## Introduction

The Comprehensive School Safety Plan shall be used to provide details regarding each school's strategies, programs and procedures to support a safe school environment. The California Education Code sections **32280-32289** outline the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school. Requirements are:

- Assessment of school crime committed on school campuses and at school-related functions
- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The information contained in a school's safety plan may be supplemented by information not specified in the California Education Code sections **32280-32289**.

## **School's Vision Statement EC 32282 (a)(2)(H)**

Strandwood Elementary will be a safe and respectful learning environment, based on trust, kindness, and accountability. All students will feel connected to the community as they grow socially and build academic skills that prepare them for college, career, and everyday life. Perseverance and recognizing mistakes as steps of growth to build resilience will be integrated in instruction. Working together, staff will provide equitable support for students and each other. Families and community members will be welcome to share ideas and resources to enhance the student experience as they become independent learners.

## School Climate

### Current Status of School Crime

Each school is required to assess the current status of school crime committed on the school campus and at school-related functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment.

**Assessment of the Current Status of School Crime EC 32282(a)(1) Assessment of the Current Status of School Crime EC 32282(a)(1) with Parent, Teacher, and Student Input**

Your assessment conclusions should reflect input from staff, students, parents and community members, as appropriate. The campus itself and the surrounding neighborhood are considered safe. The majority of Strandwood students and parents/guardians indicate they feel safe at school. They feel they are part of a vibrant community of learners who care about each other and the world around them. Students feel secure and know that there will always be a helper nearby.

Parents/guardians and staff members agree that Strandwood provides a safe, positive climate for students to learn. Both groups indicate that classroom activities and our positive behavior management systems encourage respect for all regardless of race, culture, religion, politics, gender or sexual orientation. Highlighted strengths include concern for others, synergistic group work, and targeted incentive programs.

Parents/guardians, staff members and students work hard to help the campus remain attractive and well-kept by disposing of trash appropriately, recycling, composting, maintaining flora, and generally taking responsibility for keeping the campus clean and beautiful. Our PTA recently completed a courtyard project that brought fresh grass and new plants to the courtyard outside our office. Our new gardening program has enhanced our older garden by the kindergarten yard and built a new outdoor classroom area behind our P-wing.

We have consistently relatively high rates of attendance. Our data consistently supports that we are a school where students and adults feel safe both physically and emotionally. Unexcused absences are typically related to parents taking students out of school for a long weekend or a family trip during the school year.

Office referrals have remained steady this year with typical spikes at the beginning and end of the school year. This year, we have focused heavily on Accelerated Learning and continue to promote a shared language regarding rigorous grade level expectations and hearty socio-emotional skill sets at Strandwood. Currently, all teachers have classroom management systems in place with clear expectations, shape-shifting consequences, and motivational incentives.

Parent concerns this year have included bullying, site safety, and lunch protocols

## **Provide and Maintain a High Level of School Safety EC 32282(a)(2)**

Identify appropriate strategies and programs that provide and maintain a high level of school safety.

We have a school-wide behavior expectation rubric which is reviewed annually by staff and sent home to parents/guardians. We are improving our communication of our behavior expectations through signage and assemblies.

We have a security camera system on our school site with seven cameras strategically placed around our campus.

Four staff members are currently trained in CPR/First Aid. New staff are encouraged to take CPR/First Aid training.

All visitors are expected to sign in at the school office and wear a visitor badge that is visible.

Classroom teachers keep doors locked during the school day when closed.

Other strategies and programs related to maintaining a safe and orderly environment conducive to learning at Strandwood include:

-Ongoing assessments of school safety issues

- Zero tolerance for weapons and drugs

-High expectations for student behavior and academic progress

-Fair, clear, and consistent implementation of school routines and protocols

-Staff, student, and parent involvement in school decision making through monthly PTA, School Site Council, ILT, and staff meetings

-School Site Council voted to approve paying for a fourth noon supervisor

-Mandated reporter training for all staff members

-Student Success Team meetings and weekly "CARE team" meetings

-Regular class meetings to promote community-building

-After-school classes and other activities

## **School Interventions and Support Systems BP 5144; AR 5149**

MDUSD BP 5144

Discipline

List and describe interventions and support systems that are in place as a deterrent to suspension and expulsion.

Strandwood uses alternative means of correction as often as possible to avoid suspensions and expulsions. Suspensions are only given if other means of correction have failed and only for behaviors that warrant suspension according to Ed Code.

In the classroom, our teachers use effective and flexible Tier I classroom management strategies which include clear expectations, shape-shifting consequences, and positive incentive programs. Behavioral supports include student conferences, targeted parent support, individualized incentive programs, class-wide reward programs, a principal-driven school-wide "Blue Slip" program, behavioral contracts, restorative justice practices, and a strong belief that all children can thrive. In addition, teachers hold regular grade level meetings to discuss student concerns and collaboratively problem-solve as needed.

In addition, we implement a system of referrals and support for Tier II and Tier III students. In-class supports include student conferences, parent meetings, personalized instruction, small group remediation, and targeted intervention as needed. When additional assistance is necessary, teachers complete a CARE team referral and the principal, resource specialist, and school psychologist work with the classroom teacher to identify concerns and offer targeted support as needed. Typical outcomes include a parent/teacher/administrator meeting, SSTs, counseling referrals, and Tier III academic intervention support through our Learning Center.

Describe the guidelines for the roles and responsibilities of mental health professionals, community intervention professionals, counselors, school resource officers and police officers on your campus. Our school has a counselor 3 days per week who provides behavioral and social support for students identified. We also have a school counseling intern who provides one-to-one counseling support two days a week. Strandwood does not have a School Resource Officer. We do have a strong relationship with the Pleasant Hill Police Department.

## **School-wide Dress Code BP/AR 5132**

MDUSD BP 5132

Dress and Grooming

### School Dress Code

We follow our MDUSD dress code policy (5132) and recognize that student dress and grooming are generally a matter of personal choice. The standards for elementary school dress reflect “common sense” and a concern for each child’s safety and ability to participate fully in the day’s activities:

\*Clothing that is disruptive to the education process, including but not limited to objectionable, vulgar and/or obscene language, logos or pictures, racist depictions or negative stereotyping, or suggestive statements/slogans that depict or promote weapons, gangs, violence, sex, drugs, cigarettes, marijuana, or alcohol are strictly prohibited.

\*Footwear should ensure the safety of students during regular school activities. Soft-soled athletic or tennis shoes should be worn for PE activities.

