BOERNE INDEPENDENT SCHOOL DISTRICT

FUTURE PROGRAMMING FOCUS GROUP

2023 - 2025

pfluger

WE ARE BOERNE ISD

OUR MISSION

THE BOERNE INDEPENDENT SCHOOL DISTRICT ENGAGES, INSPIRES, AND ENRICHES OUR COMMUNITY THROUGH INNOVATIVE LEARNING EXPERIENCES.

OUR VISION

OUR COMMUNITY WILL ENGAGE STUDENTS AND ADULTS IN A CHALLENGING EDUCATIONAL ENVIRONMENT THAT INSPIRES CREATIVITY AND ENRICHES LIVES FOR TODAY'S REALITIES AND TOMORROW'S POSSIBILITIES.

BOERNE ISD CORE VALUES

THE BOERNE ISD CORE VALUES ARE THE FOUNDATION FOR THE DISTRICT'S SUCCESS. THEY CREATE THE BISD CULTURE AND COMMUNITY BY DEFINING WHAT IT MEANS TO BE BISD. THEY ARE:

Every Child, Every Day

ENSURING EVERY STUDENT IS ENGAGED, ENRICHED, AND INSPIRED

Respectful Relationships

A CULTURE OF TRUST AND COMPARISON BY ACTIVELY LISTENING TO & LEARNING FROM OTHERS.

Excellence through Integrity

HOLD EACH OTHER TO HIGH STANDARDS

Commitment to Service

COMMITTED TO LEADING, SERVING, AND ENRICHING THE COMMUNITY

Purpose

BOERNE ISD - FUTURE PROGRAMMING FOCUS GROUP

This creative brief explains how the Future Programming Focus Group (FPFG) helped Boerne ISD plan for what comes next. It shows how shared input, careful review, and open collaboration shaped clear priorities and practical next steps for the district.

The brief brings together feedback and data collected by the Boerne FPFG. This information reflects the district's goals, values, and day-to-day needs. By working closely with Boerne ISD, the team translated that input into thoughtful recommendations that support long-term planning and student success.

Boerne ISD has a strong track record of making decisions that serve students, families, and the broader community.

Executive Summary

Boerne ISD established the Future Programming Focus Group (FPFG) to guide long-term decisions about programs and facilities as the district continues to grow. The goal was to ensure future investments support student success, reflect community values, and respond to changing educational needs.

The FPFG grew out of the Strategic Facilities Planning Focus Group process and included Boerne ISD staff representing a range of roles and perspectives. Members served as advisors, sharing firsthand insight into how programs and campuses can better support students today and in the future.

A primary focus of the group's work was the future of Boerne Middle School North. The FPFG studied how the existing campus could be repurposed while the district plans for a new, larger middle school to serve a growing student population.

Preparation Phase
During this phase, the FPFG reviewed current district conditions and enrollment growth projections. Members examined data and discussed program options that align with Boerne ISD's educational goals. This work established a clear foundation for informed, long-term decision-making.

Engagement and Data Collection
The FPFG met four times over the course of the process. Each meeting built on previous discussions and findings:

- Meeting 1: Members reviewed district updates, goals, and the current state of facilities to establish a shared understanding.
- Meeting 2: Explored program options, including the concept of a specialized campus, and gathered feedback through surveys and group discussion.
- Meeting 3: Visited specialized campuses in Dallas, Austin, Houston, and San Antonio to learn from successful models and consider how similar approaches could support Boerne ISD. The group met to discuss their take aways from these tours and how certain programs could be applied to BMSN.
- Meeting 4: Toured the Boerne Middle School North campus, collected final feedback, and discussed realistic redevelopment options.

At the conclusion of the process, an exit survey revealed strong overall support for transforming BMSN into a **specialized CTE + Early College campus.** Of the 32 participants, a majority expressed full support, with only a small number noting questions or concerns.

The FPFG's final recommendations were presented to the Strategic Facilities Planning Focus Group and the Boerne ISD Board of Trustees. This work reflects months of careful study, collaboration, and staff input. It provides a clear direction for the future of Boerne Middle School North and supports Boerne ISD's commitment to preparing students for academic success, career readiness, and lifelong learning.

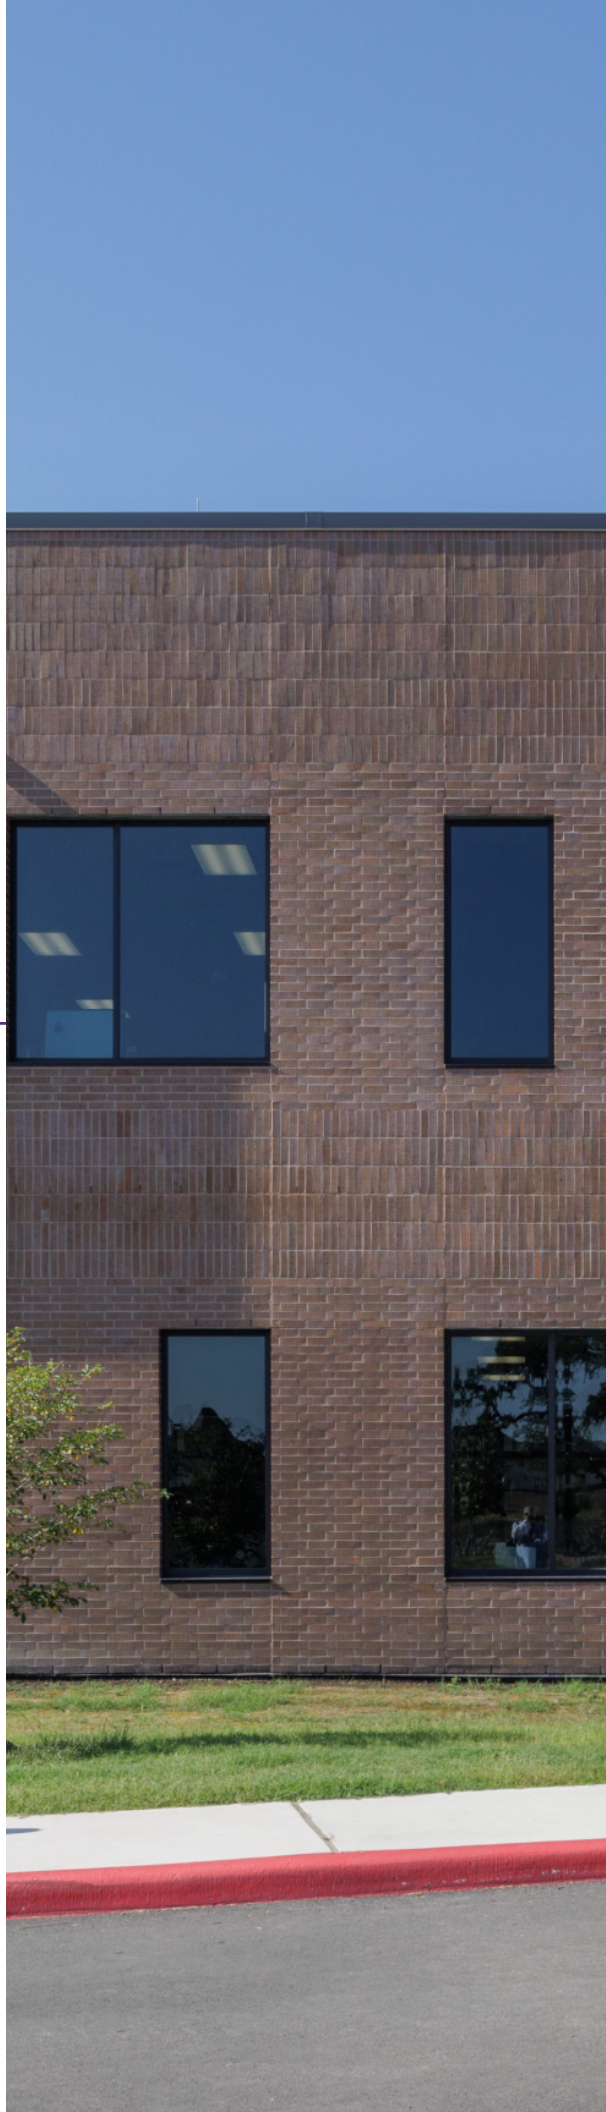

Introduction

Boerne Independent School District is committed to strengthening educational practices and expanding opportunities for students through specialized programs and curriculum. The Future Programming Focus Group is made up of Boerne ISD staff who are focused on the district's long-term success. The group serves as a trusted source of feedback, evaluating how educational programs can evolve and how facilities can support both current and future needs. Through open dialogue, collaboration, and clear communication, the FPFG shares ideas and develops practical solutions to support Boerne ISD's educational goals. This work helps lay the foundation for innovative learning environments that respond to today's needs while preparing for tomorrow's opportunities.

PREPARATION PHASE

The preparation phase focused on understanding current programs and facilities and identifying what Boerne ISD will need to support future growth. During this phase, the Strategic Facilities Planning Focus Group reviewed existing conditions and long-term needs across the district. This work included evaluating the option to build a new Boerne Middle School North and repurpose the existing campus to better serve evolving educational priorities.

As part of this effort, the district established the Future Programming Focus Group. This group was tasked with studying programming options, facility needs, and growth projections. Members used this information to develop informed recommendations for the future of Boerne Middle School North that align with district goals and the needs of the growing Boerne community.

