Requirements are:

- Assessment of school crime committed on school campuses and at school-related functions
- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The information contained in a school's safety plan may be supplemented by information not specified in the California Education Code sections **32280-32289**.

School Climate

Current Status of School Crime

Each school is required to assess the current status of school crime committed on the school campus and at school-related functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment.

Assessment of the Current Status of School Crime EC 32282(a)(1) Assessment of the Current Status of School Crime EC 32282(a)(1) with Parent, Teacher, and Student Input

Your assessment conclusions should reflect input from staff, students, parents and community members, as appropriate. The school has implemented a "Cellphone-Free School Environment" using Yondr pouches, where students' cellphones are locked from their first period to the end of the school day. Compared to previous years, there have been fewer suspensions and disciplinary issues with the "Cellphone-Free Campus" policy in place. SART and SARB referrals are up compared to last year, while Care Team referrals are about the same. Drugs (mainly vaping) remain an issue; however, violence and fights are down significantly from last year.

Administrators and campus supervisors take a proactive role in keeping the campus safe. Administrators conduct tardy sweeps multiple times per week. The school has developed an "Alternative Day Classroom" for students who need time outside of their regular classroom due to discipline issues, also serving as an alternative to suspension and an opportunity for restorative practices such as the YVAPE program. Administrators and campus supervisors are highly visible, walking the campus between classes, at lunch, and during brunch. This includes an "all-hands-on-deck" approach to passing periods, ensuring students get to class on time.

Provide and Maintain a High Level of School Safety EC 32282(a)(2)

Identify appropriate strategies and programs that provide and maintain a high level of school safety.

MDHS provides the following strategies and programs that provide and maintain a high level of school safety:

- Cellphone-free environment through the use of Yondr Pouches.
- The Diablo Community Center (DCC) provides family and student individual and group counseling, health referrals, tutoring, mentoring, and other community services.
- Contra Costa County Mobile Health Clinic provides health screenings, contraception, and physicals to students.
- Multicultural clubs to promote cultural pride and self-respect, such as the Asian Club, Latino Club, Gay-Straight Alliance, and Filipino Club.
- Support Call interventions.
- Campus Beautification Program.
- Lunch detention program.
- Alternative classroom setting for students with discipline issues as an alternative to out of school suspensions.
- School-wide implementation of Multi-Tier Support Systems (MTSS).
- Continued implementation of school-wide Constructing Meaning strategies to target English Language Learners.
- CARES after-school program to help with tutoring and credit recovery.

- A School Resource Officer who, along with four campus supervisors help supervise students and patrol the campus.

School Interventions and Support Systems BP 5144; AR 5149

MDUSD BP 5144

Discipline

List and describe interventions and support systems that are in place as a deterrent to suspension and expulsion.

Support Call Interventions: Used when students are being disruptive or failing to follow class rules, support calls are made and administrative support is provided. This support may include brief counseling of student(s) and/or the return of the student(s) to the class, removal of student from class, confiscation of technology if being used inappropriately, call to parent, parent-teacher conference, and assignment of administrative detention.

Communication with parents: This is done by both teachers and administrators when student's behavior and/or academic performance warrants it.

Conflict Resolution: The four administrators facilitate conflict mediation. Counselors are also available. Administration will conduct conflict resolution as the situation dictates.

Behavior Contract: Students are placed on behavior contracts when behavior dictates the need. Students may receive a plan based on multiple discipline issues, as a condition of a return to school after a suspension. The contracts are reviewed with students and parents, signed by both and entered into the AERIES system and students' cum file.

Coordinated Care Team Referral: Teachers, administrators, or other staff can refer a student to the Care Team. The Care Team meets every Thursday to discuss students that have been referred and devise a plan of action.

Student Support Team Meeting (SST): A meeting of teachers, administrator, parents, counselors and the student to discuss behavior and academic problems to develop a Behavior Support Plan.

District Positive Behavior Support Team Meeting: A meeting of district personnel, administrator, parents, student and counselors to discuss behavior and academic problems to develop a Behavior Support Plan.

Multi-Tier Support System (MTSS): A framework to establish the academic and behavior supports needed to improve social, emotional, behavioral, and academic outcomes for all students.

Tobacco Use and Prevention Program (TUPE): Student is referred to intervention program when he/she is found with nicotine, drugs, drug paraphernalia, alcohol, or if he/she is determined to be under the influence of drugs and/or alcohol.

The Diablo Community Center (DCC): The DCC operates several types of support groups during the course of the year. These support groups include, a LGBTQ support group, and a drug/substance abuse addiction group. The center also provides individual counseling for students.

Describe the guidelines for the roles and responsibilities of mental health professionals, community intervention professionals, counselors, school resource officers and police officers on your campus.

The roles and responsibilities of mental health professionals, community intervention professionals, counselors, school resource officers and police officers on MDHS are outlined within their job descriptions. Individuals in these positions are expected to assist school administrators in handling crisis situations and defusing tense situations involving students and/or the staff as well as responding to emergencies on campus.

School, Discipline, Program, Rules and Consequences. SCHOOLWIDE DISCIPLINE PLAN

As a student in the Mt. Diablo Unified School District attending Mt. Diablo High School, you have the responsibility to exercise self-discipline so that the rights of all are respected and a good learning environment can be maintained. The staff at Mount Diablo High School has created a Schoolwide Discipline Plan that will apply to all students. Listed below are the first 3 steps of the plan.

1. **VERBAL WARNING:** A teacher talks to the student and reaches an agreement regarding how the student should conduct him/herself. This is recorded in the teacher's log, and/or a parent is notified and reminded of the behavior expectancies and consequences.
2. **PARENT CONTACT:** A parent/guardian is notified and reminded of behavior expectations and consequences. Detention is assigned, or student is assigned other consequences as defined by the teacher's discipline plan. This is recorded in the teacher's log.
3. **SUPPORT CALL:** Chronic defiance (see #1, and #2), student is referred to appropriate administration for additional disciplinary action.

AVOIDANCE AND SELF-DEFENSE

Students should not take matters into their own hands but should report any incident related to intimidation, harassment, and fighting to a staff member and allow staff to assist them in handling the situation. Self-defense will be considered only in cases where a student has made every attempt to avoid a fight.

CARE OF SCHOOL PROPERTY

The school belongs to all students who are enrolled and to personnel who work here. It is therefore necessary that each student and all other school personnel treat school property as if it were their own. It is only by respecting the property of others and treating the property with care that we can maintain a respectable environment for all. Defacing of walls and vandalizing school or personal property is unacceptable at Mt. Diablo High School. Anyone found engaging in or promoting such activity will face severe disciplinary action resulting in fines, police report, suspension, or expulsion.

CELL PHONES/ELECTRONIC DEVICES

In order to maintain an academic environment, cell phones and earbuds are placed in a YONDR pouch on campus during the school day (8:30 a.m. – 3:40 p.m.). All electronic devices must not be seen or heard during class time. Students who act in violation of this policy shall be subject to the school's progressive discipline as follows:

1. Initial violation – electronic device will be confiscated by school staff and secured in the main office. A parent/guardian will be required to pickup the the electronic device.
 2. Second violation – electronic device will be confiscated and secured in the main office. The electronic device will not be returned to the student unless and until the student's parent or guardian meets with school administrative staff for the purpose of clarifying this policy; Detention will be assigned.
 3. Third violation – the electronic device will be confiscated and secured in the main office. The electronic device will not be returned to the student unless and until the student's parent or guardian provides written assurance that the student will no longer be allowed to possess the electronic device during the instructional day; Detention will be assigned.
 4. Fourth violation – the electronic device will be confiscated and secured in the main office. The student will be subject to suspension;
- Any further violations will subject the student to disciplinary action as set forth in Board AR 5144.1.

DEGRADING AND INFLAMMATORY COMMENTS / STATEMENTS

Students have the right to be free from abusive statements, written or verbalized, which in any way degrade the unique qualities of an individual such as his/her race, ethnicity, culture, heritage, sexuality, physical/mental attributes, or religious beliefs and practices. Such statements are damaging to a person's self-esteem, have no place in an educational institution, and are viewed as activities which are grounds for suspension from school and possible expulsion.

