Summer 2026

Dear Carlisle Middle School Families,

As you may know, every summer, the math department encourages our students to maintain and develop their math skills. This summer we are encouraging all students to continue their individualized learning path within their existing McGraw Hill (ALEKS) accounts.

Our suggestion is that students would benefit from spending 10+ hours spread out (roughly 1-2 hours a week) over the course of the summer working on math.

We hope you have a wonderful summer and we look forward to working with your child in September.

Sincerely,

Middle School Mathematics Department

Anne Spiegel, Grade 6
