

CONSTRUCTION NOTICE

Maintenance Work on Sanitary Sewer Easements

In June 2026, the Metropolitan District (MDC) will begin conducting maintenance activities on existing sanitary sewer easements in the Town of West Hartford. This maintenance is necessary for the MDC to inspect and maintain these assets.

Prior to conducting any work, MDC personnel will survey and stake out the existing easements. This step is often done weeks or months in advance of the maintenance work. Staff may be seen walking the easements during working hours. Entry into homes is not required.

All activities will be conducted within existing 20-ft wide sanitary sewer easements. The maintenance activities will consist of cutting trees and removing small brush and vegetation. No excavation will be performed as part of this program.

Subsequent notifications will be provided prior to any clearing.

Work hours are generally between 7:00 AM and 5:00 PM, Monday through Friday.

Construction schedules are subject to change based on weather or unforeseen construction related activities. All MDC Staff, Contractors and Consultants should be properly identified and present ID upon request.