FIGHTING

Fighting at Mt. Diablo High School is a severe offense. Fighting is defined as any exchange of physical blows. Students involved in fighting or who encourage or participate in arranging fights will be subject to out of school suspension, and possible recommendation for expulsion. Any fight resulting in serious physical injury to any student or adult will be reported to the Concord Police Dept. and student(s) may be subject to arrest.

GANG ACTIONS

Mt. Diablo High School strongly discourages any group activity which results in harm to and/or intimidation of any MDHS student or group of students. Students will not be allowed to wear any article of clothing that identifies them as members of a group (gang) known for acts of intimidation and/or violence.

All students involved in assault / battery will be suspended and recommended for expulsion. These students will also be reported to the police for possible prosecution under the law. Harassment of one group by another will not be tolerated. Every attempt will be made to diffuse the situation with the help of the students' parents, campus resources and possibly the police. If, after all attempts to calm the situation have been made, the groups continue to harass one another, Mt. Diablo High School will seek to transfer students to an alternative program, alternate site, or recommend them for expulsion from the school district.

HAZING

The definition of hazing is "to initiate or discipline fellow students by means of humiliation, horseplay, practical jokes and tricks." Mt. Diablo High School prohibits hazing and will cooperate with parents if they wish to bring legal action against those who did the hazing. Students caught hazing another student will be subject to suspension and/or a recommendation for expulsion.

INTIMIDATION OR HARASSMENT

Intimidation or harassment is defined as any word or action that causes a student or adult to feel threatened or intimidated physically or emotionally. The penalty is out of school suspension and possible recommendation for expulsion. Police may become involved where applicable.

TOBACCO, E-CIGARETTES & VAPING POLICY

Students shall not possess, smoke, or use tobacco or any product containing tobacco or nicotine while on campus, while attending school-sponsored activities, or while under the supervision and control of district employees. (Education Code 48900, 48901). Tobacco products include: 1. A product containing, made, or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, including, but not limited to, cigarettes, cigars, little cigars, chewing tobacco, pipe tobacco, or snuff. 2. An electronic device that delivers nicotine or other vaporized liquids to the person inhaling from the device, including, but not limited to, an electronic cigarette, cigar, pipe, or hookah. 3. Any component, part, or accessory of a tobacco product, whether or not sold separately.

ANTI-BULLYING POLICY

It is the policy of the Mt. Diablo Unified School District to provide a safe and healthy environment for the entire school community and promote mutual respect, tolerance, and acceptance. We will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate or harass another student through words or actions. Such behavior includes direct physical contact including hitting or shoving, verbal assaults, teasing or name-calling and social isolation or manipulation. This policy applies on school grounds, going to and from school and at school-sponsored activities. It extends to all members of the community, male, female, adults, and students.

BULLYING, HARASSMENT & CYBER BULLYING

Education Code 48900.R (2008) permits a student to be suspended from school or recommended for expulsion for engaging in acts of bullying, including bullying committed by means of electronic acts.

SEXUAL HARASSMENT POLICY

District policy prohibits sexual harassment of or by any student. DEFINITION: Prohibited sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature made by someone from or in the work or educational setting, under any of the following conditions: (Education Code 212.5).

TELEPHONE USE

A telephone for student use, in the event of an emergency, is located in the Attendance Office. These phones may be used before or after school, during brunch and lunch. Students who wish to call home, due to illness, may see the attendance secretary for assistance. Only emergency messages will be delivered to students during school hours.

FOOD DELIVERY

Students are not permitted to order food delivery during the school day. Any food delivered to the school to students during school hours will be confiscated

during the school day. Any food delivered to the school to students during school hours will be confiscated

General Emergency Preparedness

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

Purpose of the Plan

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session.

Regulatory Authority

State laws and regulations require school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees.

The Katz Act [California Education Code, §35295-35297] requires schools plan for earthquakes and other emergencies. It also requires training in earthquake preparedness procedures for both certificated and classified staff.

The Petris Bill [Government Code, §8607] requires school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS are incorporated in District plans; that the Incident Command System (ICS) are used at school sites; that all school personnel are trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems.

This plan is designed and structured to ensure compliance with the mandates of state law as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires each employer facility have an Emergency Action Plan which focuses on specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate.

School Site Emergency Preparedness and Response Coordination

Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster. The principal must ensure that the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies.

Campus and Facility Site Preparedness Duties

School Custodians or designee:

- Assist principal in planning control procedures for different types of building damage.
- Routinely check that battery-operated equipment is in working condition.

CRISIS/EMERGENCY INCIDENT RESPONSE SYSTEM

Crisis Response

The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the MDUSD, will be used by this school as the formal emergency response structure. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

The organization of the Incident Command System is based on five major management functions or sections, which are also utilized in the SEMS response structure:

- Command (Management) Team - Provides overall direction of response at the school site
- Operations Team- Supports on-scene response at school site
- Planning Team- Collects, evaluates and documents information about the incident
- Logistics Team - Provides services, personnel and supplies in support of incident response
- Finance Team - Provides financial tracking, procurement and cost accounting of incident response

COMMAND AND ORGANIZATION DURING A CRISIS

Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times.

These three C's are:

- **Control** – Control is the cornerstone of every crisis/emergency response. In emergency response this is initiated and maintained through the effective use of the Incident Command System.
- **Communication** - Communication is essential to maintaining effective coordination of all response actions. Ongoing communication is must be maintained between response persons, school staff, and the command team.
- **Coordination** - Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

CHAIN OF COMMAND

An appropriate Incident Command System will be utilized during all school emergencies. This will facilitate the maintenance of effective control and coordination at campus emergencies.

In the event of a crisis, the principal will act as the Incident Commander at all school emergencies and is responsible for initiating and carrying out any emergency actions as required. The principal directs the ICS Team members and other school staff in the implementation of the response actions through the assignment of appropriate duties. If the principal/site administrator is not present, or cannot assume control for any other reason, the Chain of Command is as follows:

Incident Commander (Principal/Site Administrator)	Markel McCain/Principal Dr. Markell McCain
IC Alternate #1	Josie Kirkland
IC Alternate #2	Elizabeth Mangelsdorf
IC Alternate #3	Nadia Visaya

INCIDENT COMMAND SYSTEM (ICS)

During campus emergencies, designated school staff function within the Incident Command System until the arrival of outside response personnel. Upon arrival of outside response agencies, the Incident Commander will turn over command of the incident to the ranking response person. The school Incident Commander will document the time of the relinquishing of command and will remain at the Incident Command Post as part of a unified command structure.

The school will coordinate activities with the District Office during a major emergency or disaster. As deemed necessary by the principal or other person acting as the Incident Commander, resource requests will be made by the campus Logistics Team Leader directly to the District Office. All requests for initial emergency assistance will be made to the local emergency response agencies.

Note: Not all members of the ICS will be activated at every emergency. Decisions as to the extent of the response and staff activation will be made by the Incident Commander at the initiation of the response. School staff designated as the primary person for each position is shown following each position title.

EMERGENCY RESPONSE COMMUNICATIONS

During an emergency:

- Manage your environment to reduce confusion.
- Communicate with students to reduce anxiety and confusion.
- Call 911 if the emergency is in your area (e.g. your classroom) and inform office of the call.
- When evacuating your area communicate all clear by Link to Cliff Notes Evacuation #3 and lock the door. Keep room unlocked if a victim is still inside the room.
- During evacuation do not call the office unless you witnessed the emergency incident or suspects.
- Students should be allowed to text that they are safe but should not talk on the phone.
- Communication may be achieved by the use of intercom, walkie-talkies, telephones, messengers, bullhorns.
- School site direct dial telephones lines will continue to operate. This is usually the line that serves the fax machine. Each site should have one direct-dial telephone unit that can be plugged into this line.
- District school buses have a radio that can call the district. If on campus, the bus radio can be used to communicate with the district.

