While this group doesn't have a great historical frame (new members) we feel this was a successful year. Linda Lannin, commented that based on her experience this is a successful year.
2. Group to provide feedback on the year/ consider changes to goals -
The committee would like to align goals so there is some consistency with districts.
Linda commented that she thought keeping things open ended and updating some goals.
Stacie commented that Megan Chevrefils at HUES might be interested for next year.

Louise commented that there are many opportunities for wellness activities in terms of PE/Movement activities but it is more challenging with nutrition goals.

Raffi thought open ended goals are a good idea, referencing goal 13 to modify for different grade levels. Emmie added that this could also be adjusted to have a longer time frame.
