[1] Credit may be applied to workshop hours or education hours but not both, if applicable.

[2] Computer Technology Certificate New: Must hold an Advanced Associate III or higher certificate, complete 90 hours of computer technology courses (must be completed after the date of the last confirmation letter), 60 workshop hours and 10 Association Responsibility points.

[3] Computer Technology Certificate is renewable. A Computer Technology Certificate can be renewed by meeting the following requirements: completion of 60 additional hours of instruction in the area of computer education; completion of 10 points of Association Responsibility; and completion of 60 workshop hours. Computer Technology Certificates that are not upgraded by meeting the requirements will revert back to the certificate that was previously held by member. To renew the previously held certificate, the member must complete 60 workshop hours and 10 Association Responsibility points.
