

MS Summer Math Requirements, 2026
(for Math Classes for the 2026-27 school year)

6th Grade Math (Math 6)

Summer Math Skills Sharpener (5th grade review)

7th Grade Math (Math 7 and PreAlgebra)

Summer Math Skills Sharpener (6th grade review)

8th Grade Math (Math 8, Algebra 1, and Honors Algebra)

Summer Math Skills Sharpener (7th grade review)

All students are required to complete the *Summer Math Skills Sharpener* Workbook. This summer work will review topics from the last school year and help students build upon a stronger foundation coming into the new school year. This workbook should be turned in on the first day of school, and it will count as the first grade of the semester. There are a total of 34 lessons. We ask students to complete at least 20 of these lessons (students may choose which ones). This is an average of 2-3 lessons per week for 8 weeks. Students should be prepared to turn in their workbook on the first day of school in August.

The answers are provided in a separate packet. We ask parents to hold onto the answer packet and check answers as students finish a lesson.

Westminster will order the books and send them home with students during exam week. Billing (\$18) will go through Blackbaud in June. If a student misplaces a book, another can be ordered through the summerskills.com website.
