Maple HVAC

Maple HVAC Units Get New Life at Adult Education

With the upcoming development of new CTE programs for adults, we have repurposed 10 HVAC units for the class to be used for training and instructional purposes.

Technology Update

Conejo Valley Unified School District
Technology Services Department

Technology Process

Overview

Investment

Measure I allocation and priorities are determined annually based on enrollment and discussions with Principals

Purchases

Meetings with vendors, bidding of items (when required), development of item lists, creation of catalog to include devices, classroom tools, and support equipment

Implementation

Communication to school sites, distribution of catalog, collection of orders, placement of orders, delivery and setup. The annual cycle for ordering, delivery and installation repeats
