E-mail address

2. **Statement of Purpose**

- a. It is the goal of the Oxnard School District to implement this Integrated Pest Management (IPM) Plan by prioritizing long-term pest prevention and suppression. This will be achieved through accurate pest identification, regular monitoring, the use of established action thresholds, and habitat modification through improved sanitation and the application of mechanical and physical controls. The district is committed to utilizing environmentally responsible pest management practices and the least-toxic control methods available. Pesticides will be used only when necessary—after alternative measures have proven ineffective—and will be applied in a manner that minimizes risks to people, property, and the environment.
- b. Our pest management objectives are to:
 1. Protect the health and safety of students and staff.
 2. Maintain a productive learning environment
 3. Maintain the integrity of school buildings and grounds.

3. IPM Team

Name	Role in IPM
Jason Corona	Child Nutrition Services Director
Child Nutrition Worker(s)	Monitor and Reporting
Grounds Specialist(s)	Applications, Inspections, and Monitoring
Equipment Operator(s)	Applications, Inspections, and Monitoring
Grounds Maintenance Worker(s)	Applications, Inspections, and Monitoring

4. Pest Identification, Monitoring, and Inspection

- Pest identification is conducted collaboratively by district staff and the contracted pest management vendors.
- Custodial and Maintenance staff conduct regular monitoring and inspections for pests and conditions that may contribute to pest issues. All findings are promptly communicated to the IPM Coordinator.

5. Pest Management Contracting

- Pest management services are provided through a licensed pest control contractor(s)
 1. Ventura Pest Control [www.venturapest.com \(opens in new window\)](http://www.venturapest.com)
2192 Anchor Ct #A, Newbury Park, CA 91320 (805)301-5470
 2. West Oaks Pest Control [www.westoaksp PestControl.com \(opens in new window\)](http://www.westoaksp PestControl.com)
1746-F South Victoria Ave. #2401 Ventura, CA 93003
- Prior to entering into the contract, the district confirms that any contractor understands and complies with the training and other requirements of the Healthy Schools Act.

6. Pests and Non-Chemical Management Practices

- a. Once the IPM decision-making process is in place and monitoring indicates a pest treatment is needed, the choice of specific properties can be made. Practices that are:
 1. Least hazardous to human health.
 2. Least disruptive of natural controls in landscape situations.
 3. Least toxic to non-target organisms.
 4. Most likely to be permanent and prevent recurrence of the pest problem.
 5. Easiest to carry out safely and effectively.

6. Most cost-effective in the short and long term.
7. Appropriate to the weather, soils, water, and the energy resources of the site and the maintenance system.

b. This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove Food	Fix Leaks	Seal Cracks	Install Barriers	Physical Removal	Traps	Manage Irrigation	Other
Ants	X	X	X			X		Clean area, Soapy water
Bees			X		X			Removal, Soapy water
Wasp		X	X		X			Removal
Birds	X		X	X				Screens, Removal of food (if applicable)
Mice/Rats	X		X	X		X		Clean area, remove any food
Roaches	X	X	X	X		X		Clean area, remove any food
Spiders			X					Remove webs and botanicals
Fleas								Vacuum carpets
Weeds		X			X		X	Manual removal

Chemical Pest Management Practices

If non-chemical methods prove ineffective, the district will consider the use of pesticides only after careful monitoring confirms that treatment is warranted based on pre-established action thresholds. When pesticide use is necessary, the district will select products that pose the lowest possible hazard and apply them in a manner that minimizes risks to people, property, and the environment.

The district anticipates the following pesticide products and active ingredients may be used during the year. This list includes pesticides applied either by District personnel or by licensed pest control contractors:

Product Name	Active Ingredient	Target Pest
Weed Slayer	Clove Oil	Weeds
Avian Migrate	Anthranilate	Geese
Termidor SC	Fipronil	Termites-Ants
Premise Foam	Imidacloprid	Termites

Product Name	Active Ingredient	Target Pest
Boracare	Disodium Octaborate Tetrahydrate	Termites
Cy-Kick	Cyfluthrin	Assorted Insects
Gentro IGR	Hydropene	Fleas
Fusilade II	Fluazifop-P-butyl	Grass Weeds
Fertilizer w/Trimec (Weed and Feed)	2,4-dichlorophenoxyacetic acid	Broadleaf Grass Weeds
Delta Dust	Deltamethrin	Ants, Wasps, Cockroaches, & Misc. Insects (Per Label)

Healthy Schools Act

- The Oxnard School District complies with all notification, posting, record-keeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608-17613, 48980.3, Food & Agricultural Code Sections 13180-12188).
