Wing Entrance. Phase 3 will be the relocation of the Junior High main office and entrance to the cobblestone entrance. The Council was able to ask questions about the Capital Project.

Discussion of recent student survey and upcoming ideas for SEL check-ins	Brian Siesto	15 mins	Brian Siesto shared with the group the results of a 2 question survey that was given to the student body. 1. "When things are difficult, I feel like I have the skills to handle them and a clear path forward." 2. Is there at least one adult outside of your family with whom you could approach to get help/support if needed? 96%-97% of students responded with a positive response. Brian hopes to continue to use "pulse surveys" during the school year.
