

## ACCESS TO COMICS PLUS

We're excited to share that all students at Florida State University Schools now have free access to Comics Plus - a digital library of age-appropriate comics, graphic novels, and manga!

With thousands of titles available, students can explore their favorite stories and build a personalized reading collection using the My Shelf feature - a digital bookshelf for the books students read in Comics Plus.

Available anytime, anywhere - at school, at home, or on the go! 24/7 access with unlimited checkouts and no waiting!

### How to Access Comics Plus:

- Students log in through FSUS Clever.
- The first time, they'll use their student ID number as the username and fsus as the password.
- After that, they can access Comics Plus directly through Clever - no extra login needed!

### Age-Appropriate Access:

Elementary, Middle School, and High School students will have access to only the graphic novels that are appropriate for their age. For example, students in elementary school will not have access to middle school or high school books.

If you have any questions, please let me know!