\*Hats are not to be exchanged with other students for health safety.

See Appendix A

## School Discipline, Rules and Consequences BP 5131; BP 5144

MDUSD BP 5131

Conduct

School, Discipline, Program, Rules and Consequences.

### STUDENT CONDUCT

Our school maintains high standards for all students. Our school Rules follow the acronym SMART:

- Be Safe
- Be Mindful
- Be Accountable
- Be Respectful
- Be Teachable

All our school-wide expectations fall under one of these 5 rules. Please see the Behavioral Expectations attachment for more details

Typical consequences for inappropriate behaviors include verbal reminders, redirection, student and/or parent/guardian conferences, buddy classrooms, written consequences, and referrals to the principal. When behavior is severe, such as hurting a student or staff member, consequences may include lost recess time or suspensions.

See Appendix A

## General Emergency Preparedness

### EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

#### Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session.

#### Regulatory Authority

State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees.

The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff.

The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems.

This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an

Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate.

### **School Site Emergency Preparedness and Response Coordination**

Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

### **Campus and Facility Site Preparedness Duties**

This school and the District have designated specific persons to assume emergency position responsibilities in the event of a site emergency or District-wide disaster. The following information provides a breakdown of these responsibilities:

#### **All School Staff:**

- Become familiar with the school's emergency and evacuation procedures.
- Participate in First Aid and CPR training, as appropriate.

#### **Annually each principal shall:**

- Designate Staff Incident Command Structure Assignments.
- Update this site Emergency Preparedness and Crisis Response Plan.
- Ensure personnel are properly trained in their respective assignments.
- Conduct survey of personnel to determine CPR/First Aid/Disaster Preparedness/Medical Training.
- Survey parents to determine who may wish to volunteer during an extended emergency or disaster.
- Ensure needs of students and staff with disabilities are provided for in the event of an emergency.
- Designate primary and alternate locations for command post, evacuation, first aid, student release, and morgue.
- See that parents are informed of the plan and its effect upon students.
- Compile/maintain list of local emergency agencies including telephone numbers and addresses.
- Practice building evacuation plans including testing of warning systems, alarm signals, and communications methods.
- With Maintenance and Operations, complete a site and building hazard survey.
- Ensure all emergency equipment and supplies are in usable condition at all times.

#### **Teachers:**

- Teachers are responsible for the supervision of students in their charge.
- Understand emergency response procedures.
- Have planned activities for use during disasters to lessen possible tension.

#### **School Office Managers or Designee:**

- Organize and maintain the emergency first aid supplies and distribute back-up supplies.
- Assist principal in developing procedures to protect essential records.
- Ensure battery-operated AM/FM radio is available in working condition; know the call number and frequency of disaster information station.
- Maintain an up-to-date list of students and staff who require life sustaining medication.

#### **School Custodians or designee:**

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition.

## **CRISIS/EMERGENCY INCIDENT RESPONSE SYSTEM**

### **Crisis Response**

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

### Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the MDUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

The organization of the Incident Command System is based on five major management functions or sections, which are also utilized in the SEMS response structure:

- Command (Management) Team - Provides overall direction of response at the school site
- Operations Team- Supports on-scene response at school site
- Planning Team- Collects, evaluates and documents information about the incident
- Logistics Team - Provides services, personnel and supplies in support of incident response
- Finance Team - Provides financial tracking, procurement and cost accounting of incident response

## COMMAND AND ORGANIZATION DURING A CRISIS

### Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- **Control** – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- **Communication** - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication must be maintained between response persons, school staff, and the command team.
- **Coordination** - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

### CHAIN OF COMMAND

An appropriate Incident Command System will be utilized during all school emergencies. This will facilitate the maintenance of effective control and coordination at campus emergencies.

In the event of a crisis, the principal will act as the Incident Commander at all school emergencies and is responsible for initiating and carrying out any emergency actions as required. The principal directs the ICS Team members and other school staff in the implementation of the response actions through the assignment of appropriate duties. If the principal/site administrator is not present, or cannot assume control for any other reason, the Chain of Command is as follows:

|   |  |
|---|--|
| <b>Incident Commander</b><br>(Principal/Site Administrator) | Leif Utler/Leif Utler, Principal             |
| IC Alternate #1   | Tami Arabian and Amanda Fisher, Office Staff |
| IC Alternate #2   | Teresa Brofferio, RS teacher                 |
| IC Alternate #3   | Consuelo Sanchez, Custodian                  |

## INCIDENT COMMAND SYSTEM (ICS)

During campus emergencies, designated school staff function within the Incident Command System until the arrival of outside response personnel. Upon arrival of outside response agencies, the Incident Commander will turn over command of the incident to the ranking response person. The school Incident Commander will document the time of the relinquishing of command and will remain at the Incident Command Post as part of a unified command structure.

The school will coordinate activities with the District Office during a major emergency or disaster. As deemed necessary by the principal or other person acting as the Incident Commander, resource requests will be made by the campus Logistics Team Leader directly to the District Office. All requests for initial emergency assistance will be made to the local emergency response agencies.

Note: Not all members of the ICS will be activated at every emergency. Decisions as to the extent of the response and staff activation will be made by the Incident Commander at the initiation of the response. School staff designated as the primary person for each position is shown following each position title.

## EMERGENCY RESPONSE COMMUNICATIONS

During an emergency:

- Manage your environment to reduce confusion.
- Communicate with students to reduce anxiety and confusion.
- Call 911 if the emergency is in your area (e.g. your classroom) and inform office of the call.
- When evacuating your area communicate all clear by Link to Cliff Notes Evacuation #3 and lock the door. Keep room unlocked if a victim is still inside the room.
- During evacuation do not call the office unless you witnessed the emergency incident or suspects.
- Students should be allowed to text that they are safe but should not talk on the phone.
- Communication may be achieved by the use of intercom, walkie-talkies, telephones, messengers, bullhorns.
- School site direct dial telephones lines will continue to operate. This is usually the line that serves the fax machine. Each site should have one direct-dial telephone unit that can be plugged into this line.
- District school buses have a radio that can call the district. If on campus, the bus radio can be used to communicate with the district.

**LOCATIONS**

**Command Post:** The Command Post will be located such that the full emergency assembly area is in view, while maintaining adequate separation from students, evacuation assembly areas, the medical treatment area and student release areas. School personnel designated to contact outside emergency response agencies will notify the responding agency of the location of the Command Post at the school.