FIRE LANE NO PARKING
FIRE LANE NO PARKIN

MEETING 1: AUGUST 08, 2024

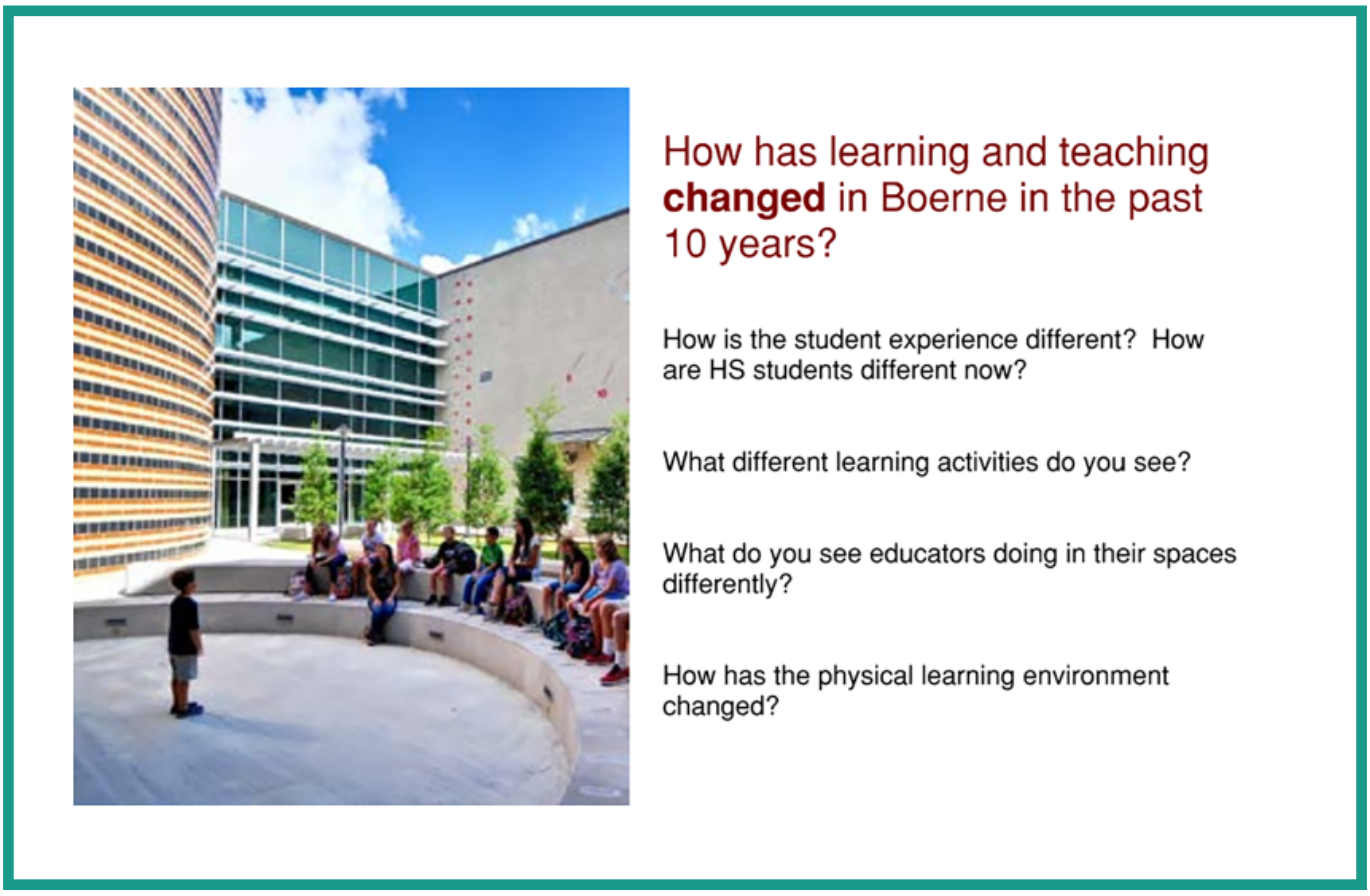

The Future Programming Focus Group met to begin developing a clear, informed recommendation for the Strategic Facilities Planning Focus Group regarding the future of the existing Boerne Middle School North campus.

As Boerne ISD plans for continued growth, the district will need a larger middle school facility, and the current Boerne Middle School North campus will need to be repurposed. This meeting focused on framing that challenge and establishing a shared understanding of the decisions ahead.

During the session, FPFG members reviewed the current state of the district and received updates on progress made by the Strategic Facilities Planning Focus Group. The meeting established a common baseline of information and set expectations for the work to come, creating a foundation for future discussions and a unified recommendation.

MEETING 1: SFPFG RECAP

EXISTING FACILITIES: BOERNE MIDDLE SCHOOL NORTH

The Strategic Facilities Planning Focus Group met regularly over a six-month period, from fall 2023 through April 2024. During this time, the group reviewed data, assessed existing conditions, and developed key recommendations to support the district's long-term planning efforts. Key recommendations included:

- Consider building a new Boerne Middle School North due to site constraints at the existing campus, and convene a team to explore how the current facility could support the district's long-term educational needs.
- Establish a preferred middle school capacity of 1,200 students.
- Explore expansion of the district's land portfolio to support future growth,
- Convene a long-range planning committee to evaluate district needs and project timing, including major facilities such as a stadium.
- Use existing facilities strategically to delay the need for a third high school.

Through this work, the group identified a need to further study how the existing Boerne Middle School North campus could be repurposed to support Boerne ISD's long-term goals. In April 2024, this effort led to the formation of the Future Programming Focus Group. The FPFG includes Boerne ISD staff tasked with exploring options for the future use of the BMSN campus and developing thoughtful, forward-looking recommendations.

Earlier findings reinforced this need. The 2022 Facility Assessment showed strong agreement among Boerne ISD stakeholders that Boerne Middle School North will require additional space in the near future. Enrollment projections support this conclusion and indicate the campus is expected to exceed capacity by 2027.

0' 40' 120' 200'

MEETING 1: SFPFG RECAP

SITE ANALYSIS OF BMSN

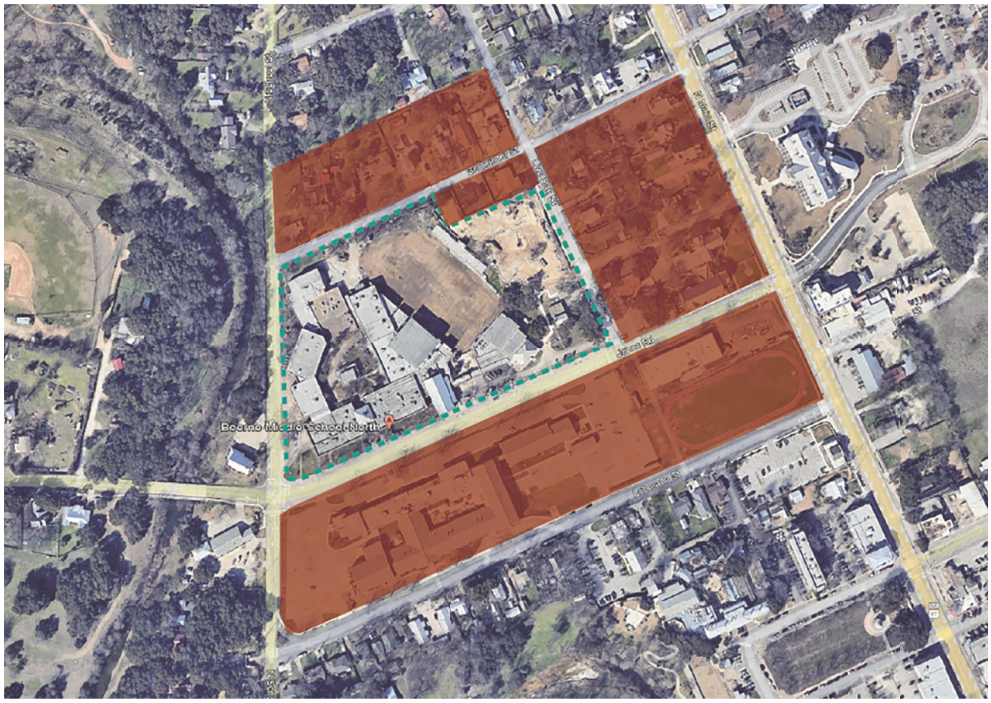

EXISTING CONDITIONS

- 12.98 Acres
- 132,685 SF Building
- 975 Core Capacity
- 1,075 Gross Capacity

The projected student growth for Boerne ISD by the 2027-2028 school year will be a 25% in deficiency in square feet. Issues with this site and why it will not be able to accommodate more growth is that it is landlocked - nowhere to physically grow and there will be an increase in traffic due to pick up/ drop off traffic and future city work.

MEETING #1 - AUGUST 08, 2024

To add capacity, BMSN needs to grow.. but where? The campus site is landlocked by residences, other BISD facilities, and Cibolo Creek.

Compounding the growth issue is the traffic impact - especially during drop off/ pick up hours.

