Meeting notes with DCSIA AND DCAEOP

- Leadership and PDP Committee chairpersons and members met on Monday 1/28/19 to discuss the issues pertaining to PDP applications and memberships
- We reviewed forms being used for PDP and suggestions were made on revisions
- We discussed policies of each committee pertaining to PDP applications to be sure we followed the same procedures
- Tracy Walser/Treasurer at Tyro Middle volunteered to be the DCAEOP PDP chairperson going forth and she will convene her committee next year when reviewing applications with the help of Kelly Moore if needed. DCAEOP will need to work on their bylaw changes to keep her in the position since there is so much to learn. DCSIA already leaves that as unlimited terms in their bylaws.
- We discussed having joint meetings which will be held in December and March of next school year 2019-2020 of DCAEOP and DCSIA members to allow time together
- Starting this current school year, any DCAEOP OR DCSIA member can attend meetings of the other committees to count towards their meeting attendance requirements. We will forward to the appropriate person the list of sign-ins from those meetings.
- We discussed the possibility of merging the two committees into one since neither one require the state level membership. Possibly with the 2020-2021 school year. More discussions will need to take place for this to occur.
- We discussed sending out information on any courses or tech training being offered to help our membership obtain credits. The PowerSchool office may also offer some trainings in the future to help with those credits as well.
