EXPLANATION OF DISCREPANCY

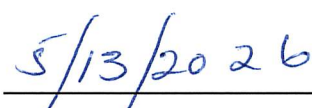

During the Post-Election Hand Count Audit conducted on May 13, 2026, a one-vote discrepancy was identified in the total for Dr. Benita Reed. The investigation into the chain of custody and tally logs reveals the following:

- Election Night Error (May 2):** The manual hand count incorrectly recorded 18 votes for Dr. Reed. A review of the physical ballots present at that time confirms there were only 17 ballots for this candidate. The election night total was inflated by one vote due to an administrative "double-call" error during the initial tally.
- Subsequent Approval (May 11):** On Monday, May 11, the Early Voting Ballot Board (EVBB) officially met and accepted one additional mail-in ballot (received by the May 4 deadline) for Dr. Reed. This brought the true physical total to 18.
- Official Reporting Discrepancy:** Because the official election results were calculated by taking the erroneous election night base of 18 and adding the legitimate May 11 ballot, the official total was recorded as 19.
- Audit Reconciliation:** This audit verifies that the actual physical population of paper ballots for Dr. Reed is 18. The official results remain one vote higher than the physical paper trail due to the initial administrative error on election night.