MEETING 1: SFPFG RECAP

TRAFFIC OBSERVATION

Lines start to form and grow along Johns Road, Lohmann, and Live Oak. Observed traffic flow from 3:45 pm to 4:20 pm on a typical school day. Traffic stacked along the westbound Johns Road back to Main Street. Traffic did not back up onto Main Street.

At 3:58 PM, vehicles begin to stack along Lohmann Street and begin to park in the Central Office parking lot.

At 3:58 PM, vehicles begin to stack along Lohmann Street and begin to park in the Central Office parking lot.

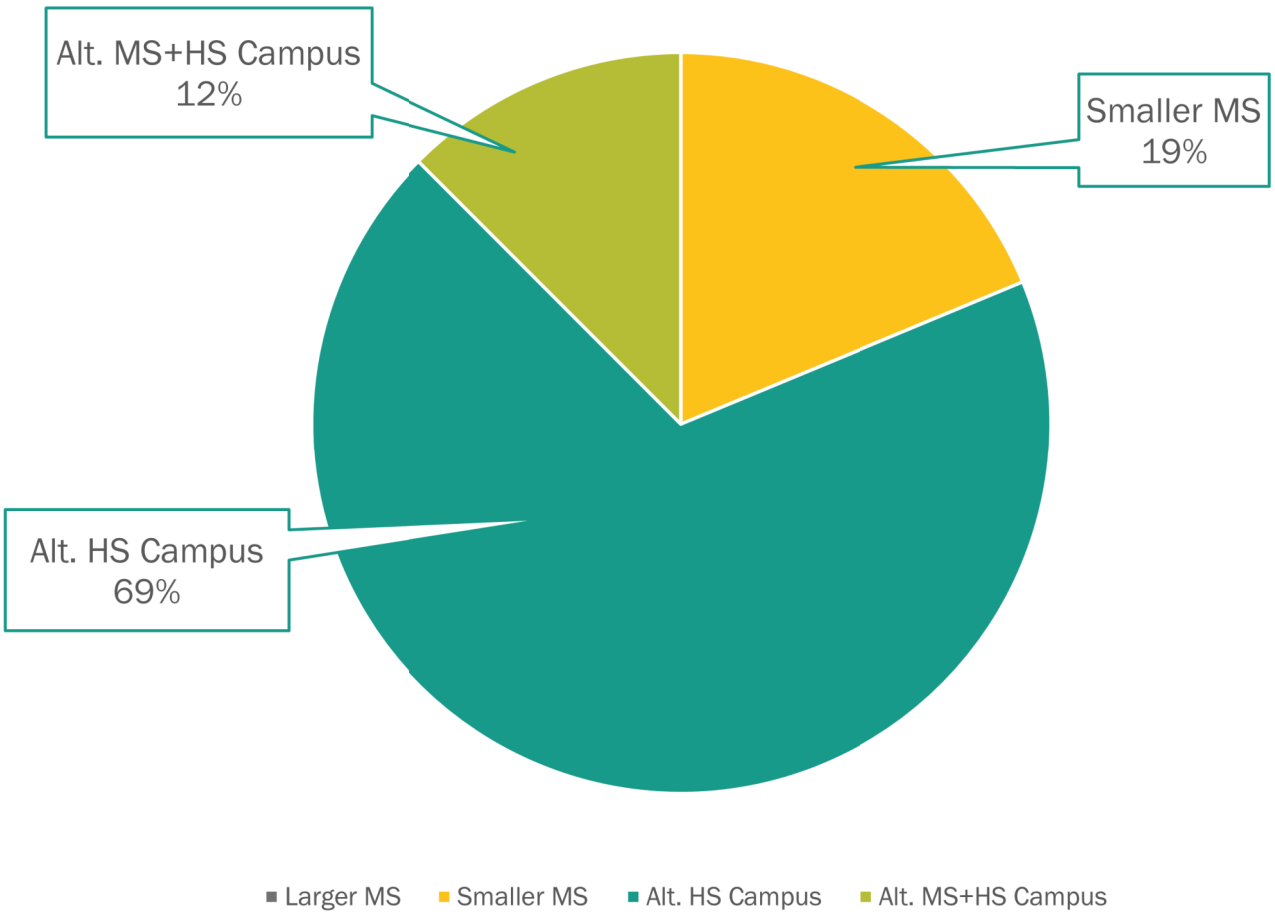

At 3:58 PM, vehicles begin to stack along Lohmann Street and begin to park in the Central Office parking lot.

MEETING 1: SFPFG RECAP

BOERNE MIDDLE SCHOOL NORTH SHOULD BE...

The SFPFG collected some data from feedback of information that was presented as three options. Option one was to have an alternative middle school and high school campus (12%), option two was to keep BMSN as a smaller middle school (19%), and option three was to create an alternative high school campus as a "specialized" campus (69%).

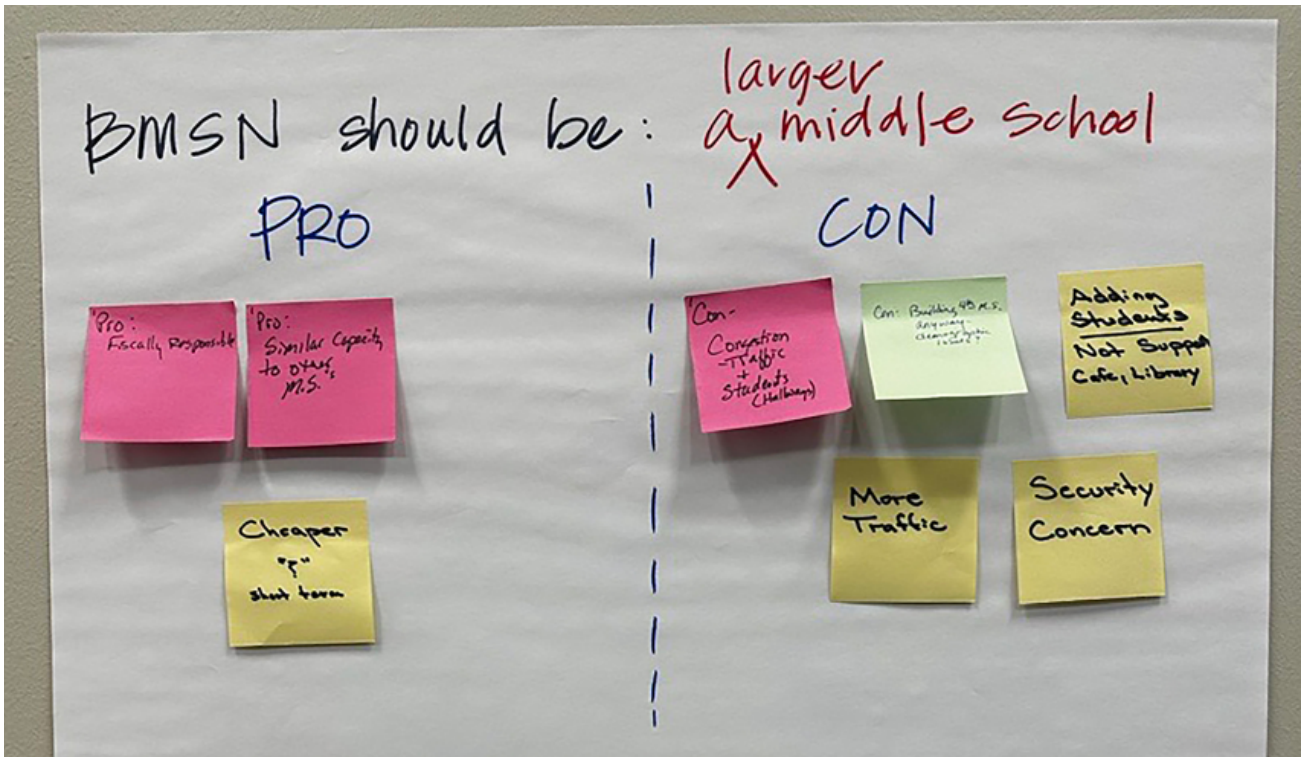

MEETING #1 - AUGUST 08, 2024

Members of the SFPFG participated in a "post-it" activity. Through this exercise the members were able to voice their concerns or thoughts on the future of Boerne Middle School North.

