Recording of Council meetings:

Some neighbors stated that they intended to record Council meetings. Some attendees voiced their preference not to be recorded. Others asserted that there is no law prohibiting such recording.

Approval of meeting notes:

It was agreed that going forward that Lowell and its neighbors would each prepare meeting notes; that Lowell would post all such notes on its website; and all such notes would be presented to the Zoning Commission.

Fraser building site:

Lowell shared that engineering plans for the former Fraser site were nearly ready and that the filing for a building permit would be happening shortly. The plans are in accordance with the Tab B from Lowell's original zoning request.

Traffic management report:

The topic of traffic and the Neighborhood Agreement was raised. Lowell received some praise and some requests for greater enforcement. Lowell reiterated its intention to continue to meet all of the expectations of the Neighborhood agreement. The Council discussed Terry Lynch, who is a neighborhood advocate and has experience and a track record accomplishing tasks with various agencies of the DC government. The Council agreed to seek Mr. Lynch's recommendations surrounding neighborhood safety and traffic issues.

Next meeting: October 24. 2017
