Curriculum and Instruction

AP Environmental Science Parent Guide

The AP Environmental Science course is designed to engage students with the scientific principles, concepts, and methodologies required to understand the interrelationships within the natural world. The course requires that students identify and analyze natural and human-made environmental problems, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving or preventing them. Environmental science is interdisciplinary, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography.

1st 6 Weeks: The Living Word: Ecosystems The Living World: Biodiversity Populations	**4th 6 Weeks:** Atmospheric Pollution Aquatic and Terrestrial Pollution
2nd 6 Weeks: Populations Earth Systems and Resources Land and Water Use	**5th 6 Weeks:** Aquatic and Terrestrial Pollution Global Change
3rd 6 Weeks: Land and Water Use Energy Resources and Consumption	**6th 6 Weeks:** Global Change Spiral and Focus AP Review AP Environmental Science Exam