**Evacuation Area:** Whenever an evacuation is called ensure that the area is not a potential danger to the evacuees and/or is not in the path of the event. This includes danger from natural disasters, chemical/hazardous materials, explosive devices and potential violence threats. Notify the Incident Commander immediately if evacuation is deemed unsafe.

**First Aid/Emergency Medical Response Center:** In the event of a major disaster the First Aid area will act as both triage and treatment units. Two assumptions must be made regarding medical services:

- During a major event, local emergency medical service services may not be available and transportation of the injured may be delayed.
- District employees and visitors will be dependent on first aid rendered by trained district employees.

## SCHOOL STAFF EMERGENCY RESPONSIBILITIES

### General Staff Responsibilities

All staff members are directly responsible for the protection of students, members of the public and school assets. School administrators and teachers must ensure that appropriate steps are taken during emergencies. General responsibilities for ALL school staff in case of emergency include, but are not necessarily limited to, the following:

- Ensure that students are properly notified of the emergency.
- Take appropriate action with students as conditions require.
- Initiate first aid, rescue, equipment shutdown or damage control as needed.
- Account for all students.
- Notify the Assembly/Shelter and Care Officer of missing persons, or of any employees or students who require medical assistance.
- Contact parents or guardians as appropriate.

### District Staff as Disaster Workers

The California Government Code [§3100 et. seq.], declares that all public government employees are disaster workers subject to such disaster service activities as may be assigned to them by their superiors or by law. In accordance with these legal responsibilities of public employees, all district personnel are subject to be called upon and must be prepared if at home or elsewhere, to report for duty in the event of an extreme emergency. Arrangements for care of one's family should be prearranged in order to permit discharge of this emergency responsibility. This law applies to District employees in the following cases:

- When a local emergency has been proclaimed
- When a state emergency has been proclaimed by the governor
- When a federal disaster declaration has been made by the president

All staff members should have a personal plan for themselves and their families that can be implemented during an emergency. Staff members should be prepared to remain on site for as long as 72 hours or longer following an emergency, possibly without contacting their home and families. Staff members with special home considerations should discuss these with the principal prior to any emergency.

### Release of Teachers/Staff from Duties as Disaster Workers

Government Code §3100 declares that public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or by law. The term public employee includes all persons employed by the state or any county, city, state agency or public district, excluding aliens legally employed.

This means all school staff are considered disaster workers during a major emergency. School personnel assigned to school level Incident Command System positions and responsibilities will assume their posts as assigned by the site Incident Commander. Others will remain at a central staging location to await assignment as needed. No staff person will be released from their normal or emergency response duties without the expressed permission of the principal or designee as directed by the superintendent or a designee. School principals will not allow such releases of their staff without first obtaining authorization from the superintendent or a designee.

**Priority Release of Employees:**

Staff members with special home conditions, such as infant children or invalid relatives, are invited to submit a written petition for “first opportunity” release after the crisis stages of an emergency. The administrator in charge will exercise this release at the earliest opportunity as follows:

- Those with dependents
- Those with no dependents
- Administrators

## Potential Emergency Types and Responses Part One

School Administrators, teachers, and other staff will, at some time, be forced to deal with different types of potential or actual crises or emergency situations. The following sections describe the most probable situations, with specific response action directions included for each emergency type. The response actions are determined in coordination with the MDUSD Emergency Response Plan, the Incident Command System, and other district policies and guidelines.

### ACTIVE SHOOTER SITUATIONS: RESPONDING TO AN ACTIVE SHOOTER SITUATION

School Comprehensive School Safety Plans should include courses of action that will describe how students and staff can most effectively respond to an active shooter situation to minimize the loss of life, and teach and train on these practices, as deemed appropriate by the school.

Law enforcement officers may not be present when a shooting begins. The first law enforcement officers on the scene may arrive after the shooting has ended. Making sure the staff knows how to respond and instruct their students can help prevent and reduce the loss of life.

No single response fits all active shooter situations; however, making sure each individual knows his or her options for response and can react decisively will save valuable time. Depicting scenarios and considering response options in advance will assist individuals and groups in quickly selecting their best course of action.

Understandably, this is a sensitive topic. There is no single answer for what to do, but a survival mindset can increase the odds of surviving. As appropriate for your community, it may be valuable to schedule a time for an open conversation regarding this topic. Though some parents or personnel may find the conversation uncomfortable, they may also find it reassuring to know that, as a whole, their school is thinking about how best to deal with this situation.

During an active shooter situation, the natural human reaction, even if you are highly trained, is to be startled, feel fear and anxiety, and even experience initial disbelief and denial. You can expect to hear noise from alarms, gunfire and explosions, and people shouting and screaming. Training provides the means to regain your composure, recall at least some of what you have learned, and commit to action. There are three basic options: run, hide, or fight. You can run away from the shooter, seek a secure place where you can hide and/or deny the shooter access, or incapacitate the shooter to survive and protect others from harm.

As the situation develops, it is possible that students and staff will need to use more than one option. During an active shooter situation, staff will rarely have all of the information they need to make a fully informed decision about which option is best. While they should follow the plan and any instructions given during an incident, often they will have to rely on their own judgment to decide which option will best protect lives.

### RESPOND IMMEDIATELY

It is not uncommon for people confronted with a threat to first deny the possible danger rather than respond. An investigation by the National Institute of Standards and Technology (2005) into the collapse of the World Trade Center towers on September 11, 2001, found that people close to the floors impacted waited longer to start evacuating than those on unaffected floors.<sup>21</sup> Similarly, during the Virginia Tech shooting, individuals on campus responded to the shooting with varying degrees of urgency.<sup>22</sup> These studies highlight this delayed response or denial. For example, some people report hearing firecrackers when in fact they heard gunfire.

Train staff to overcome denial and to respond immediately, including fulfilling their responsibilities for individuals in their charge. For example, train staff to recognize the sounds of danger, act, and forcefully communicate the danger and necessary action (e.g., "Gun! Get out!") to those in their charge. In addition, those closest to the public address or other communications system, or otherwise able to alert others, should communicate the danger and necessary action. Repetition in training and preparedness shortens the time it takes to orient, observe, and act.

Upon recognizing the danger, as soon as it is safe to do so, staff or others must alert responders by contacting 911 with as clear and accurate information as possible.

