

Why Accident Insurance matters

Accidents can happen anytime, anywhere and when you least expect them. While you can't plan for the unexpected, you can **be better prepared financially** with MetLife Accident Insurance.

You've got medical, dental and vision insurance—and possibly a flexible spending account, just in case. If you have an accidental injury, you're financially covered, right?

Not entirely. Even the best health insurance may leave you with unexpected costs or medical debt, especially if you have a high-deductible health plan or limited network. When faced with these kinds of costs, supplemental coverage from MetLife provides you with additional financial protection.

Help protect yourself, your family and your budget from the financial impact of unexpected injuries.

An example of how accident insurance can help

*Accident insurance helped Kathy pay some of her bills after she was involved in a hit-and-run. The great thing is that it was paid directly to her—she could use it how she wanted. She needed it especially for gas and the cost of a rental car. Kathy's advice is to always look ahead. It's better to have insurance and not need it than not have it and need it. We all go through bad things, and hindsight is always 20/20. Take action—don't wait. **

* This is a hypothetical example for informational purposes only. Your costs and savings could vary based on your plan design, where you live and whether your plan requires a deductible or coinsurance. Please see your Plan Summary for details about your coverage.

Help supplement your healthcare coverage with accident insurance protection.

Receive benefit payments directly and use the funds however you wish.

Financial support so you can focus on getting well.

Many people may not be financially prepared to handle extra costs like plan deductibles, co-pays for emergency room care, testing, supplies and out-of-network care. For a covered event,¹ accident insurance provides a benefit payment paid directly to you—not to doctors, hospitals or healthcare providers.

You can spend the funds on anything you need, such as those extra bills when you may most need additional support. It can also help pay for expenses you may not consider, like childcare and transportation to your appointments. These costs can cut into your budget and make it a challenge to manage your everyday expenses.

Your benefits in action

If you've been involved in an accident,¹ submitting a claim doesn't have to be difficult. Here's what to expect:

Visit **mybenefits.metlife.com** or download the MetLife mobile app to view your certificate of insurance and initiate your claim.

Once your claim is approved, you'll receive a check made out to you to use however you like.

Benefit Payment Example

Kathy's daughter, Molly, was riding her bike to school. On her way there she fell to the ground, was knocked unconscious, and was taken to the local emergency room (ER) by ambulance for treatment. The ER doctor diagnosed a concussion and a broken tooth. He ordered a CT scan to check for facial fractures too, since Molly's face was very swollen. Molly was released to her primary care physician for follow-up treatment, and her dentist repaired her broken tooth with a crown. Depending on her health insurance, Kathy's out-of-pocket costs could run into hundreds of dollars to cover expenses like insurance co-payments and deductibles. MetLife Group Accident Insurance payments can be used to help cover these unexpected costs.