A LARGER MIDDLE SCHOOL

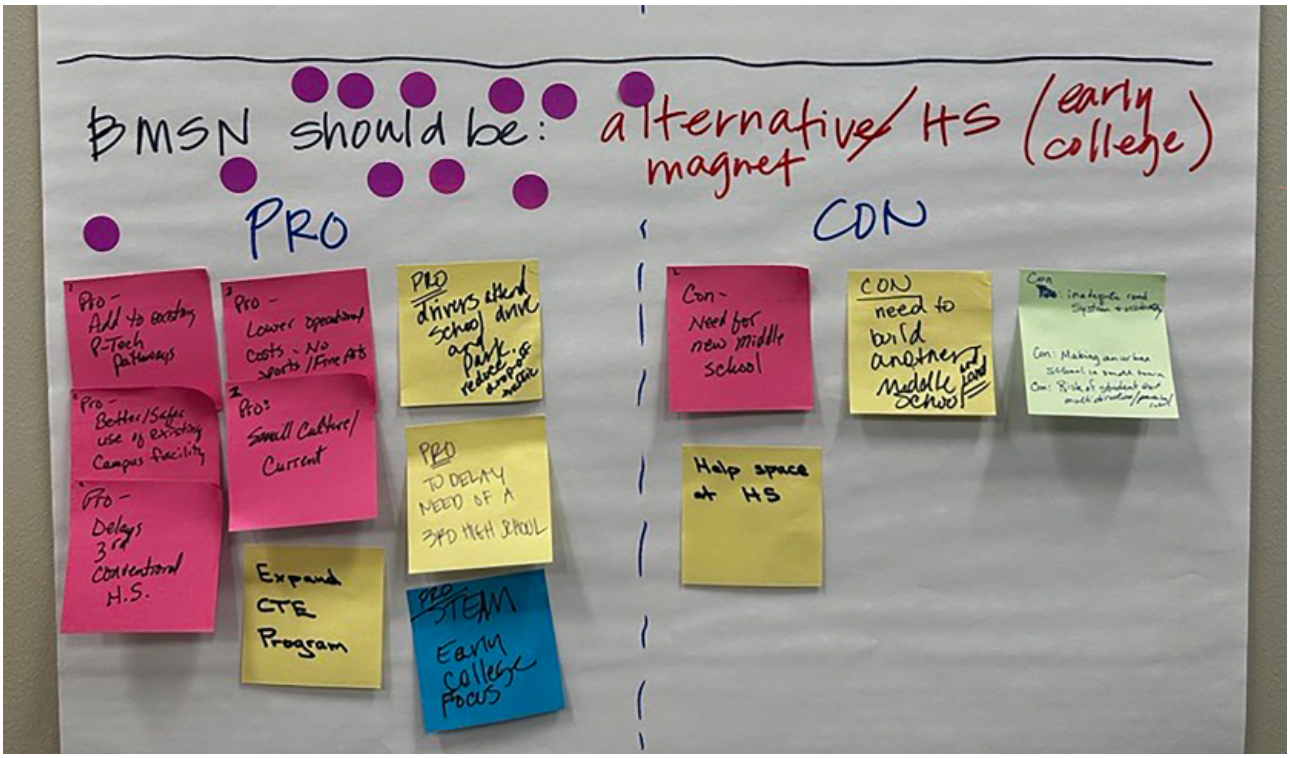

PROS

- Financially responsible (but only for the short term - another MS will be needed eventually)
- Similar capacity to other middle schools - Equity

CONS

- Create even more congestion (external - vehicular traffic & internal - circulation through corridors and hallways
- Core spaces would be hard to enlarge (cafeteria, library, etc.)
- Harder to maintain a positive environment/ culture

A SPECIALIZED CAMPUS

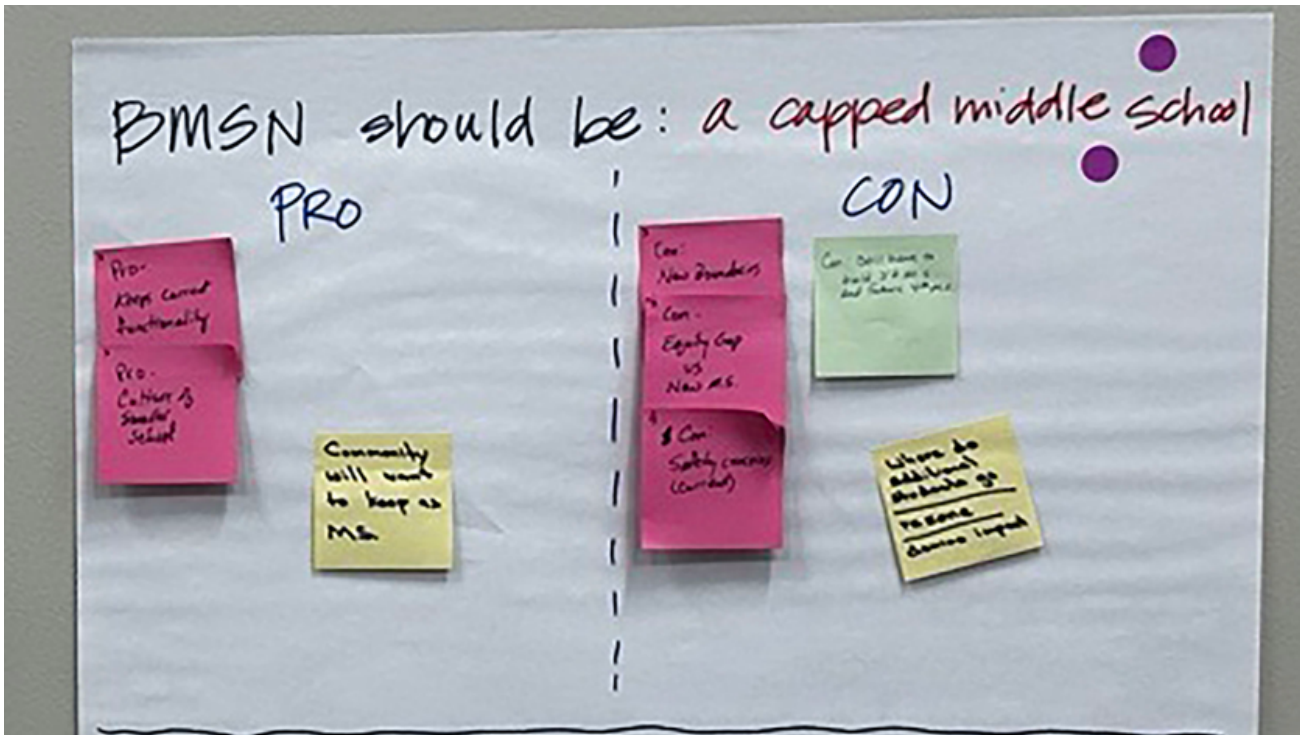

PROS

- Delay the need of a 3rd HS
- Could open up to the community
- Reduction in traffic congestion/ safer
- Boerne culture is built on smaller schools
- Offset CTE demands at the High Schools
- More affordable to operate

CONS

- Would need a new MS now - Where is the land?
- Sentimental Value - The community may want it as a MS

A CAPPED (SMALLER) MIDDLE SCHOOL

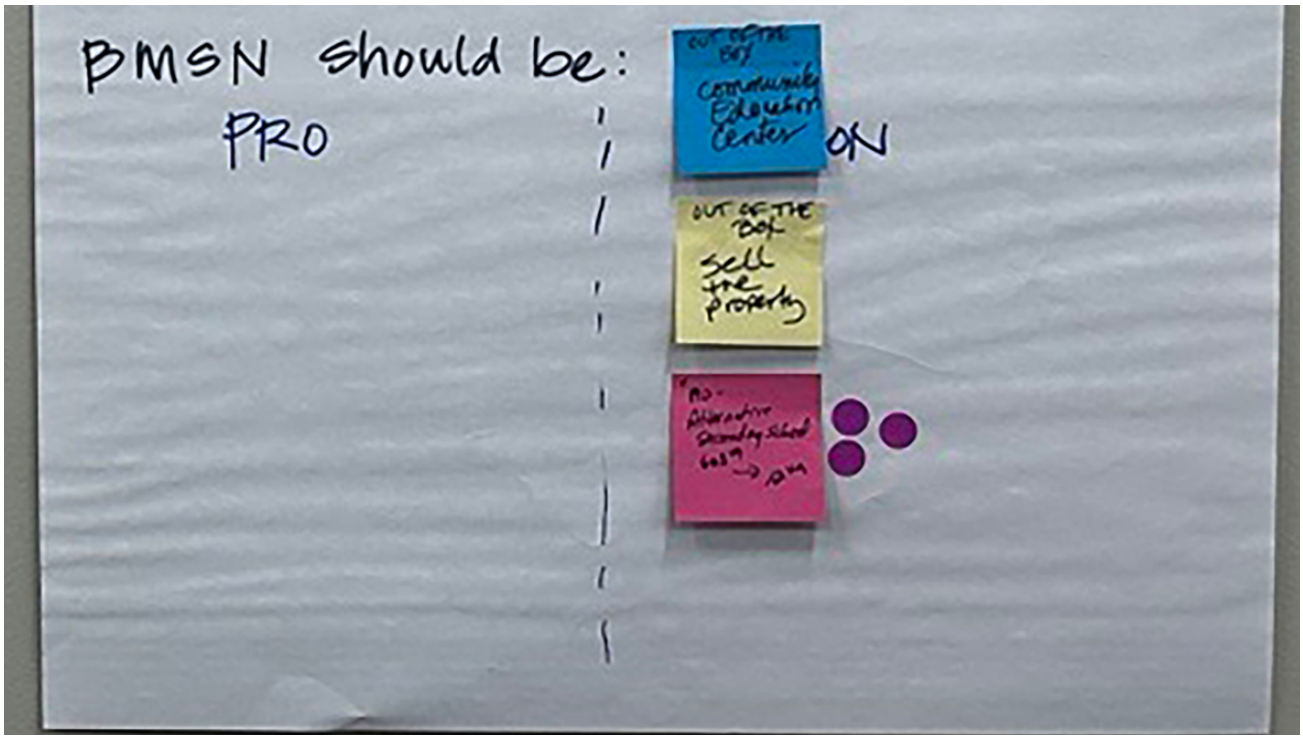

PROS

- Able to keep BMSN as a MS
- Reduction in congestion (external - vehicular traffic & internal - circulation through corridors and hallways

CONS

- Would need a 4th MS sooner than anticipated
- Would create inequity between the middle schools

SOMETHING ELSE

- Sell the property?
- Community Education Center?
- MS magnet campus?
- Alternative secondary school (6th-12th)?