As part of its preparedness mission, Ready Houston produces “Run, Hide, Fight” videos, handouts, and trainings to promote preparedness among residents of the Houston region. These materials are not specific to a school setting but may still be helpful. These videos are not recommended for viewing by minors. All of these items are available free of charge, and many are available at <http://www.readyhouston.tx.gov/videos.html>

Occupants of both towers delayed initiating their evacuation after World Trade Center 1 was hit. In World Trade Center 1, the median time to initiate evacuation was 3 minutes for occupants from the ground floor to floor 76, and 5 minutes for occupants near the impact region (floors 77 to 91). ## RUN

If it is safe to do so for yourself and those in your care, the first course of action that should be taken is to run out of the building and far away until you are in a safe location.

### **Students and staff should be trained to**

- Leave personal belongings behind;
- Visualize possible escape routes, including physically accessible routes for students and staff with disabilities as well as persons with access and functional needs;
- Avoid escalators and elevators;
- Take others with them, but not to stay behind because others will not go;
- Call 911 when safe to do so; and
- Let a responsible adult know where they are.

## HIDE

If running is not a safe option, hide in as safe a place as possible.

### **Students and staff should be trained to hide in a location where the walls might be thicker and have fewer windows. In addition:**

- Lock the doors;
- Barricade the doors with heavy furniture;
- Close and lock windows and close blinds or cover windows;
- Turn off lights;
- Silence all electronic devices;
- Remain silent;
- Hide along the wall closest to the exit but out of the view from the hallway (allowing for an ambush of the shooter and for possible escape if the shooter enters the room);
- Use strategies to silently communicate with first responders if possible, for example, in rooms with exterior windows make signs to silently signal law enforcement officers and emergency responders to indicate the status of the room's occupants; and
- Remain in place until given an all clear by identifiable law enforcement officers.

## FIGHT

If neither running nor hiding is a safe option, as a last resort when confronted by the shooter, adults in immediate danger should consider trying to disrupt or incapacitate the shooter by using aggressive force and items in their environment, such as fire extinguishers, and chairs. In a study of 41 active shooter events that ended before law enforcement officers arrived, the potential victims stopped the attacker themselves in 16 instances. In 13 of those cases they physically subdued the attacker.<sup>23</sup> While talking to staff about confronting a shooter may be daunting and upsetting for some, they should know that they may be able to successfully take action to save lives. To be clear, confronting an active shooter should never be a requirement in any school employee's job description; how each staff member chooses to respond if directly confronted by an active shooter is up to him or her. Further, the possibility of an active shooter situation is not justification for the presence of firearms on campus in the hands of any personnel other than law enforcement officers.

## BOMB THREAT/SUSPICIOUS PACKAGE

### BOMB THREAT

THIS SECTION REMOVED FROM POSTED PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.

### SUSPICIOUS PACKAGE

- Not touch or remove strange objects.
- Notify the principal.
- Principal will notify the police department, the fire department and the superintendent.
- Principal will evacuate the buildings.

Whenever a bomb threat is received or a suspicious package is found, a police officer will evaluate the threat or object before instituting a search of the buildings or sounding the signal for staff and students to return to the buildings.

The superintendent is to be kept informed of all actions.

## EARTHQUAKE

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action.

If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required.

If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face.

If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult.

If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill.

The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

#### EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

#### SETTLING DOWN AFTER THE FIRST SHOCK:

After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.

When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.

Announce that no student is to return to the room unless directed to do so.

Teachers will take classes to pre-arranged places on the campus.

Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.

School will remain open indefinitely until every student has been released to parents or to an authorized person.

Do not light any fires after the earthquake because of possible gas leaks.

If possible, notify utility companies of any break or suspected breaks in service.

The **Incident Commander** should procure the advice of the Director of Maintenance and Operations regarding the safety of the buildings.

The **Incident Commander** should keep the superintendent informed of conditions at the school.

Whenever possible disaster supplies should be kept in a locked shed away from the school buildings and accessible once all personnel and students are safely accounted for and secured in the evacuation area.

## STUDENT RELEASE

THIS SECTION REMOVED FROM POSTED PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.

## THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All Mt. Diablo USD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

## FIRE

In the event a fire is detected within a school building, the school fire alarm will be sounded. This will automatically implement the action to LEAVE THE BUILDING.

Upon receiving the order to evacuate, staff will assume their designated positions in the hallways of the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: grades TK-2 report to the lower playground and grades 3-5 report to the upper playgrounds.
3. Upon exit place a chair in front of the door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: assist as needed.
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. Hold up GREEN card if all students are accounted for. RED card if missing students or assistance required. If not used, describe alternate practice:  
If teachers have forgotten their cards, they will use a "thumbs up" for green and a "thumbs down" for red
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be via the principal
12. Communicate with your students and maintain control.

The fire department will be notified. The police and superintendent should also be notified.

Access roads to the school campus should be kept open by **Security/Traffic** team personnel.

Students and staff will not return to the buildings until the fire department declares the area safe and the **Incident Commander** has announced the ALL CLEAR.

Clothing on fire: STOP. DROP. ROLL. Use other pieces of clothing to help smother the flames. Immediately call 911. Render first aid.

#### STAFF ROLES DURING ACTIVE LOCK DOWN

THIS SECTION REMOVED FROM POSTED PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.

#### PRACTICE ALERT: LOCK DOWN

17. Follow the instructions above for an Active Alert. Release from Drill is: Principal or police will open classroom doors.

Intruder drills are practiced each year. Staff training is provided. Ample warning and preparation are made so that students and families are aware of the drills. Law enforcement should be invited to participate in these drills

## Potential Emergency Types and Responses Part Two

### CHEMICAL SPILLS WITHIN THE SCHOOL

In the event of a chemical spill or incident at school, the site administrator will determine what emergency action to take depending upon the circumstances. Teachers in the area shall do the following:

- Restrict the area of the incident and evacuate the area as deemed necessary.
- Rescue injured or trapped persons and remove from area, if trained to do so.
- Provide first aid as needed.
- If possible, determine the name(s) of the chemical(s) and provide that to the emergency respondents.
- Allow no one in the immediate area of the spill except emergency personnel.
- The office will alert classes to, "Shelter-in-Place."
- Notify the Superintendent's office.