LOCATIONS

Command Post: The Command Post will be located such that the full emergency assembly area is in view, while maintaining adequate separation from students, evacuation assembly areas, the medical treatment area and student release areas. School personnel designated to contact outside emergency response agencies will notify the responding agency of the location of the Command Post at the school.

Evacuation Area: Whenever an evacuation is called ensure that the area is not a potential danger to the evacuees and/or is not in the path of the event. This includes danger from natural disasters, chemical/hazardous materials, explosive devices and potential violence threats. Notify the Incident Commander immediately if evacuation is deemed unsafe.

First Aid/Emergency Medical Response Center: In the event of a major disaster the First Aid area will act as both triage and treatment units. Two assumptions must be made regarding medical services:

- During a major event, local emergency medical service services may not be available and transportation of the injured may be delayed.
- District employees and visitors will be dependent on first aid rendered by trained district employees.

SCHOOL STAFF EMERGENCY RESPONSIBILITIES

General Staff Responsibilities

All staff members are directly responsible for the protection of students, members of the public and school assets. School administrators and teachers must ensure that appropriate steps are taken during emergencies. General responsibilities for ALL school staff in case of emergency include, but are not necessarily limited to, the following:

- Ensure that students are properly notified of the emergency.
- Take appropriate action with students as conditions require.
- Initiate first aid, rescue, equipment shutdown or damage control as needed.
- Account for all students.
- Notify the Assembly/Shelter and Care Officer of missing persons, or of any employees or students who require medical assistance.
- Contact parents or guardians as appropriate.

District Staff as Disaster Workers

The California Government Code [§3100 et. seq.], declares that all public government employees are disaster workers subject to such disaster service activities as may be assigned to them by their superiors or by law. In accordance with these legal responsibilities of public employees, all district personnel are subject to be called upon and must be prepared if at home or elsewhere, to report for duty in the event of an extreme emergency. Arrangements for care of one's family should be prearranged in order to permit discharge of this emergency responsibility. This law applies to District employees in the following cases:

- When a local emergency has been proclaimed
- When a state emergency has been proclaimed by the governor
- When a federal disaster declaration has been made by the president

All staff members should have a personal plan for themselves and their families that can be implemented during an emergency. Staff members should be prepared to remain on site for as long as 72 hours or longer following an emergency, possibly without contacting their home and families. Staff members with special home considerations should discuss these with the principal prior to any emergency.

Release of Teachers/Staff from Duties as Disaster Workers

Government Code §3100 declares that public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or by law. The term public employee includes all persons employed by the state or any county, city, state agency or public district, excluding aliens legally employed.

This means all school staff are considered disaster workers during a major emergency. School personnel assigned to school level Incident Command System positions and responsibilities will assume their posts as assigned by the site Incident Commander. Others

will remain at a central staging location to await assignment as needed. No staff person will be released from their normal or emergency response duties without the expressed permission of the principal or designee as directed by the superintendent or a designee. School principals will not allow such releases of their staff without first obtaining authorization from the superintendent or a designee.

Priority Release of Employees:

Staff members with special home conditions, such as infant children or invalid relatives, are invited to submit a written petition for “first opportunity” release after the crisis stages of an emergency. The administrator in charge will exercise this release at the earliest opportunity as follows:

- Those with dependents
- Those with no dependents
- Administrators

Potential Emergency Types and Responses Part One

School Administrators, teachers, and other staff will, at some time, be forced to deal with different types of potential or actual crises or emergency situations. The following sections describe the most probable situations, with specific response action directions included for each emergency type. The response actions are determined in coordination with the MDUSD Emergency Response Plan, the Incident Command System, and other district policies and guidelines.

ACTIVE SHOOTER SITUATIONS: RESPONDING TO AN ACTIVE SHOOTER SITUATION

School Comprehensive School Safety Plans should include courses of action that will describe how students and staff can most effectively respond to an active shooter situation to minimize the loss of life, and teach and train on these practices, as deemed appropriate by the school.

Law enforcement officers may not be present when a shooting begins. The first law enforcement officers on the scene may arrive after the shooting has ended. Making sure the staff knows how to respond and instruct their students can help prevent and reduce the loss of life.

No single response fits all active shooter situations; however, making sure each individual knows his or her options for response and can react decisively will save valuable time. Depicting scenarios and considering response options in advance will assist individuals and groups in quickly selecting their best course of action.

Understandably, this is a sensitive topic. There is no single answer for what to do, but a survival mindset can increase the odds of surviving. As appropriate for your community, it may be valuable to schedule a time for an open conversation regarding this topic. Though some parents or personnel may find the conversation uncomfortable, they may also find it reassuring to know that, as a whole, their school is thinking about how best to deal with this situation.

During an active shooter situation, the natural human reaction, even if you are highly trained, is to be startled, feel fear and anxiety, and even experience initial disbelief and denial. You can expect to hear noise from alarms, gunfire and explosions, and people shouting and screaming. Training provides the means to regain your composure, recall at least some of what you have learned, and commit to action. There are three basic options: run, hide, or fight. You can run away from the shooter, seek a secure place where you can hide and/or deny the shooter access, or incapacitate the shooter to survive and protect others from harm.

As the situation develops, it is possible that students and staff will need to use more than one option. During an active shooter situation, staff will rarely have all of the information they need to make a fully informed decision about which option is best. While they should follow the plan and any instructions given during an incident, often they will have to rely on their own judgment to decide which option will best protect lives.

RESPOND IMMEDIATELY

It is not uncommon for people confronted with a threat to first deny the possible danger rather than respond. An investigation by the National Institute of Standards and Technology (2005) into the collapse of the World Trade Center towers on September 11, 2001, found that people close to the floors impacted waited longer to start evacuating than those on unaffected floors.²¹ Similarly, during the Virginia Tech shooting, individuals on campus responded to the shooting with varying degrees of urgency.²² These studies highlight this delayed response or denial. For example, some people report hearing firecrackers when in fact they heard gunfire.

Train staff to overcome denial and to respond immediately, including fulfilling their responsibilities for individuals in their charge. For example, train staff to recognize the sounds of danger, act, and forcefully communicate the danger and necessary action (e.g., "Gun! Get out!") to those in their charge. In addition, those closest to the public address or other communications system, or otherwise able to alert others, should communicate the danger and necessary action. Repetition in training and preparedness shortens the time it takes to orient, observe, and act.

Upon recognizing the danger, as soon as it is safe to do so, staff or others must alert responders by contacting 911 with as clear and accurate information as possible.

As part of its preparedness mission, Ready Houston produces “Run, Hide, Fight” videos, handouts, and trainings to promote preparedness among residents of the Houston region. These materials are not specific to a school setting but may still be helpful. These videos are not recommended for viewing by minors. All of these items are available free of charge, and many are available at <http://www.readyhouston.tx.gov/videos.html>

Occupants of both towers delayed initiating their evacuation after World Trade Center 1 was hit. In World Trade Center 1, the median time to initiate evacuation was 3 minutes for occupants from the ground floor to floor 76, and 5 minutes for occupants near the impact region (floors 77 to 91). RUN

If it is safe to do so for yourself and those in your care, the first course of action that should be taken is to run out of the building and far away until you are in a safe location.

Students and staff should be trained to

- Leave personal belongings behind;
- Visualize possible escape routes, including physically accessible routes for students and staff with disabilities as well as persons with access and functional needs;
- Avoid escalators and elevators;
- Take others with them, but not to stay behind because others will not go;
- Call 911 when safe to do so; and
- Let a responsible adult know where they are.

HIDE

If running is not a safe option, hide in as safe a place as possible.

Students and staff should be trained to hide in a location where the walls might be thicker and have fewer windows. In addition:

- Lock the doors;
- Barricade the doors with heavy furniture;
- Close and lock windows and close blinds or cover windows;
- Turn off lights;
- Silence all electronic devices;
- Remain silent;
- Hide along the wall closest to the exit but out of the view from the hallway (allowing for an ambush of the shooter and for possible escape if the shooter enters the room);
- Use strategies to silently communicate with first responders if possible, for example, in rooms with exterior windows make signs to silently signal law enforcement officers and emergency responders to indicate the status of the room's occupants; and
- Remain in place until given an all clear by identifiable law enforcement officers.

