

★ WHAT DOES IT MEAN TO BE FREE? ★

I used a survey to find out what it freedom truly means to other people.

----- *The Results* -----

OF THE SURVEY

Freedom means that I can pick what I want to do and decide MY future for myself.

The ability to say and do what you want without feeling you are restricted

I think freedom means having the opportunity/option to make choices for yourself and act/speak as you wish (within the constraints of the law).

To me, freedom means the ability to choose how to live my life.

To me, freedom means that everyone has a chance to use their voice and that their voice is heard.

CONCLUSION ★

From all the wonderful results I got from my survey, I learned that our country, the United States of America, is so lucky to have all the freedoms we have. In some places, the laws are much more restricted than the ones we have. Our freedoms are greatly valued.

★ U.S.A. ALL THE WAY! ★