WHAT MAKES YOU PROUD OF BMSN?

"VERY STRONG SENSE OF COMMUNITY..." (BMSN)

"VERY WARM AND WELCOMING..." (BMSN)

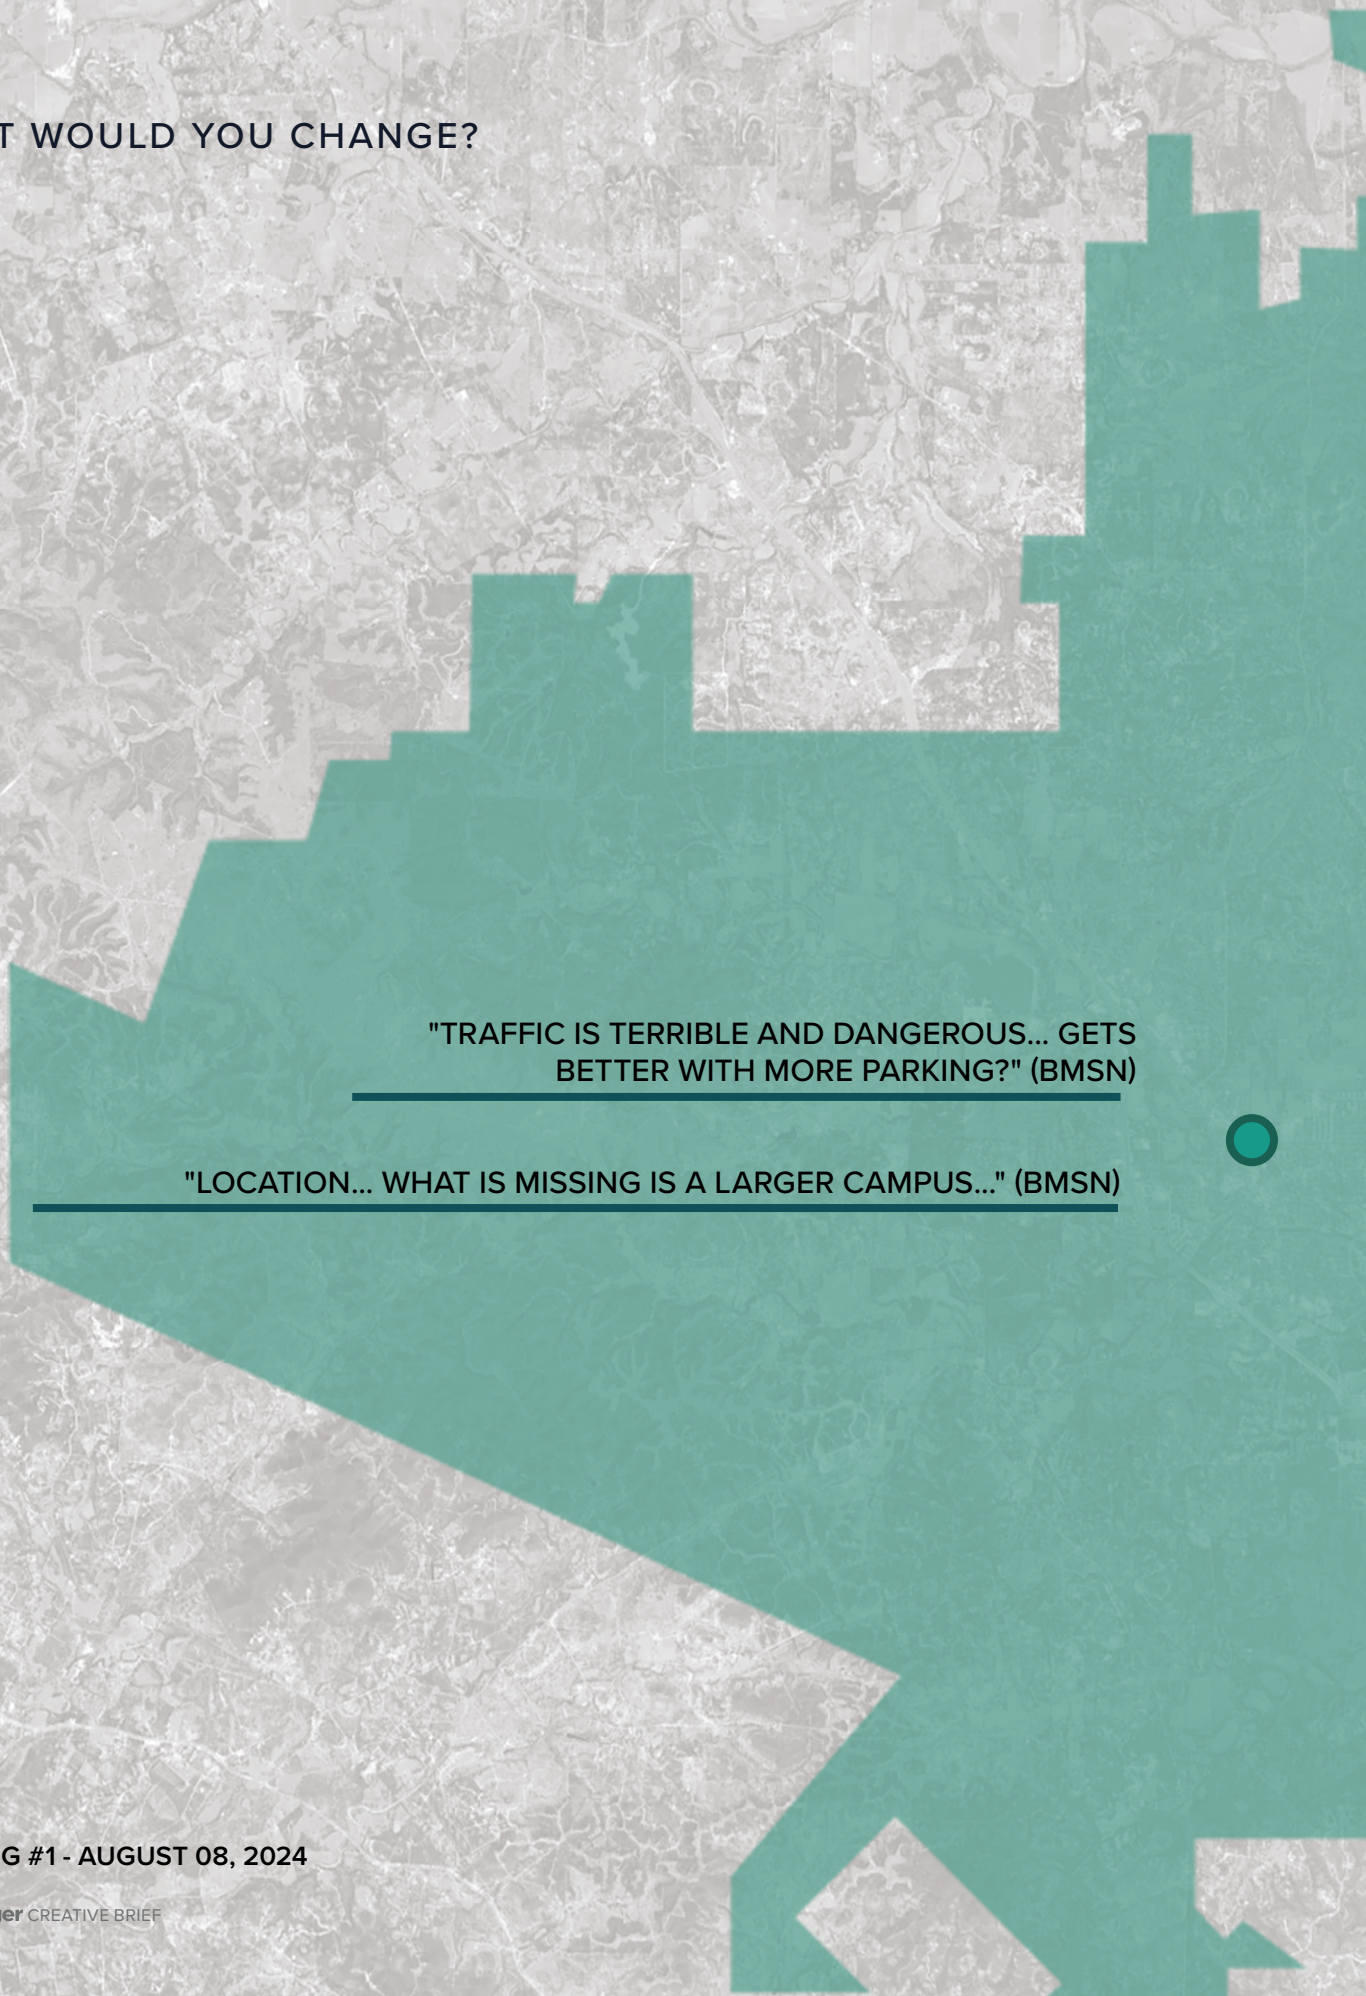

"LOCATION..." (BMSN)

"I LOVE THE PEOPLE... VERY PROUD OF THE HONORABLE AND HARDWORKING GREYHOUND CULTURE..." (BMSN)

"UPDATED AND FLOWS WELL..." (BMSN/ BMSS)

WHAT WOULD YOU CHANGE?