FIGHT

If neither running nor hiding is a safe option, as a last resort when confronted by the shooter, adults in immediate danger should consider trying to disrupt or incapacitate the shooter by using aggressive force and items in their environment, such as fire extinguishers, and chairs. In a study of 41 active shooter events that ended before law enforcement officers arrived, the potential victims stopped the attacker themselves in 16 instances. In 13 of those cases they physically subdued the attacker.²³ While talking to staff about confronting a shooter may be daunting and upsetting for some, they should know that they may be able to successfully take action to save lives. To be clear, confronting an active shooter should never be a requirement in any school employee’s job description; how each staff member chooses to respond if directly confronted by an active shooter is up to him or her. Further, the possibility of an active shooter situation is not justification for the presence of firearms on campus in the hands of any personnel other than law enforcement officers.

BOMB THREAT/SUSPICIOUS PACKAGE

BOMB THREAT

THIS SECTION HAS BEEN REMOVED FROM PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.

SUSPICIOUS PACKAGE

- Anyone discovering a suspicious package, box or strange device will do the following:
- Not touch or remove strange objects.
 - Notify the principal.
 - Principal will notify the police department, the fire department and the superintendent.
 - Principal will evacuate the buildings.

Whenever a bomb threat is received or a suspicious package is found, a police officer will evaluate the threat or object before instituting a search of the buildings or sounding the signal for staff and students to return to the buildings.

The superintendent is to be kept informed of all actions.

EARTHQUAKE

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action.

If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required.

If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face.

If notebooks or jackets are handy, hold these overhead for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult.

If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover. In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill.

The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

EARTHQUAKE HAZARDS COMMONLY FOUND IN SCHOOL BUILDINGS:

- Glass that shatters or flies around
- Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)
- Objects that block movement to safe places (books on floors, tipped desks and bookcases)
- Cabinets without latches
- Objects stored on wheels
- Open shelving without a lip or restraining wire
- Free standing cabinets
- Blocked exits
- Objects in hallways that block movement (glass, tables, locker contents)

SETTLING DOWN AFTER THE FIRST SHOCK:

After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.

When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.

Announce that no student is to return to the room unless directed to do so.

Teachers will take classes to pre-arranged places on the campus.

Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.

School will remain open indefinitely until every student has been released to parents or to an authorized person.

Do not light any fires after the earthquake because of possible gas leaks.

If possible, notify utility companies of any break or suspected breaks in service.

The **Incident Commander** should procure the advice of the Director of Maintenance and Operations regarding the safety of the buildings.

The **Incident Commander** should keep the superintendent informed of conditions at the school.

Whenever possible disaster supplies should be kept in a locked shed away from the school buildings and accessible once all personnel and students are safely accounted for and secured in the evacuation area.

STUDENT RELEASE

THIS SECTION HAS BEEN REMOVED FROM PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.

THE GREAT SHAKEOUT EARTHQUAKE DRILLS

All Mt. Diablo USD schools are encouraged to participate in the annual Great ShakeOut Earthquake Drills. See <https://www.shakeout.org/index.html> for more information.

FIRE

In the event a fire is detected within a school building, the school fire alarm will be sounded. This will automatically implement the action to LEAVE THE BUILDING.

Upon receiving the order to evacuate, staff will assume their designated positions in the hallways of the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: All teachers and staff are to evacuate to the student parking lot
3. Upon exit put trash can outside door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed.
5. If on prep or don't have a class: Help what ever teacher or students are nearby
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. Hold up GREEN card if all students are accounted for. RED card if missing students or assistance required. If not used, describe alternate practice:
N/A.
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be "All Clear" announcement
12. Communicate with your students and maintain control.

The fire department will be notified. The police and superintendent should also be notified.

Access roads to the school campus should be kept open by **Security/Traffic** team personnel.

Students and staff will not return to the buildings until the fire department declares the area safe and the **Incident Commander** has announced the ALL CLEAR.

Clothing on fire: STOP. DROP. ROLL. Use other pieces of clothing to help smother the flames. Immediately call 911. Render first aid.

Intruder drills are practiced each year. Staff training is provided. Ample warning and preparation are made so that students and families are aware of the drills. Law enforcement should be invited to participate in these drills

Potential Emergency Types and Responses Part Two

CHEMICAL SPILLS WITHIN THE SCHOOL

In the event of a chemical spill or incident at school, the site administrator will determine what emergency action to take depending upon the circumstances. Teachers in the area shall do the following:

- Restrict the area of the incident and evacuate the area as deemed necessary.
- Rescue injured or trapped persons and remove from area, if trained to do so.
- Provide first aid as needed.
- If possible, determine the name(s) of the chemical(s) and provide that to the emergency respondents.
- Allow no one in the immediate area of the spill except emergency personnel.
- The office will alert classes to, "Shelter-in-Place."
- Notify the Superintendent's office.

CHEMICAL ACCIDENT NEAR THE SCHOOL

Warning of a chemical accident is usually received from fire and/or police departments or from emergency services officials when such accident occurs sufficiently near a school to be a threat to the safety of students and staff. An overturned tanker, a broken fuel line, and an accident in a commercial establishment that uses chemicals are all potential hazards. Whether the accident occurs at the school or off the school grounds, the site administrator shall determine if there is need to EVACUATE or to SHELTER-IN-PLACE. This decision will be made in coordination with offsite emergency respondents. If it is necessary to evacuate the area, move crosswind, never directly with or against the wind which may be carrying fumes. Get upwind as quickly as possible.

CRISIS INVOLVING INDIVIDUAL STUDENTS AND/OR STAFF

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist to determine identification of short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

A general message will be prepared and whenever possible parents will be contacted first in order to be the first adults to provide the information and support their children. All staff will be debriefed and supported. Activities to best meet the needs of the community will be provided aimed at providing counseling, a way for all to process (writing, drawing, and sharing). Activities such as games, music and reading may be planned over a short period of time to reduce anxiety and work demands. Follow and close monitoring for students and staff to insure latent reactions and responses.

DISCARDED WEAPON OR DRUG LAB/PARAPHERNALIA

DISCARDED WEAPON: GUN OR RELATED ITEM

A staff person may discover a discarded gun or related item or a student may also bring this to a staff person's attention.

In these circumstances:

- Staff will remain at the location and notify the office of the situation.
- The office will immediately notify the local authorities.
- Staff will not take any active response role in these situations.
- Keep the area clear of students and faculty until local authorities have arrived.
- As appropriate, conduct a Shelter in Place.

DISCARDED WEAPON: KNIFE OR RELATED ITEM

A staff person may discover a discarded knife or related item or a student may also bring this to a staff person's attention.

In these circumstances:

- Staff will remain at the location and notify the office of the situation.
- Trained staff as designated by principal or designee will recover the item and notify the authorities as appropriate.

DISCARDED DRUG LAB OR DRUG USE PARAPHERNALIA

A staff person may discover a discarded drug lab or drug use paraphernalia or a student may also bring this to a staff person's attention.

In these circumstances:

- Staff will remain at the location and notify the office of the situation.
- The office will immediately notify the local authorities.
- Staff will not take any active response role in these situations.
- Keep the area clear of students and faculty until local authorities have arrived.
- As appropriate, conduct a Shelter in Place.

EXPLOSION

The DROP command is to be given immediately in the event of an explosion at the school or within a school building.

If the explosion occurs within the building or threatens the building, the teacher will then implement the school evacuation plan. Assemble at the designated assembly area.

Sound the fire alarm and proceed as above for a fire.

Notify the superintendent's office.

FALLEN AIRCRAFT

Warning of a failing or fallen aircraft is usually by sight, sound or fire. If an aircraft falls near the school, the following actions will be taken:

- The site administrator will determine which emergency actions should be implemented. When necessary, teachers will take immediate action to ensure the safety of students if the site administrator is unable to direct emergency action.
- Students and staff must be kept at a safe distance from the aircraft, as it may explode. Move crosswind or stay up wind to avoid fumes.
- Call 911

Notify the Superintendent's office.