### CHEMICAL ACCIDENT NEAR THE SCHOOL

Warning of a chemical accident is usually received from fire and/or police departments or from emergency services officials when such accident occurs sufficiently near a school to be a threat to the safety of students and staff. An overturned tanker, a broken fuel line, and an accident in a commercial establishment that uses chemicals are all potential hazards. Whether the accident occurs at the school or off the school grounds, the site administrator shall determine if there is need to EVACUATE or to SHELTER-IN-PLACE. This decision will be made in coordination with offsite emergency respondents. If it is necessary to evacuate the area, move crosswind, never directly with or against the wind which may be carrying fumes. Get upwind as quickly as possible.

### CRISIS INVOLVING INDIVIDUAL STUDENTS AND/OR STAFF

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

### DISCARDED WEAPON OR DRUG LAB/PARAPHERNALIA

#### DISCARDED WEAPON: GUN OR RELATED ITEM

A staff person may discover a discarded gun or related item or a student may also bring this to a staff person's attention.

In these circumstances:

- Staff will remain at the location and notify the office of the situation.
- The office will immediately notify the local authorities.
- Staff will not take any active response role in these situations.
- Keep the area clear of students and faculty until local authorities have arrived.
- As appropriate, conduct a Shelter in Place.

#### DISCARDED WEAPON: KNIFE OR RELATED ITEM

A staff person may discover a discarded knife or related item or a student may also bring this to a staff person's attention.

In these circumstances:

- Staff will remain at the location and notify the office of the situation.
- Trained staff as designated by principal or designee will recover the item and notify the authorities as appropriate.

#### DISCARDED DRUG LAB OR DRUG USE PARAPHERNALIA

A staff person may discover a discarded drug lab or drug use paraphernalia or a student may also bring this to a staff person's attention.

In these circumstances:

- Staff will remain at the location and notify the office of the situation.
- The office will immediately notify the local authorities.
- Staff will not take any active response role in these situations.
- Keep the area clear of students and faculty until local authorities have arrived.
- As appropriate, conduct a Shelter in Place.

#### EXPLOSION

The DROP command is to be given immediately in the event of an explosion at the school or within a school building.

If the explosion occurs within the building or threatens the building, the teacher will then implement the school evacuation plan. Assemble at the designated assembly area.

Sound the fire alarm and proceed as above for a fire.

Notify the superintendent's office.

#### FALLEN AIRCRAFT

Warning of a failing or fallen aircraft is usually by sight, sound or fire. If an aircraft falls near the school, the following actions will be taken:

- The site administrator will determine which emergency actions should be implemented. When necessary, teachers will take immediate action to ensure the safety of students if the site administrator is unable to direct emergency action.
- Students and staff must be kept at a safe distance from the aircraft, as it may explode. Move crosswind or stay up wind to avoid fumes.
- Call 911

Notify the Superintendent's office.

#### NATURAL GAS LEAK OR RUPTURED GAS LINE

The site administrator will evaluate the situation and determine the need for a building evacuation.

Offsite emergency respondents will be called if a leak is suspected.

In general, an evacuation of the building(s) will be conducted whenever there is a strong smell of natural gas within the school. Evacuations under other circumstances will be decided upon based on discussions with offsite emergency respondents. The site administrator will then initiate whatever emergency action is required.

Notify the superintendent's office.

#### **RABID OR VICIOUS ANIMAL**

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors.

Notify the Superintendent's Office.

#### **SEVERE WINDSTORM**

Warning of an impending windstorm is usually received via radio, television or civil defense officials. The United States Weather Bureau can usually forecast severe windstorms. If high winds develop during school hours without sufficient warning, the following emergency actions should be taken:

- Implement action to TAKE COVER. Students and staff should assemble inside shelters or buildings.
- Close windows and window coverings. Seek shelter away from windows.
- Remain near an inside, ground level wall if the building is more than one level.
- Evacuate classrooms that bear the full force of the wind.
- Avoid auditoriums, gymnasiums and other enclosures that have long roof spans.
- Keep tuned to a local radio station for the latest advisory information.
- Take roll and complete a Student Accountability Form.
- Notify site administrator of any break or suspected break in utility lines or buildings which might present an additional hazard.
- If possible, contact and report conditions to the superintendent.
- Don't permit any staff to leave the building until the winds have subsided and it is safe to do so.

#### **UTILITIES LOSS OR FAILURE**

##### **LOSS OF ELECTRICAL POWER:**

Consult PG&E website for grid of outages: [www.pge.com](http://www.pge.com)

Contact PG&E to report a Power Outage 1 800-743-5002

##### **WATER EMERGENCY:**

Contra Costa Water District Emergency Number 925-688-8374

Golden State Water Company Emergency 800-999-4033, 877-933-9533 (TTY- hearing impaired)

##### **PHONE ISSUES:**

Contact Technology Information Services (TIS) at extensions 4094 or 4105 to report phone issues.

**ADDITIONAL INFORMATION:**

Contact Maintenance, Operations & Facilities at extension 3884 if any utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with Maintenance and Operations for temporary communications, water delivery and portable rest rooms.

In the event of an extended outage, consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services x4124.

If an extended outage is likely, provide a School Messenger update to keep parents/guardians informed.

## EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

### EVACUATION PROCEDURES

#### EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the **Incident Commander**, will carry out the initial response actions delineated in the **Emergency Preparedness and Crisis Response Plan**. In consultation with members of the **Incident Command Team**, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency.

**Incident Command Team** members will immediately assume their designated response duties as activated by the **Incident Commander**. The **Disaster Response Officer** will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned.

When a decision is made to evacuate, the **Assembly /Shelter and Care Team** leader will immediately report to the assembly area and inspect the area for hazards. The **Assembly /Shelter and Care Team** leader will notify the **Disaster Response Officer** immediately if the area is safe. If not, the **Assembly /Shelter and Care Team** will advise that the evacuation be done to the alternate assembly location.

This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's **Preparedness and Crisis Response Cliff Notes**.

If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

#### COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: grades TK-2 report to the lower playground and grades 3-5 report to the upper playgrounds.
3. Upon exit place a chair in front of the door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed. 5. If on prep or don't have a class: assist as needed.
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. Hold up GREEN card if all students are accounted for. RED card if missing students or assistance required. If not used, describe alternate practice:  
If teachers have forgotten their cards, they will use a "thumbs up" for green and a "thumbs down" for red
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be via the principal
12. Communicate with your students and maintain control.

#### EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area.

ALL students and staff must report to the assembly area and remain there until the **Incident Command Team**, via the **Assembly /Shelter and Care Team**, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's **Student Release Procedures** as outlined in the site's **Preparedness and Crisis Response Cliff Notes**. This will not be done unless it is authorized by the **Incident Command Team**.

Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the **Assembly /Shelter and Care Team** as outlined in the site's **Preparedness and Crisis Response Cliff Notes**. If someone is deemed missing, the teacher is to immediately report this fact to the **Assembly /Shelter and Care Team** as outlined in the site's **Preparedness and Crisis Response Cliff Notes**.

#### ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated **Security/Traffic** response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the **Emergency Preparedness and Crisis Response Plan**.

## EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

### STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees.

Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

#### RELEASE OF STUDENTS FROM SCHOOL

MDUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete the **ABC's – Three Steps to Protect Your Child during Emergencies in the School Day (Appendix B)**

In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, **Emergency Cards** shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the **Emergency Student List** or **Emergency Cards** and maintain that in the office emergency evacuation kits.

Parents or others must check with this school's **Student Release** team at the emergency **Student Release Location** prior to pick up of their children. Teachers will release students according to the procedure outlined under the **Emergency Student Release Procedures** described below.

## EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

- . At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from **Incident Commander** via **Student Release** team.
- . **Incident Command** will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon **Student Release** team directive.
- . THIS SECTION REMOVED FROM POSTED PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.
- . Students will be released only to authorized adults listed on the **Emergency Card** or **Emergency Student List**. Adults picking up students must sign **Student Release Log** and indicate destination. Unless otherwise directed by **Incident Commander** via **Student Release officer**, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
- . Students may go home with people listed on **Emergency Card** or **Emergency Student List** if parent can't be reached.
- . Periodically, as students are released, remaining students will be consolidated.
- . Teacher takes attendance after each consolidation, informs **Assembly/Shelter and Care** team as well as the **Student Release** team, and keeps all documentation.

## EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

### TRAINING

The key to effective and coordinated emergency response efforts is the proper training of school response personnel as to their duties in an emergency or disaster. Proper training is mandated under the SEMS requirements for District staff and students and by Cal/OSHA for employees of the District.

### ALL DISTRICT RESPONSE STAFF AND STUDENTS

All non-response District staff, as well as all students, will receive training in the following areas:

- Brief overview of the District Emergency Operations Center (EOC) plan and its coordination with School Crisis Response plans.
- Brief overview of the School Crisis Response Plans and its coordination with the District EOC plan.
- Responder positions within each plan and the duty to follow instructions of the response team personnel.
- Use of drills and exercises to provide hands-on instruction to staff and students.

### SCHOOL CRISIS RESPONSE TEAM PERSONNEL

All school staff will receive training and detailed information on the **Incident Command System** and its use at a school crisis or disaster response. This will include but is not limited to:

- Initiation and functioning of the ICS Command Post.
- ICS response positions, their responsibilities, and the use of position checklists.
- Development of site Incident Action Plans and the utilization of, and coordination with, EOC actions at the District level.
- Importance of documentation of site ICS activities and damage assessment information.
- Demobilization procedures for down-sizing and closing the ICS Command Post.

## DRILLS AND EXERCISES

Because emergencies occur without warning, life-protecting actions must be taken immediately at the first indication of emergency conditions. There may be no time to think through all of the options for what must be done. Emergency drills will be conducted periodically to help familiarize everyone with basic procedures and to help students and staff learn how to react immediately and appropriately.

Exercises and drills will be conducted at the school site level. The essential components of school site emergency drills are classroom training and discussions, demonstrations and exercises designed to help staff and students learn and practice where to seek shelter and how to protect themselves based on the kind of emergency they are facing.

## EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

## **Campus Disturbances and Disruptions BP/AR 5131.4; BP/AR 3515.2**

MDUSD AR 5131.4

Campus Disturbances

Campus Disturbance Plan.

Strandwood Elementary follows Campus Disturbance Plan that complies with BP 5131.5 and 3515.2.

When campus disruptions occur that impact the safety of all students on campus the most appropriate emergency procedure (lockdown, shelter-in-place, or evacuation) will be enacted. Emergency communication will be maintained with all staff through the use of the intercom and phones that are located in all classrooms. Emails and texts will also be sent as appropriate. Communication through personal cell phones will be prioritized when feasible.

Individual campus disruptions that do not impact the entire school site will not result in the use of school-wide emergency procedures. Disruptions from individuals not authorized to be on campus will not be tolerated. The principal or designee will direct the individual to leave school grounds. If that person refuses to leave, law enforcement will be contacted. In classrooms, teachers have the right to teach and students have the right to learn. Disruptive students are redirected as needed and interventions including counseling support, parent meetings, and differentiated and scaffolded opportunities to re-regulate in the office as needed.

See Appendix A

## **Access to School Campus by Visitors BP/AR 1250**

MDUSD BP 1250

Visitors/Outsiders

Visitor Registration Procedure:

All visitors on campus must register in the office. It is required that all visitors sign in and out, and wear a visitor sticker.

See Appendix A

## **Procedures for Safe Ingress and Egress of Pupils, Parents, and Staff AR 0450**

Describe the procedures for safe passage when students and adults are entering and leaving school grounds. Identify your site's access points. Describe the utilization of campus supervisors, security personnel, and security equipment. Strandwood is located in a community that is committed to creating and sustaining a safe campus environment for adults and students. To provide proper stewardship, all students are asked to go to our upper and lower grade playgrounds at 7:55 AM each morning. Our playgrounds have supervisory teachers to ensure safety. Students line up at 8:05 AM and teachers escort students to classrooms and begin instruction by 8:05 AM. Strandwood does not provide supervision before 7:55 AM. Parents and guardians are expected to wait with their children if they arrive early and this is clearly communicated in our Back to School presentations, our school website, and monthly newsletters. In addition, all students are to be dropped off in front of the school in our yellow loading/unloading zone. No student is ever to be let out in traffic or from the driver's side of the vehicle. Students who ride bicycles, scooters, and skateboards to school use the bike racks in the area between the P Wing and the Multi Use Room as well as next to the kindergarten playground. It is recommended that bikes and scooters be locked. The school does not assume responsibility for missing bikes, scooters, and skateboards. In addition, students and parents/guardians are reminded to wear bike helmets and follow bike safety rules. During the school day, staff members provide proper supervision during all recesses. Teachers pick up students at the end of recess and escort them to class. The recess duty schedule is organized by teachers at the beginning of the year for all grade levels.