"TRAFFIC IS TERRIBLE AND DANGEROUS... GETS BETTER WITH MORE PARKING?" (BMSN)

"LOCATION... WHAT IS MISSING IS A LARGER CAMPUS..." (BMSN)

MEETING #1 - AUGUST 08, 2024

"MORE SECURITY... NO ADULT SUPERVISION (BEFORE SCHOOL) MAKES STUDENTS VULNERABLE TO SITUATIONS THAT COULD BE VOLATILE..." (BMSN)

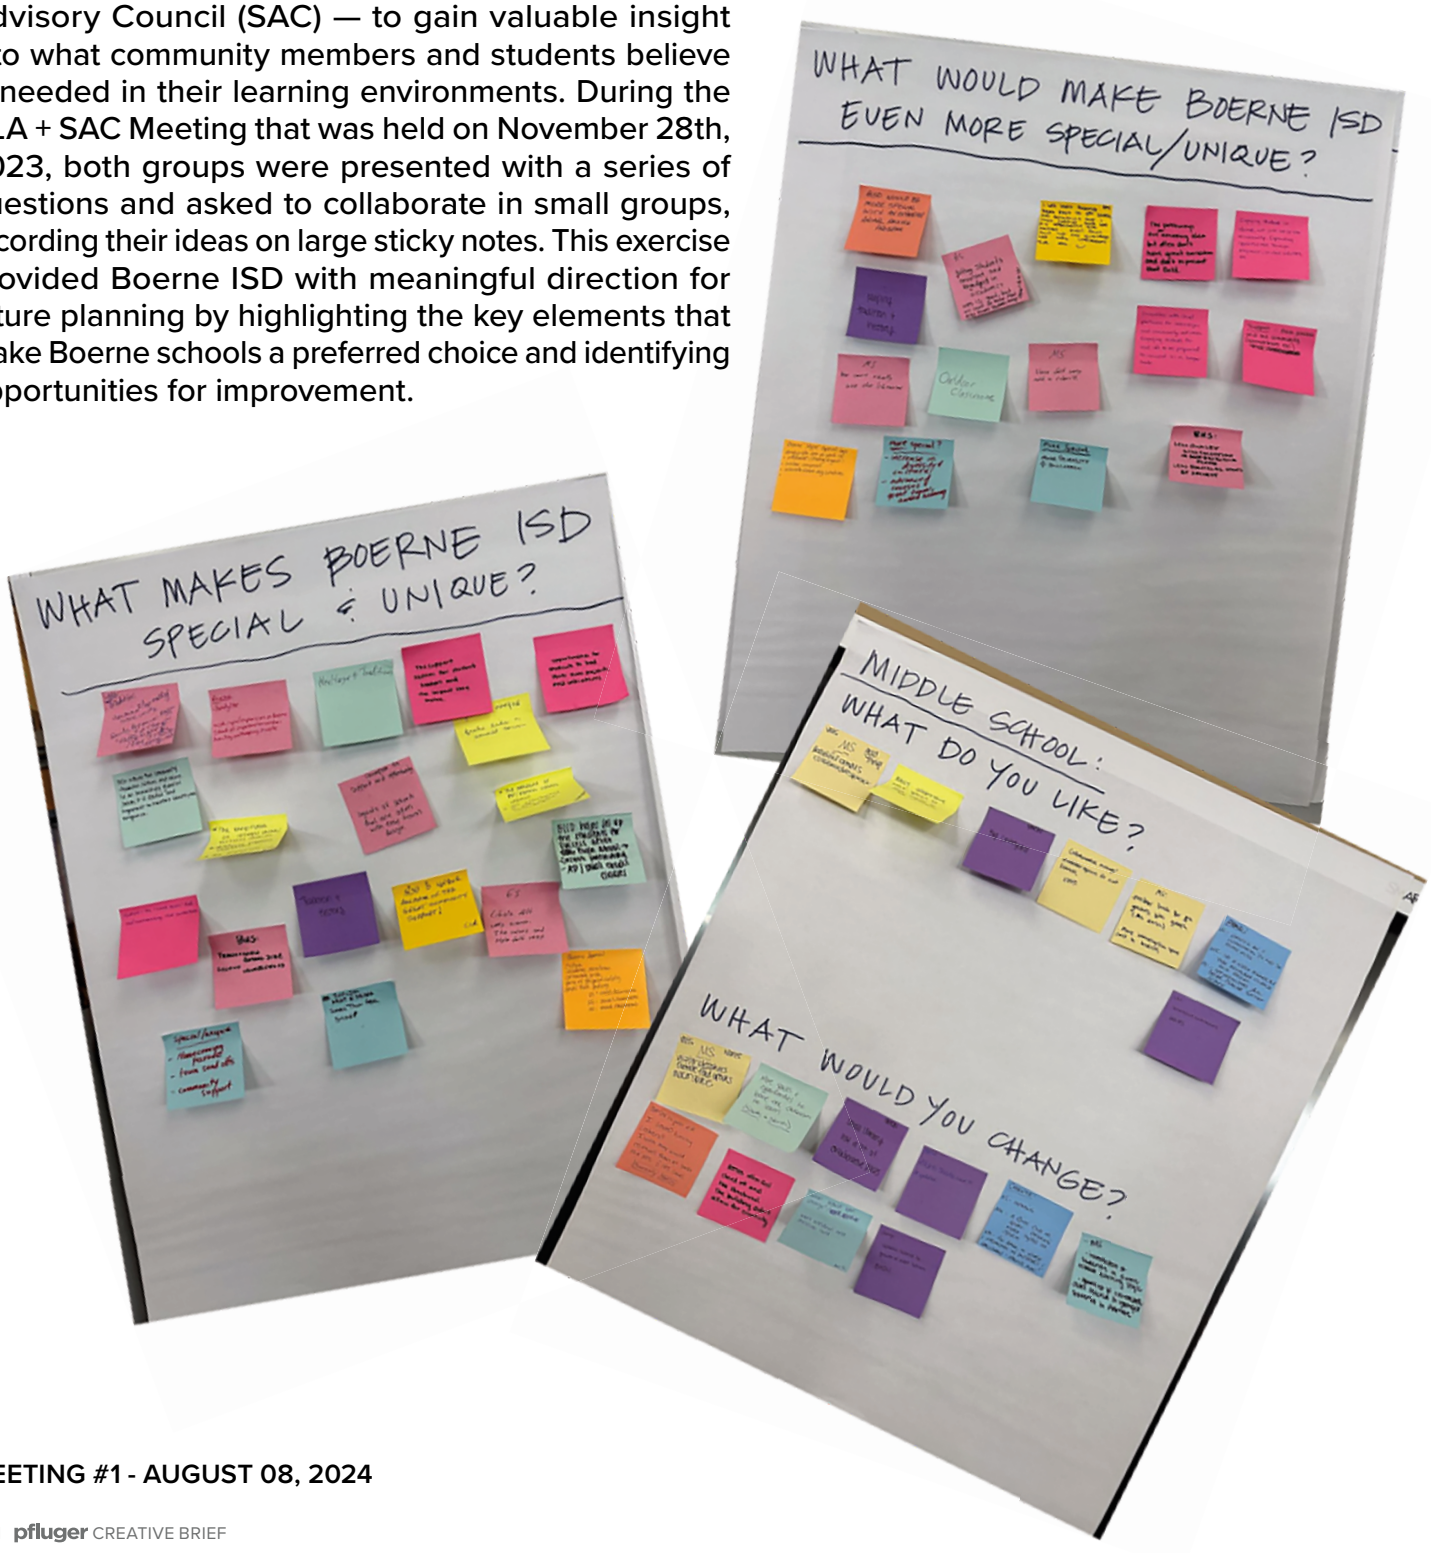

"BRING STUDENTS INSIDE CAMPUS BUILDINGS BEFORE SCHOOL STARTS..." (BMSN)

MEETING 1: SFPFG RECAP

CLA + SAC MEETING - NOV. 28, 2023

Boerne ISD engages two advisory groups — the Community Leadership Academy (CLA) and the Student Advisory Council (SAC) — to gain valuable insight into what community members and students believe is needed in their learning environments. During the CLA + SAC Meeting that was held on November 28th, 2023, both groups were presented with a series of questions and asked to collaborate in small groups, recording their ideas on large sticky notes. This exercise provided Boerne ISD with meaningful direction for future planning by highlighting the key elements that make Boerne schools a preferred choice and identifying opportunities for improvement.

MEETING 1: SFPFG RECAP

SFPFG FUTURE FACILITIES PLANNING ACTIVITY

The Strategic Facilities Planning Focus Group met to discuss Boerne ISD's facility needs and long-term planning priorities. During the meeting, members reviewed multiple scenarios and timelines to identify the most responsible next steps for the district.

Key questions guided the discussion. Does the district need a third high school? How might Boerne ISD delay that need? Will enrollment growth require an additional middle school?

The group explored these questions through open discussion and brainstorming. This work helped introduce the idea of a specialized campus as a potential strategy for the district. The meeting established the foundation for the Future Programming Focus Group, clarifying its purpose and setting direction for the work ahead.