NATURAL GAS LEAK OR RUPTURED GAS LINE

The site administrator will evaluate the situation and determine the need for a building evacuation.

Offsite emergency respondents will be called if a leak is suspected.

In general, an evacuation of the building(s) will be conducted whenever there is a strong smell of natural gas within the school. Evacuations under other circumstances will be decided upon based on discussions with offsite emergency respondents. The site administrator will then initiate whatever emergency action is required.

Notify the superintendent's office.

RABID OR VICIOUS ANIMAL

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified Shelter In Place. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors.

Notify the Superintendent's Office.

SEVERE WINDSTORM

Warning of an impending windstorm is usually received via radio, television or civil defense officials. The United States Weather Bureau can usually forecast severe windstorms. If high winds develop during school hours without sufficient warning, the following emergency actions should be taken:

- Implement action to TAKE COVER. Students and staff should assemble inside shelters or buildings.
- Close windows and window coverings. Seek shelter away from windows.
- Remain near an inside, ground level wall if the building is more than one level.
- Evacuate classrooms that bear the full force of the wind.
- Avoid auditoriums, gymnasiums and other enclosures that have long roof spans.
- Keep tuned to a local radio station for the latest advisory information.
- Take roll and complete a Student Accountability Form.
- Notify site administrator of any break or suspected break in utility lines or buildings which might present an additional hazard.
- If possible, contact and report conditions to the superintendent.
- Don't permit any staff to leave the building until the winds have subsided and it is safe to do so.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

EVACUATION PROCEDURES

EVACUATION ALARM SYSTEM

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the **Incident Commander**, will carry out the initial response actions delineated in the ***Emergency Preparedness and Crisis Response Plan***. In consultation with members of the **Incident Command Team**, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency.

Incident Command Team members will immediately assume their designated response duties as activated by the **Incident Commander**. The **Disaster Response Officer** will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned.

When a decision is made to evacuate, the **Assembly /Shelter and Care Team** leader will immediately report to the assembly area and inspect the area for hazards. The **Assembly /Shelter and Care Team** leader will notify the **Disaster Response Officer** immediately if the area is safe. If not, the **Assembly /Shelter and Care Team** will advise that the evacuation be done to the alternate assembly location.

This evacuation may be a partial evacuation of only portions of the building in a localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified according to the site's ***Preparedness and Crisis Response Cliff Notes***.

If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

COORDINATING THE EVACUATION

Upon receiving the order to evacuate, staff will assume their designated positions in the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Staff are also responsible to ensure that all disabled persons in the building are assisted as necessary.

1. Take emergency backpack, and attendance information.
2. Teachers evacuate with current class. If evacuation occurs outside of a class period: All teachers and staff are to evacuate to the student parking lot
3. Upon exit put trash can outside door to indicate room is all clear and lock door. Keep unlocked if victim is inside.
4. Check with buddy teacher. Assist/evacuate both classes if needed. 5. If on prep or don't have a class: Help what ever teacher or students are nearby
6. Check common areas while evacuating.
7. Evacuate to primary location via assigned route, adjust as needed.
8. At evacuation location, line up, and take attendance.
9. Hold up GREEN card if all students are accounted for. RED card if missing students or assistance required. If not used, describe alternate practice:
N/A.
10. Stay with class unless you are released to assume other duties.
11. Release from drill will be "All Clear" announcement
12. Communicate with your students and maintain control.

EVACUATION ASSEMBLY AREAS

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area.

ALL students and staff must report to the assembly area and remain there until the **Incident Command Team**, via the **Assembly /Shelter and Care Team**, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's **Student Release Procedures** as outlined in the site's **Preparedness and Crisis Response Cliff Notes**. This will not be done unless it is authorized by the **Incident Command Team**.

Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the **Assembly /Shelter and Care Team** as outlined in the site's **Preparedness and Crisis Response Cliff Notes**. If someone is deemed missing, the teacher is to immediately report this fact to the **Assembly /Shelter and Care Team** as outlined in the site's **Preparedness and Crisis Response Cliff Notes**.

ACCESS CONTROL PERSONNEL

Whenever an evacuation is called, the designated **Security/Traffic** response team (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in the **Emergency Preparedness and Crisis Response Plan**.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

STUDENT EARLY DISMISSAL AND EMERGENCY SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees.

Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the procedures outlined in the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

RELEASE OF STUDENTS FROM SCHOOL

MDUSD and this school want to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school. Parents are encouraged to print out and complete the **ABC's – Three Steps to Protect Your Child during Emergencies in the School Day (Appendix B)**

In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand by the parent. As a part of annual registration, sites collect emergency contact information in AERIES. From AERIES, **Emergency Cards** shall be printed and used for this purpose. It is recommended sites print copies for teachers to have on hand in their emergency packs along with roll information. Office shall also print out the **Emergency Student List** or **Emergency Cards** and maintain that in the office emergency evacuation kits.

Parents or others must check with this school's **Student Release** team at the emergency **Student Release Location** prior to pick up of their children. Teachers will release students according to the procedure outlined under the **Emergency Student Release Procedures** described below.

EMERGENCY RELEASE PLAN PROCEDURES

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

- At time of emergency, students remain with their current classes. Teacher takes roll on an Accountability Form and await direction from **Incident Commander** via **Student Release** team.
- **Incident Command** will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon **Student Release** team directive.
- THIS SECTION HAS BEEN REMOVED FROM PLAN FOR SECURITY PURPOSES. IF YOU WISH TO SEE THE FULL PLAN, CONTACT THE SCHOOL PRINCIPAL FOR AN APPOINTMENT.
- Students will be released only to authorized adults listed on the **Emergency Card** or **Emergency Student List**. Adults picking up students must sign **Student Release Log** and indicate destination. Unless otherwise directed by **Incident Commander** via **Student Release officer**, a runner takes message to teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student and releases.
- Students may go home with people listed on **Emergency Card** or **Emergency Student List** if parent can't be reached.
- Periodically, as students are released, remaining students will be consolidated.
- Teacher takes attendance after each consolidation, informs **Assembly/Shelter and Care** team as well as the **Student Release** team, and keeps all documentation.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

TRAINING

The key to effective and coordinated emergency response efforts is the proper training of school response personnel as to their duties in an emergency or disaster. Proper training is mandated under the SEMS requirements for District staff and students and by Cal/OSHA for employees of the District.

ALL DISTRICT RESPONSE STAFF AND STUDENTS

All non-response District staff, as well as all students, will receive training in the following areas:

- Brief overview of the District Emergency Operations Center (EOC) plan and its coordination with School Crisis Response plans.
- Brief overview of the School Crisis Response Plans and its coordination with the District EOC plan.
- Responder positions within each plan and the duty to follow instructions of the response team personnel.
- Use of drills and exercises to provide hands-on instruction to staff and students.

SCHOOL CRISIS RESPONSE TEAM PERSONNEL

All school staff will receive training and detailed information on the **Incident Command System** and its use at a school crisis or disaster response. This will include but is not limited to:

- Initiation and functioning of the ICS Command Post.
- ICS response positions, their responsibilities, and the use of position checklists.
- Development of site Incident Action Plans and the utilization of, and coordination with, EOC actions at the District level.
- Importance of documentation of site ICS activities and damage assessment information.
- Demobilization procedures for down-sizing and closing the ICS Command Post.

DRILLS AND EXERCISES

Because emergencies occur without warning, life-protecting actions must be taken immediately at the first indication of emergency conditions. There may be no time to think through all of the options for what must be done. Emergency drills will be conducted periodically to help familiarize everyone with basic procedures and to help students and staff learn how to react immediately and appropriately.

Exercises and drills will be conducted at the school site level. The essential components of school site emergency drills are classroom training and discussions, demonstrations and exercises designed to help staff and students learn and practice where to seek shelter and how to protect themselves based on the kind of emergency they are facing.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

Campus Disturbances and Disruptions BP/AR 5131.4; BP/AR 3515.2

MDUSD AR 5131.4

Campus Disturbances

Campus Disturbance Plan.