We have four noon supervisors (and one vacancy often filled by subs) who work from 10:40 AM to 1:07 PM. They provide supervision during our lunch recesses. The principal, office staff, noon supervisors, and custodial staff carry walkie-talkies when surveying the campus to allow continuous contact and increased support as needed.

Most students are picked up by parents, guardians or childcare providers immediately after dismissal. Students who have not yet been picked up wait either with the principal in front of the MU or in the main office. Caregivers are contacted if a child is not picked up promptly. Drivers are asked to avoid double parking in the parking lot to allow buses to pass as needed. No vehicle is to be left unattended at the curb for any reason. Parents are asked to drive slowly and watch for students at all times in the parking lot and it is expected that drivers will obey all cell phone/texting laws. Students and adults are reminded throughout the school year to be alert for distracted drivers, stay away from dangerous situations, watch out for each other, and make good choices on their trips to and from school.

All staff members are asked to notify the office staff and the principal immediately if they see strangers on campus. All visitors are expected to sign in and out at the office and wear a visitor's badge on campus. Substitute teachers and district employees are expected to wear MDUSD badges at Strandwood.

See Appendix A

## **Students with Disabilities**

If you have not described them elsewhere in your safety plan, include adaptations for students with disabilities in accordance with the federal Americans with Disabilities Act of 1990 (42 U.S.C. SEC §. 12101 et seq.) for disaster procedures, routine and emergency.

Strandwood has two EN-SDC classes for students with disabilities and a 1st-3rd grade magnet program for students diagnosed with autism. Most students are ambulatory and everyone participates in monthly safety drills.

Our support staff includes:

- 1 Resource Specialists
- 1 Resource aide
- 2 EN-SDC Teachers

1 Magnet Inclusion Teacher  
3 Speech and Language Specialists  
A Physical Therapist  
An Occupational Therapist  
11 Special Education SEAs

In the adult restroom in the secretary's office, we have a wheelchair to transport students who are non-ambulatory or unable to evacuate at a safe rate of speed. We also a private bathroom stall available with a changing table and toiletry supplies for student use as needed.

### **Response Procedures for Dangerous, Violent, or Unlawful Activity**

The School District prioritizes the safety and security of students, staff, and visitors. Immediate Protective Actions Assess the Situation Evaluate the level of risk and immediacy of danger. Determine whether emergency response protocols should be activated. Ensure Personal and Student Safety Move to a secure location if necessary. Avoid physical intervention unless required for immediate safety and consistent with district policy. Follow established emergency procedures (Lockdown, Evacuation, Shelter-in-Place, etc.). Contact Emergency Services Call 911 when there is an immediate threat to life or safety. Provide: School name and exact location Nature of the incident Description of involved individuals (if known) Known injuries Scene Management Secure or isolate the affected area when safe to do so. Prevent unauthorized access. Preserve evidence. Provide first aid within the scope of training until emergency medical personnel arrive. Cooperate fully with responding law enforcement. Post-Incident Actions Complete required district reporting documentation. Notify parents/guardians as appropriate and consistent with FERPA and district policy. Provide student and staff support services as needed. Conduct a safety review and update site procedures if warranted. Students If a student has concerns with respect to safety and security, they should report to staff member or report using the See Something, Say Something anonymous reporting system: <https://www.sandyhookpromise.org/say-something-tips/>

## Opioid Prevention and Life-Saving Response Procedures

School Administrators, and staff volunteers, are trained annually to recognize symptoms of an overdose and administer Naloxone. All schools are provided with free Naloxone in the event of a suspected overdose.

Rescue steps include:

- Step 1: Checking for signs of overdose
  - o Loss of consciousness
  - o Fingernails or lips blue/ purplish black
  - o Can't rouse - unable to speak
  - o Face pale or clammy
  - o Limp body
  - o Vomiting
  - o Breathing/heartbeat slow or stopped
  - o Choking sounds or snore-like gurgling
- Step 2: Call 911
- Step 3: Administer Naloxone and rescue breathing
- Step 4: Monitor and administer Naloxone again, if necessary

Naloxone lasts for 30 to 90 minutes and may wear off before the effects of opioids wear off, resulting in another overdose. If possible, stay with the person for several hours to ensure they don't overdose again. If the person cannot walk and talk well after waking up, it is very important that they are taken to the hospital for additional medical support.

## Cardiac Arrest

A team of trained responders (staff, coaches, nurses) will be identified to respond to cardiac emergencies. All responders will hold current certification in CPR and Automated External Defibrillator (AED) use.

Immediate Response Procedure

Step 1: Assess: Check the victim for responsiveness and breathing. If the victim is unresponsive and not breathing or only gasping, immediately assume cardiac arrest.

Step 2: Call 911:

-Shout for someone to call 911, state "cardiac emergency," and give the location.

-If you are the one calling 911, provide the school address, cross streets, and patient condition.

-Remain on the phone with 9-1-1. (Bring your mobile phone to the patient's side, if possible.)

-Give the exact location and provide the recommended route for ambulances to enter and exit. Facilitate access to the victim for arriving Emergency Medical Service (EMS) personnel.

Step 3: Get the AED: Dispatch a staff member to retrieve the nearest AED.

Step 4: Begin CPR: Begin continuous chest compressions and have someone retrieve the AED.

-Initiate chest compressions (100–120 compressions per minute) and rescue breaths (if trained).

-Follow the 9-1-1 dispatcher's instructions, if provided.

Step 5: Use AED: Turn on the AED immediately upon arrival and follow voice prompts.

Step 6: Transition Care: Continue CPR/AED until EMS arrives and takes over.

#### AED Placement and Maintenance

AED locations are marked in attached maps in the Comprehensive School Safety Plan.  
An appointed staff member will inspect all AEDs annually to ensure they are functional.

This Instructional Continuity Plan (ICP) was last revised on June 18, 2025 and adopted by Strandwood Elementary School on June 25, 2025 to ensure all students have access to instruction during a natural disaster or emergency, as mandated by Senate Bill 153, Chapter 38, Statutes of 2024 (SB 153), which adds a provision to California Education Code (EC) Section 32282.

