### Summer Programming

Enrollment is now open for our 2026 Online Summer Courses, offering students a flexible way to earn credits, get ahead in their studies, or explore new interests from the comfort of home. Our diverse course catalog includes core subjects and exciting electives, all designed to be engaging and supportive of different learning styles. This is a fantastic opportunity for students to stay academically active while still enjoying their summer break! This program is 100% online with the support of a CSL teacher (One live Google Meeting per week for 8 weeks). We have opportunities in all the classes and grade levels entering 9th through 12th. Please complete [this form](#) if you would like to receive more information!

### "Towering" Achievements

Middle School students worked on team building and effective communication skill exercises as part of the CSL Career Readiness Program.