Campus Disturbances.

Campus Disturbance Plan.

I. The type of disturbance will dictate how the staff will be notified and how communication will be handled. As needed, MDHS will use the telephone, the two way walkie-talkies and/or the school wide intercom system to communicate a possible emergency situation on campus. If the emergency originates within a classroom, the teacher generally uses the telephone to notify the office of the disruption. Walkie-talkies are used to communicate between administration, campus security, and office staff. If the disruption requires school wide notification, the intercom system is used. The school will follow the notification procedures as outlined in the Crisis Response Plan.

Crisis or emergency situations often cause those involved to feel bewildered, shocked and helpless. An effective crisis response makes both the physical and emotional safety of individuals a priority. It is essential to have general crisis response actions determined in anticipation of, and prior to, an actual event. Preparedness steps, including the coordination of basic initial response actions must be taken before an incident occurs. The following are initial steps to be taken by school staff in responding to any crisis:

1. Fact gathering

- Confirm and clarify the facts surrounding the crisis.
- Conduct interviews with participants and any identified witnesses.
- Notify principal or designee as to incident or developing situation
- Contact police or other emergency services if situation or condition is a potential or real threat to school students and/or staff, district officials, parents of involved students.

2. Call to action

- Principal, or designee, will implement a basic Incident Command System and will assume command over the situation as needed.
- Principal, or designee, will determine the level of activation required for assembling the Crisis Response Team.
- Incident Commander will determine/request support services needed (i.e. MDUSD psychologists or other district or community emergency services).
- Command Staff will notify District officials.

3. Inform staff, students, parents and community

- School, as part of the coordinated response system, will implement communication plan with faculty and other staff.
- The principal will determine method and timing of providing students, parents and the school community with information.
- The school Information Officer will, when appropriate, prepare a written statement – anticipate questions.

4. Taking action

- The first person on the scene of the incident will implement “first-response” actions. The nature of the emergency will dictate what initial actions are needed.
- Responders will keep adult leaders circulating through school.
- Plan for teacher-guided discussions, assembly, classroom activities, and presentations, as appropriate.
- Identify high risk individuals.
- Schedule faculty and parent meetings as needed.
- Make referrals to community agencies.
- Document events.
- Determine next steps using District Emergency Operations Plan post-incident response procedures.

II. Specific duties of the staff are as follows:

The Site Incident Commander/Disaster Coordinator: Principal/Site Manager

The principal or site manager is designated the Site Incident Commander in an emergency and is responsible for overall responsibility for site and emergency response operations. During an emergency the Site Incident Commander is responsible for the following:

- Maintaining internal and external communications. Report the emergency to appropriate emergency response agencies and the Superintendent as soon as possible.
- Assuming overall direction of site disaster procedures.
- Accounting for the presence of all students and staff.
- Directing the evacuation of the building, if necessary, using prescribed procedures for type of emergency. Conditions warranting evacuation could include: fire, indoor chemical spill, explosion, threatened explosion, collapsing building, etc. If

evacuation is necessary, direct students and staff to a safe location. Call Transportation for buses, if necessary.

- Issuing orders to teachers if the students are to assemble in pre-selected safe areas within the campus.
- Reporting to the Superintendent, as soon as possible, the status of the emergency, the site condition and any injuries to staff or students.

Teachers are responsible for the supervision of students in their charge. In discharging this responsibility, they will be governed by the specific directives or guidelines issued by the principal of their school. During emergency teachers shall:

- Coordinate and carefully monitor the evacuation of their respective classroom when evacuating the building.
- Take a current class list of students when evacuating the building.
- Respond to the specific emergency as prescribed and direct students in appropriate safety procedures.
- Take role if class relocates using current class list, as soon as conditions permit such action.
- Report missing students to principal; and if there is reason to believe that a student might be endangered, report need for rescue.
- Release students to parents or other persons according to the District’s student release policies and only to persons designated on the emergency forms.

- Report number and severity of injured students and send them to the site first aid station, if appropriate. Attach identification tag to injured persons who cannot respond. If injured person is taken immediately to a medical facility, keep a record of the person's name and to which medical facility the person was taken.
- Help to restore order and assist other teachers and students as needed.
- Remain with the students until relieved by the principal.
- If not on classroom duty with students, report at once to the pre-assigned station or to the principal.

School Office Managers

During an emergency, school office managers shall:

- Take student emergency information cards and AM/FM radio as the building is evacuated.
- Keep principal informed regarding District directives, injury reports, damage reports, status of students, etc.
- Serve as the principal's chief communication agent between school site and Education Center.

Site Custodians

During an emergency, school custodians shall:

- Take school emergency supply kit as the building is evacuated.
- Turn off utilities as may be necessary. Utilities should not be turned off unless absolutely necessary (i.e., broken gas or water mains, downed electrical wires, etc.).
- Conduct rescue operations as required and to extent of capabilities.

Individual teachers will be surveyed at the beginning of each year to determine specific skill sets that will assist in responding to different emergencies. As needed, police and health care professionals will be called to assist in responding to a disturbance on campus.

IV. The Principal or designee will assess a disturbance and determine if police assistance is needed. When a crime has been committed on campus and/or the school has knowledge of a crime being committed off campus by student[s] the police will be informed. Generally, if the situation is creating a unsafe environment and the administration is not able to respond in such a way as to make the campus safe for all students, police assistance will be requested.

V. STUDENT EARLY DISMISSAL/SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees.

Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the policies and procedures of the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

A. Release of Students From School Site(s)

It is the policy of the MDUSD and this school to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting

parents with children in the event of an emergency at school.

In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand in writing by the parent. Disaster Emergency Cards shall be completed by parents and used for this purpose. These cards shall be made available at the beginning of the school year and returned to the school.

Completed cards will be organized alphabetically and kept on file in the office.

Following an emergency when parents are unable to come to school, staff should be prepared for parents to fax copies of a signed authorization to release their son/daughter to a friend who can come to the school. Parent signatures must be on the faxed authorizations and must be matched to the signature on the Disaster Emergency Cards prior to the student's release.

Disaster emergency cards shall be made available to parents at the beginning of the school year and kept on file throughout the year. They shall be organized by students' last names. When release of students is imminent, students shall be reorganized into English classes.

Parents or others must check with this school's Liaison Officer at the emergency Command Post prior to entering the school to pick up their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

B. Emergency Release Plan Procedures

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain in their current classes. Teacher takes roll on emergency roll sheet. Await directive from office.
2. The school administration will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon administrative directive via intercom or bullhorn.
3. All adults without classes shall report to the Command Post for assignment of other duties. These duties may include, but not be limited to:
 - Covering classes
 - Acting as first aid assistants
 - Meeting parents who are picking up students
 - Acting as runners
 - Sending runners to class for pickup
 - Assisting students without a disaster card

4. Teachers will wait for directive from runner to take entire class to assigned phone to call for permission to leave. Teachers must talk to parent if student is not walking home or is going home with someone not on disaster card.
5. Teachers will make phone notes on Student Accountability Form.

6. Adults picking up students will identify self at gate; runner takes message to English teacher with name of child and name of adult. Teacher double-checks sign-out sheet, stamps student with red ink stamp on back of hand and releases student.

7. Students may go home with people listed on disaster card if parent can't be reached. As students clear out, remaining students will be consolidated in rooms with phones.

8. Teacher takes attendance after each consolidation.

Visitors/Outsiders

Visitor Registration Procedure:

Visitor Registration Procedure:

VISITORS ON CAMPUS.

Parents/guardians are always welcome on campus as visitors, and must check in at the office when coming to school. School-age visitors are generally refused permission to visit. School staff is directed to question any individual they do not recognize. Campus supervision is provided through administrative assignments and employment of campus supervisors. Supervision is regularly scheduled before and after school hours and during breaks and lunch periods.

