➤ **We Need Your Help – AHS Athletic Field**

The Alameda Unified School District (District) is continuing its planning process for an athletic field to serve the Alameda High School athletic program. The new athletic field is proposed to be located at 1801 Sandcreek Way at the site of the former Lum Elementary school and current temporary campus. The District held a public information meeting with neighbors and the community on March 3, 2026. Community feedback centered around how the District selected the proposed site, traffic and parking concerns, lighting and privacy concerns, and noise concerns.

Based on that feedback, the District will hold a public workshop to present additional information on the proposed project and interactively receive feedback on issues that matter most to the community, students and staff. District representatives and members of the design team will be present to provide information and answer questions.

Workshop information follows:

Workshop Date: Tuesday May 19, 2026

Workshop Time: 5:30 pm to 7:30 pm

Workshop Location: Wood Middle School

1801 Sandcreek Way, Alameda CA - Multi-purpose Room

(please proceed to the blacktop of the school, there will be signs and staff to help direct you)

Contact: AUSD Construction Department

P: (510) 337-7020

E: construction@alamedaunified.org

Additional Information: <https://www.alamedaunified.org/departments/construction/measure-b/alameda-high-school-athletic-field>

We will provide an overview of the history of the planning process that led to proposed project location. The workshop portion will include small groups utilizing Menti to allow participants to provide real-time feedback on key design criteria and alternatives. Menti can be anonymously accessed from your smartphone at the meeting or using a Chromebook provided at the meeting. We look forward to seeing you there.

➤ **Drop Off Etiquette**

Parents, please ensure you are not blocking the entrances or exits on Oak and Walnut during drop-off and pick-up. Parking or idling in these areas creates a significant safety hazard for our students and causes unnecessary traffic pileups for everyone. We appreciate your cooperation in keeping the flow moving!