MEETING #1 - AUGUST 08, 2024

MEETING 1: SFPFG RECAP

SFPFG QUESTIONS & MENTIMETER RESULTS

"REGARDING THE P-TECH EXPANSIONS AT THE HIGH SCHOOLS: WHAT DOES THAT MEAN FOR BMSN IF IT TURNS INTO A MAGNET SCHOOL?"

"ACTUALLY... WHAT IS THE DEFINITION OF A MAGNET SCHOOL?"

A MAGNET SCHOOL CAN BE DEFINED DIFFERENTLY FROM DISTRICT TO DISTRICT... BUT IN GENERAL, IT'S A CAMPUS THAT DRAWS STUDENTS TO A PARTICULAR/ SPECIAL CURRICULAR FOCUS. FOR BISD, WE'LL USE THE TERM **"SPECIALIZED CAMPUS"**

We asked the group to define what they thought of the term "specialized campus." They answered some questions using Mentimeter - a digital platform that is used for anonymous group input.

IN ONE SENTENCE, HOW WOULD YOU DEFINE "SPECIALIZED CAMPUS"?

"A campus determined by specific content of learning."

"A unique purpose for learning"

"A campus with a specific set of classes that students would take there."

"Different, set apart, having unique opportunities for students who apply to go to school there, not relying on the attendance zones for enrollment."

"A campus with a unique focus that is not duplicated at another campus."

"A campus that focuses on a specific area/ need"

"Learning tailored to a specific student population."

"Dedicated to a specific curriculum."

"A campus that pulls students from all campuses in the district with a special focus for learning."

"A campus with an intentional focus on specific curricular outcomes for students. either work based or subject area focus."

"A school focused on a specific field of study or profession, providing tailored programs and resources to enhance learning in that area."

"A campus for a specific path or goal different from traditional schools"

"Programs/ opportunities that are not found at traditional campuses."

MEETING 1: SFPFG RECAP

SFPFG QUESTIONS & MENTIMETER RESULTS

We asked the group to define what they thought of the term "specialized campus." They answered some questions using Mentimeter - a digital platform that is used for anonymous group input.

IN ONE SENTENCE, HOW WOULD YOU DEFINE "SPECIALIZED CAMPUS"?

"A campus that focuses on specific career pathways for students to receive direct work ready training."

"A campus that individualizes programs."

"Unique campus oriented to certain populations."

"A school with a specific focus, nontraditional learning from community perspective - does this have more than other schools? is it a behavioral school? negative connotation"

"Specialized in the programs. the services provided are tailored to a specific need. the campus provides a specific program outcome."

"Specialized for advancement in careers through preferred specialized education"

"Specialized content for more enhanced classes"

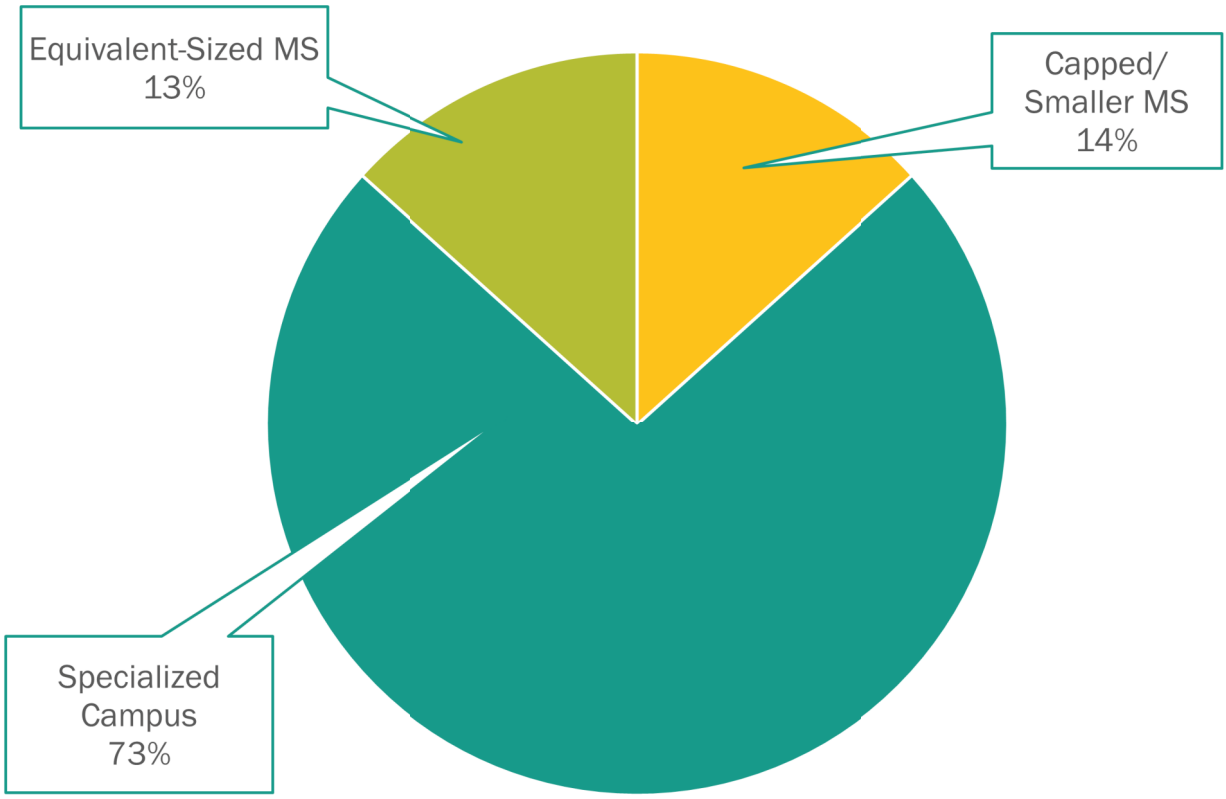

"A campus that focuses on very specific/ select things"

"Specialized programs, no athletics, everything targeted to the specialized mission/ vision of the school. all learning opportunities focused on campus area of specialization."

"A campus that focuses on certain curriculum. this can include certain programs of study in the CTE department"

"A specialized campus focuses on the instruction of a specific group of students with similar interests and or needs."

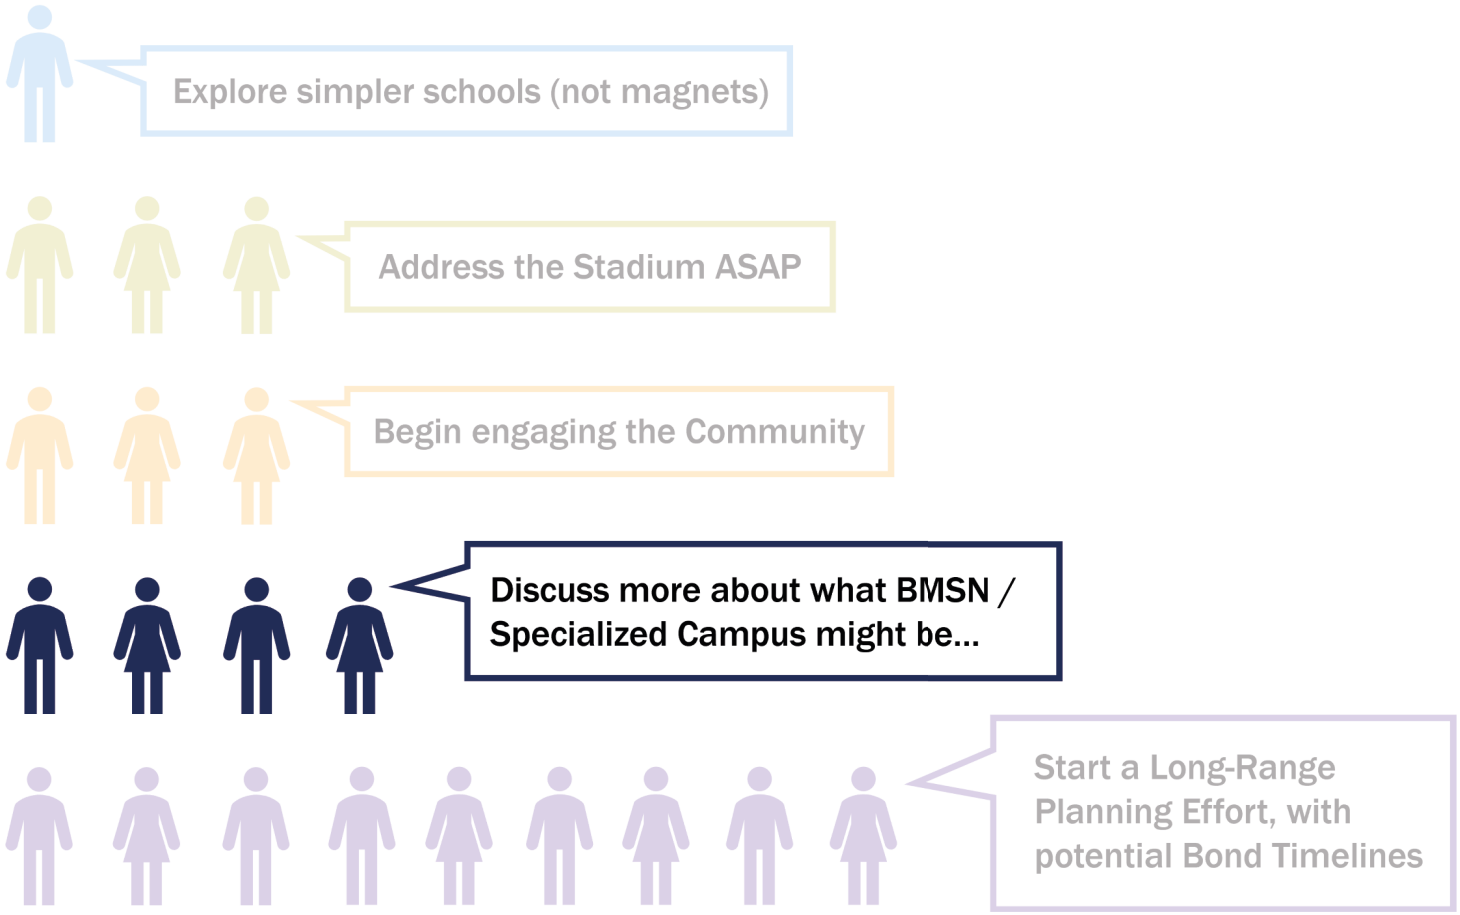

"A campus that houses specialized academic tracks that potentially start from early grade levels through high school in a sequence”