See Appendix A

Procedures for Safe Ingress and Egress of Pupils, Parents, and Staff AR 0450

Describe the procedures for safe passage when students and adults are entering and leaving school grounds. Identify your site's access points. Describe the utilization of campus supervisors, security personnel, and security equipment. MDHS is bordered to the east by East Street, to the south by Bacon Street., and to the north by Gill Street. In addition, there is a public street (Grant Street) which bisects the school. Installed steel gates on Bacon Street and Gill Street (which can be locked or unlocked by campus supervisors and administrators) prohibit public access on Grant Street from 8:15am to 4:00pm. Furthermore, steel doors were also installed extending from the street to the sidewalk. They are locked during school hours, and the only access out is on the Gill Street side, which is staffed by a campus supervisor. Security cameras, security equipment and walkie-talkies are used daily by administration and campus safety staff to promote a safe environment.

Parents or visitors can access MDHS by parking in the faculty or student parking lots. School employees have access to parking lots to the west and east of Grant Street.

BUSES

Approximately half of the students are bused from the Bay Point area. The buses arrive starting at 7:15am and drop students off on Grant Street, directly in front of the main office area. The buses leave (from the same location) around 3:40 pm every day (with the exception of Wednesday due to early release.) Students who are not bused to school either walk, drive, take BART, or are dropped off and picked up by parents.

CLOSED CAMPUS

Mt. Diablo High School operates a closed campus as required by the MDUSD Board of Education. Students must remain on campus from the time they arrive on campus before school until the end of their school day unless they are issued a permit authorizing them to leave school. Students leaving school without prior clearance from the office are truant. Their absence will be considered unexcused.

It is important that students check out of school officially through the Attendance Office before leaving campus. A student who needs to leave school for any reason must call parents or have a parent call (682-4030) prior to 9:00am of the day the student needs to leave for the appointment. It is the student's responsibility to come to the Attendance Office before school, at brunch, or lunch on the day of his/her appointment for a permit to leave campus.

Response Procedures for Dangerous, Violent, or Unlawful Activity

The School District prioritizes the safety and security of students, staff, and visitors. Immediate Protective Actions Assess the Situation Evaluate the level of risk and immediacy of danger. Determine whether emergency response protocols should be activated. Ensure Personal and Student Safety Move to a secure location if necessary. Avoid physical intervention unless required for immediate safety and consistent with district policy. Follow established emergency procedures (Lockdown, Evacuation, Shelter-in-Place, etc.). Contact Emergency Services Call 911 when there is an immediate threat to life or safety. Provide: School name and exact location Nature of the incident Description of involved individuals (if known) Known injuries Scene Management Secure or isolate the affected area when safe to do so. Prevent unauthorized access. Preserve evidence. Provide first aid within the scope of training until emergency medical personnel arrive. Cooperate fully with responding law enforcement. Post-Incident Actions Complete required district reporting documentation. Notify parents/guardians as appropriate and consistent with FERPA and district policy. Provide student and staff support services as needed. Conduct a safety review and update site procedures if warranted. Students If a student has concerns with respect to safety and security, they should report to staff member or report using the See Something, Say Something anonymous reporting system: <https://www.sandyhookpromise.org/say-something-tips/>

Opioid Prevention and Life-Saving Response Procedures

School Administrators, and staff volunteers, are trained annually to recognize symptoms of an overdose and administer Naloxone. All schools are provided with free Naloxone in the event of a suspected overdose.

Rescue steps include:

- Step 1: Checking for signs of overdose
 - o Loss of consciousness
 - o Fingernails or lips blue/ purplish black
 - o Can't rouse - unable to speak
 - o Face pale or clammy
 - o Limp body
 - o Vomiting
 - o Breathing/heartbeat slow or stopped
 - o Choking sounds or snore-like gurgling
- Step 2: Call 911
- Step 3: Administer Naloxone and rescue breathing
- Step 4: Monitor and administer Naloxone again, if necessary

Naloxone lasts for 30 to 90 minutes and may wear off before the effects of opioids wear off, resulting in another overdose. If possible, stay with the person for several hours to ensure they don't overdose again. If the person cannot walk and talk well after waking up, it is very important that they are taken to the hospital for additional medical support.

Cardiac Arrest

A team of trained responders (staff, coaches, nurses) will be identified to respond to cardiac emergencies. All responders will hold current certification in CPR and Automated External Defibrillator (AED) use.

Immediate Response Procedure

Step 1: Assess: Check the victim for responsiveness and breathing. If the victim is unresponsive and not breathing or only gasping, immediately assume cardiac arrest.

Step 2: Call 911:

-Shout for someone to call 911, state "cardiac emergency," and give the location.

-If you are the one calling 911, provide the school address, cross streets, and patient condition.

-Remain on the phone with 9-1-1. (Bring your mobile phone to the patient's side, if possible.)

-Give the exact location and provide the recommended route for ambulances to enter and exit. Facilitate access to the victim for arriving Emergency Medical Service (EMS) personnel.

Step 3: Get the AED: Dispatch a staff member to retrieve the nearest AED.

Step 4: Begin CPR: Begin continuous chest compressions and have someone retrieve the AED.

-Initiate chest compressions (100–120 compressions per minute) and rescue breaths (if trained).

-Follow the 9-1-1 dispatcher's instructions, if provided.

Step 5: Use AED: Turn on the AED immediately upon arrival and follow voice prompts.

Step 6: Transition Care: Continue CPR/AED until EMS arrives and takes over.

AED Placement and Maintenance

AED locations are marked in attached maps in the Comprehensive School Safety Plan.
An appointed staff member will inspect all AEDs annually to ensure they are functional.

Instructional Continuity Plan

Introduction and Purpose of the Instructional Continuity Plan (ICP)

Information about the Instructional Continuity Plan (ICP) requirements, revision and adoption dates.

This Instructional Continuity Plan (ICP) was last revised on June 18, 2025 and adopted by Mt. Diablo High School on June 25, 2025 to ensure all students have access to instruction during a natural disaster or emergency, as mandated by Senate Bill 153, Chapter 38, Statutes of 2024 (SB 153), which adds a provision to California Education Code (EC) Section 32282.

This ICP will be included in the LEA's Comprehensive School Safety Plan (CSSP) by July 1, 2025. Inclusion of this ICP in the CSSP will be required to obtain approval of a Form J-13A waiver request beginning in fiscal year 2026-27. This plan is intended to minimize disruptions to instruction and provide support for pupils' social-emotional, mental health, and academic needs.

MDUSD's mental health supports focus on the core competencies of Social-Emotional Learning (SEL), as outlined by the Collaborative for Academic, Social, and Emotional Learning (CASEL). CASEL is a trusted source for knowledge about high-quality, evidence-based social and emotional learning.

The live connections with teachers/staff built into MDUSD's instructional model will provide a critical contact point for identifying our students' social-emotional needs in both our in-person and virtual models. Teachers have additional resources available to provide SEL support in the form of SEL lessons that are included in the Florida Virtual Schools platform, as well as SEL lessons that are included in the NewsELA platform (content appropriate for students in 3rd-8th grade).

Families and schools must continue working together to assess students' feelings and identify their individual needs to provide support during these challenging times. Responding to Requests for Access to Students or for Access to District-Provided Transportation, Nonpublic Area of District Property or Facility, or Nonpublic Area in which District-Sponsored Activity is Occurring

If an officer or employee of an agency conducting immigration enforcement requests access to a student, such as for purposes of interviewing, searching, or detaining the student, or permission to enter a school bus, any other transportation provided by the district, a nonpublic area of any district property or facility, or a nonpublic area where any district-sponsored program or activity is occurring, district staff shall take the following actions:

District staff receives parent/guardian consent or, if the student is at least 18 years of age, the student's consent, unless the officer or employee presents a valid judicial warrant or court order that authorizes and directs the district to give such permission without parent/guardian consent or, if the student is at least 18 years of age, the student's consent. Regardless of whether the officer or employee is given access to the student, the student's parent/guardian shall be immediately notified, unless prohibited by a valid judicial warrant or court order, or in cases involving investigations of child abuse, neglect, or dependency. (Education Code 48906)

Additionally, district staff shall notify the Superintendent or designee as early as possible of any request by an officer or employee of an agency conducting immigration enforcement for access to a student. (Education Code 234.7)

For a request for permission to enter a school bus, any other transportation provided by the district, a nonpublic area of any district property or facility, or a nonpublic area where any district-sponsored program or activity is occurring, the district shall deny the request unless any of the following apply: (Education 234.7)

The officer or employee is a sworn law enforcement officer, declares that exigent circumstances exist, and demands immediate access

In this situation, district staff shall comply with the officer's or employee's orders and immediately contact the Superintendent or designee and then the district's legal counsel.