This ICP will be included in the LEA's Comprehensive School Safety Plan (CSSP) by July 1, 2025. Inclusion of this ICP in the CSSP will be required to obtain approval of a Form J-13A waiver request beginning in fiscal year 2026-27. The Superintendent or designee shall notify parents/guardians that the district will only use information provided on the emergency cards in response to specific emergency situations and not for any other purpose. (Education Code 234.7)

Additionally, the Superintendent or designee may encourage all students and families to learn their emergency phone numbers and be aware of the location of important documentation, including birth certificates, passports, social security cards, physicians' contact information, medication lists, lists of allergies, and other such information that would allow the students and families to be prepared in the event that a student's parent/guardian is detained or deported.

In the event that a student's parent/guardian is detained or deported, the Superintendent or designee shall release the student to the person(s) designated in the student's emergency contact information or to any individual who presents a caregiver's authorization affidavit on behalf of the student. The Superintendent or designee shall only contact child protective services if district personnel are unable to arrange for the timely care of the student by the person(s) designated in the emergency contact information maintained by the school or identified on a caregiver's authorization affidavit. (Education Code 234.7)

In an instance where a student's parent/guardian was detained or deported, the Superintendent or designee shall notify the student, as well as the individuals designated in the student's emergency contact information and any individual who presented a caregiver's authorization affidavit on behalf of the student, that the student continues to meet the residency requirements for attendance in the district if the student and the student's parent/guardian who was detained or deported satisfy the conditions as specified in Education Code 48204.4.

The Superintendent or designee may refer a student or the student's family members to other resources for assistance, including, but not limited to, a U.S. Immigrant and Customs Enforcement detainee locator, legal assistance, or the consulate or embassy of the parent/guardian's country of origin.

### **Procedures Regarding Pupil Smartphone Use During Emergencies**

#### **NOTES ABOUT THIS SECTION**

The inclusion of this section in the Comprehensive School Safety Plan (CSSP) is required by Assembly Bill 962 (AB 962) if the school intends to maintain the authority to prohibit or limit a pupil's use of a smartphone during an emergency or perceived threat of danger. If these circumstances are not explicitly addressed here, pupils retain the right to use their smartphones during such events.

The governing board of the school district, county board of education, or charter school must develop and adopt a policy to limit or prohibit pupil smartphone use no later than

July 1, 2026, and update it every five years. The policy's goal must be to promote evidence-based use of smartphone practices to support pupil learning and well-being, and its development must involve significant stakeholder participation (pupils, parents, and educators)

### **Mandatory Policy Adoption and Review Requirements**

The date the policy was adopted/last updated, a summary of the policy's goal, and documentation of stakeholder involvement.

### **Non-Prohibitable Circumstances for Pupil Smartphone Use**

Confirm procedures for recognizing and respecting these exceptions:

1. When a teacher or administrator grants permission, subject to any reasonable limitation imposed by that teacher or administrator.
2. When a licensed physician and surgeon determines that the possession or use of a smartphone is necessary for the health or well-being of the pupil.
3. When the possession or use of a smartphone is required in a pupil's individualized education program (IEP).

## Appendix A: Active Shooter Event Quick Reference Guide

### When law enforcement arrives:

- Remain calm and follow instructions
- Drop items in your hands (e.g., bags, jackets)
- Raise hands and spread fingers
- Keep hands visible at all times
- Avoid quick movements toward officers, such as holding on to them for safety
- Avoid pointing, screaming or yelling
- Do not ask questions when evacuating

### Information to provide to 911 operations:

- Location of the active shooter
- Number of shooters
- Physical description of shooters
- Number and type of weapons shooter has
- Number of potential victims at location

### For questions or additional assistance contact:

Your local law enforcement authorities or FBI Field office:

Department of Homeland Security  
3801 Nebraska Ave, NW  
Washington, DC 20528

An “active shooter” is an individual who is engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters use firearms(s) and there is no pattern or method to their selection of victims.

- Victims are selected at random
- Event is unpredictable and evolves quickly
- Knowing what to do can save lives

## ACTIVE SHOOTER EVENTS

When an Active Shooter is in your vicinity, you must be prepared both mentally and physically to deal with the situation.

### You have three options:

- Have an escape route and plan in mind
- Leave your belongings behind
- Evacuate regardless of whether others agree to follow
- Help others escape, if possible
- Do not attempt to move the wounded
- Prevent others from entering an area where the active shooter may be
- Keep your hands visible
- Call 911 when you are safe
  
- Hide in an area out of the shooter's view
- Lock door or block entry to your hiding place
- Silence your cell phone (including vibrate mode) and remain quiet

- Fight as a last resort and only when your life is in imminent danger
- Attempt to incapacitate the shooter
- Act with as much physical aggression as possible
- Improvise weapons or throw items at the active shooter
- Commit to your actions . . . your life depends on it

The first officers to arrive on scene will not stop to help the injured. Expect rescue teams to follow initial officers. These rescue teams will treat and remove injured.

Once you have reached a safe location, you will likely be held in that area by law enforcement until the situation is under control, and all witnesses have been identified and questioned. Do not leave the area until law enforcement authorities have instructed you to do so.

## THREE STEPS TO PROTECT YOUR CHILD DURING EMERGENCIES IN THE SCHOOL DAY

**ASK** how you would be reunited with your child in an emergency or evacuation

**BRING** extra medications, special food, or supplies your child would need if you were separated overnight

**COMPLETE** a backpack card and tuck one in your child's backpack and your wallet

## ASK how you would be reunited with your child in an emergency or evacuation

**How would you find your child if an emergency happened during the school day?**

If students had to evacuate, where should parents/guardians go for pick up?

THIS SECTION REMOVED FROM POSTED PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.

How would the school notify you in the event of emergency?  
Phone call and email to all parents.

**BRING extra medications, special food, or supplies your child would need if you were separated overnight**

**An emergency might require a sudden sleepover. Tell school administrators about any extra supplies your child may need to safely make it through a night away from home.**

What essential supplies would your child need if separated from you overnight? (Medications? Inhaler? Milk? Diapers? Battery pack for special equipment?)  
This section is completed by parents/guardians.

Does the school have an emergency stockpile of these items? **Yes No**

If your child has special medications, can extras be kept at the school? **Yes No**

What is the school policy for how and when medicine can be administered to your child?  
Medications (including information from medical providers) are kept in the Main Office with the office secretary. The school nurse helps ensure staff members are properly trained and medications are up-to-date.

## COMPLETE a backpack card and tuck one in your child's backpack and your wallet

**Emergencies are chaotic! Make sure your child or their school knows how to reach you, and who should be called if your phone isn't working.**

Complete an emergency contact card to make sure you and your child know how to get in touch quickly.