An officer or employee of an agency conducting immigration enforcement who, pursuant to this administrative regulation, is granted permission to enter district property or facilities which are not open to all visitors shall first register in accordance with Board Policy 1250 - Visitors/Outsiders, except in cases where the officer or employee is a sworn law enforcement officer and states that exigent circumstances exist. (Penal Code 627.2, 627.3)

The Superintendent or designee shall email the Bureau of Children's Justice in the California Department of Justice (BCJ@doj.ca.gov) regarding any attempt by a law enforcement officer to access a student or a school site for immigration enforcement purposes.

Responding to Immigration Enforcement Activity on District Property

When any officer or employee of an agency conducting immigration enforcement is actually or imminently present on district property, district staff shall notify staff working at the property and, if the district property is a school, the parents/guardians of students at the school in accordance with Board Policy/Administrative Regulation 0450 - Comprehensive Safety Plan.

District staff shall report the presence of any officer or employee of an agency conducting immigration enforcement on district property to appropriate administrators.

District staff shall not obstruct, interfere with, or otherwise impede, or attempt to obstruct, interfere with, or otherwise impede, any officer or employee of an agency conducting immigration enforcement, even if the officer or employee appears to be acting outside the law or in excess of the stated or documented authorization. If such an officer or employee enters the premises without consent, district staff shall document their actions but only to the extent that documentation does not impede their actions and shall, at all times, obey any direction from such officers or employees.

After all officers and employees of an agency conducting immigration enforcement leave, each district staff member who observed or interacted with them shall promptly provide the following to the district's legal counsel or other district official designated by the Superintendent:

Copies of any information and documents collected from the officers or employees such as valid identification, name, badge number, phone number of the officer's or employee's supervisor, and documentation that authorizes the officer's or employee's request

Written notes of any other actions taken by and any other interactions with any officer or employee
Responding to the Detention or Deportation of Student's Parent/Guardian

The Superintendent or designee shall encourage parents/guardians to update their emergency contact information as needed at any time. The Superintendent or designee shall notify parents/guardians that the district will only use information provided on the emergency cards in response to specific emergency situations and not for any other purpose. (Education Code 234.7)

Additionally, the Superintendent or designee may encourage all students and families to learn their emergency phone numbers and be aware of the location of important documentation, including birth certificates, passports, social security cards, physicians' contact information, medication lists, lists of allergies, and other such information that would allow the students and families to be prepared in the event that a student's parent/guardian is detained or deported.

In the event that a student's parent/guardian is detained or deported, the Superintendent or designee shall release the student to the person(s) designated in the student's emergency contact information or to any individual who presents a caregiver's authorization affidavit on behalf of the student. The Superintendent or designee shall only contact child protective services if district personnel are unable to arrange for the timely care of the student by the person(s) designated in the emergency contact information maintained by the school or identified on a caregiver's authorization affidavit. (Education Code 234.7)

In an instance where a student's parent/guardian was detained or deported, the Superintendent or designee shall notify the student, as well as the individuals designated in the student's emergency contact information and any individual who presented a caregiver's authorization affidavit on behalf of the student, that the student continues to meet the residency requirements for attendance in the district if the student and the student's parent/guardian who was detained or deported satisfy the conditions as specified in Education Code 48204.4.

The Superintendent or designee may refer a student or the student's family members to other resources for assistance, including, but not limited to, a U.S. Immigrant and Customs Enforcement detainee locator, legal assistance, or the consulate or embassy of the parent/guardian's country of origin.

Procedures Regarding Pupil Smartphone Use During Emergencies

NOTES ABOUT THIS SECTION

The inclusion of this section in the Comprehensive School Safety Plan (CSSP) is required by Assembly Bill 962 (AB 962) if the school intends to maintain the authority to prohibit or limit a pupil's use of a smartphone during an emergency or perceived threat of danger. If these circumstances are not explicitly addressed here, pupils retain the right to use their smartphones during such events.

The governing board of the school district, county board of education, or charter school must develop and adopt a policy to limit or prohibit pupil smartphone use no later than

July 1, 2026, and update it every five years. The policy's goal must be to promote evidence-based use of smartphone practices to support pupil learning and well-being, and its development must involve significant stakeholder participation (pupils, parents, and educators)

Students' cellphones are secured in Yondr pouches during the school day. In the event of a lockdown, teachers are directed to unlock students' cellphones once the immediate danger has passed so students may contact their parents or guardians. During a shelter-in-place, teachers are directed to unlock students' cellphones to allow students to communicate with their parents or guardians.

Mandatory Policy Adoption and Review Requirements

The date the policy was adopted/last updated, a summary of the policy's goal, and documentation of stakeholder involvement.

The policy was adopted in August 2025 and reviewed by school staff. The goal of the policy is to enhance student safety during emergencies by ensuring students can focus on adult direction and established safety procedures while also allowing access to their cellphones to contact parents or guardians once it is safe to do so. Stakeholder involvement included staff review and discussion of emergency procedures, including clear guidance for unlocking Yondr pouches during lockdowns once the immediate danger has passed and during shelter-in-place situations to support timely family communication.

Non-Prohibitable Circumstances for Pupil Smartphone Use

Confirm procedures for recognizing and respecting these exceptions:

1. When a teacher or administrator grants permission, subject to any reasonable limitation imposed by that teacher or administrator.
2. When a licensed physician and surgeon determines that the possession or use of a smartphone is necessary for the health or well-being of the pupil.
3. When the possession or use of a smartphone is required in a pupil's individualized education program (IEP).

The school has established procedures to recognize and respect non-prohibitable circumstances for pupil smartphone use. When a teacher or administrator grants permission, a student may access their phone under the reasonable limitations set by that staff member, including having the Yondr pouch opened in the office with authorization. When a licensed physician determines that possession or use of a smartphone is necessary for a student's health or well-being, and this need is supported by a doctor's note, the student is issued a Yondr pouch with a Velcro opening to allow appropriate access; this accommodation must be formally documented in a Section 504 plan or an Individualized Education Program (IEP). When possession or use of a smartphone is required as part of a student's IEP, the accommodation is implemented as written in the plan, including the use of a modified Yondr pouch and clearly defined procedures to ensure both access and supervision.

ACTIVE SHOOTER EVENT QUICK REFERENCE GUIDE

An “active shooter” is an individual who is engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters use firearms(s) and there is no pattern or method to their selection of victims.

- Victims are selected at random
- Event is unpredictable and evolves quickly
- Knowing what to do can save lives

ACTIVE SHOOTER EVENTS

When an Active Shooter is in your vicinity, you must be prepared both mentally and physically to deal with the situation.

You have three options:

- Have an escape route and plan in mind
- Leave your belongings behind
- Evacuate regardless of whether others agree to follow
- Help others escape, if possible
- Do not attempt to move the wounded
- Prevent others from entering an area where the active shooter may be
- Keep your hands visible
- Call 911 when you are safe
- Hide in an area out of the shooter's view
- Lock door or block entry to your hiding place
- Silence your cell phone (including vibrate mode) and remain quiet

- Fight as a last resort and only when your life is in imminent danger
- Attempt to incapacitate the shooter
- Act with as much physical aggression as possible
- Improvise weapons or throw items at the active shooter
- Commit to your actions . . . your life depends on it

The first officers to arrive on scene will not stop to help the injured. Expect rescue teams to follow initial officers. These rescue teams will treat and remove injured.

Once you have reached a safe location, you will likely be held in that area by law enforcement until the situation is under control, and all witnesses have been identified and questioned. Do not leave the area until law enforcement authorities have instructed you to do so.