What should BMSN become? This graphic shows the results of what the group responded. 6 out of 1 respondents had the new stadium + a replacement MS starting design in 2025/ early 2026. Between Meetings 2 & 5 - THIRTEEN people changed their mind about what BMSN should become.

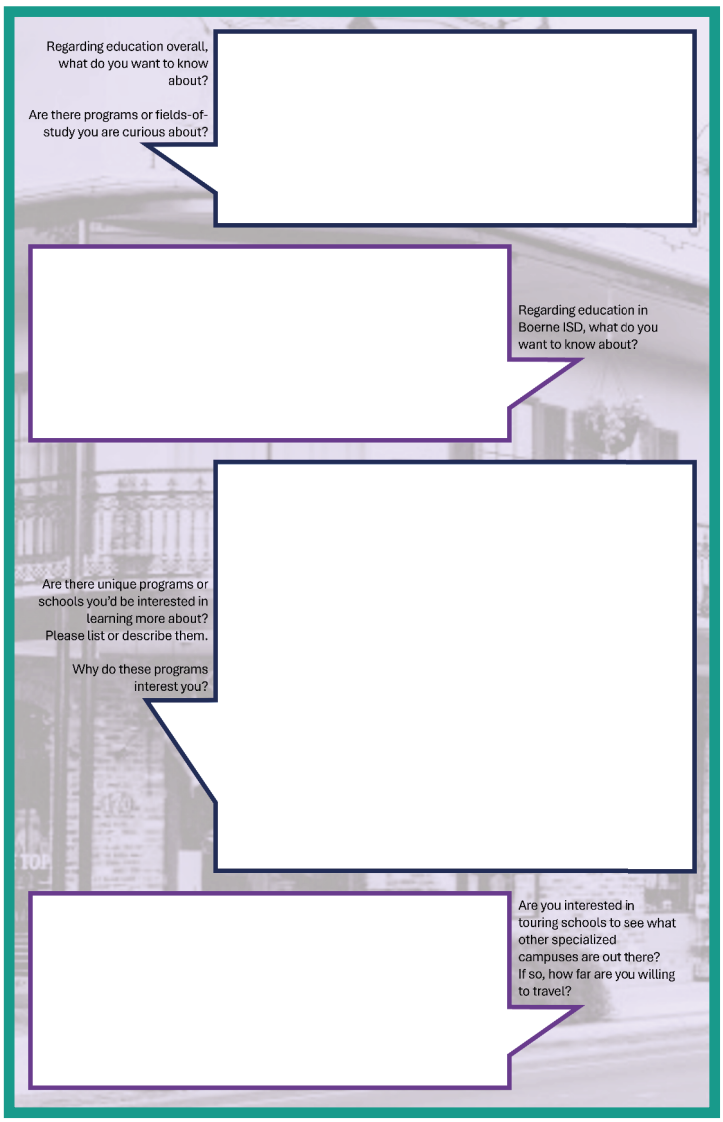

MEETING 1: Next Steps for FPFG

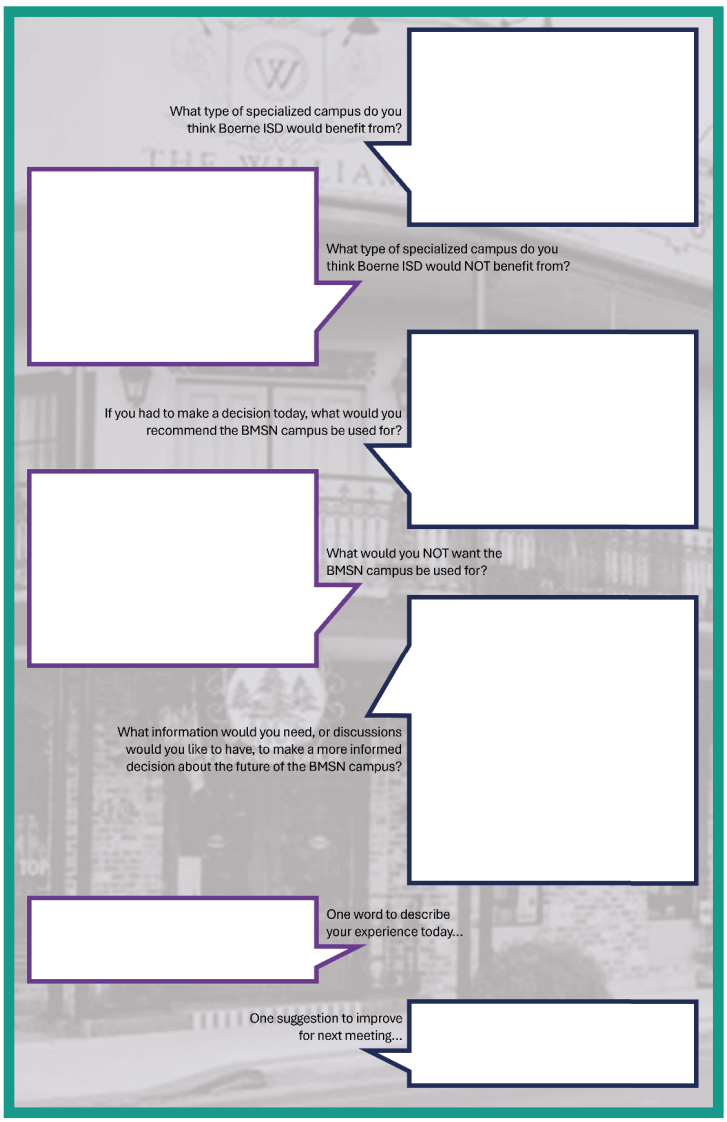

FPFG EXIT TICKET

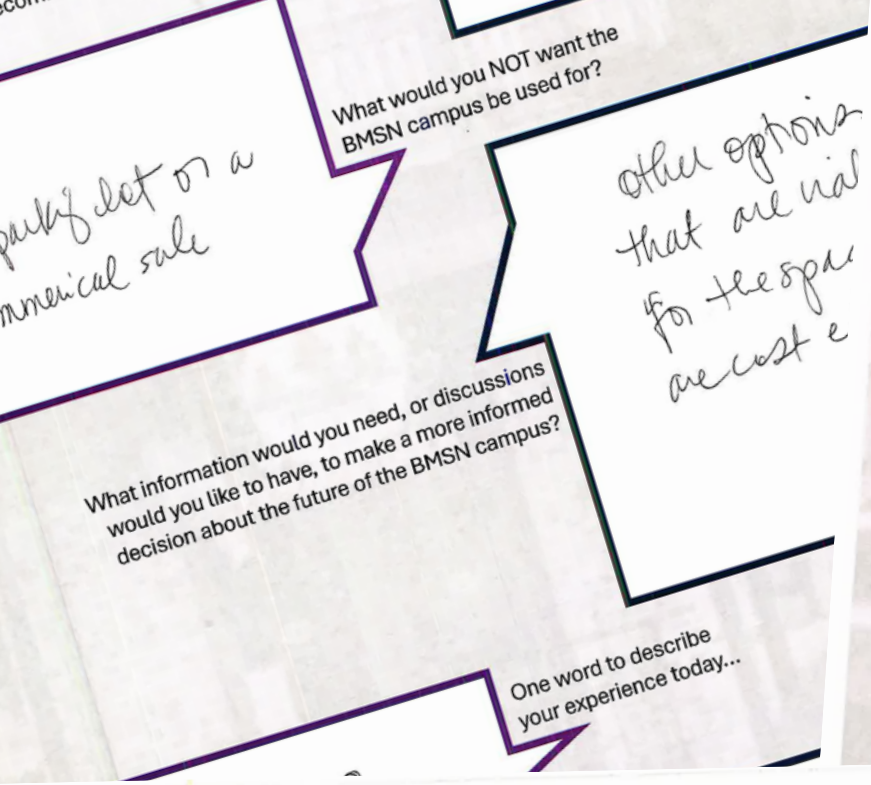

Following the Strategic Facilities Planning Focus Group recap, the Future Programming Focus Group reviewed the next steps in the process. The focus is on identifying the most appropriate option for the repurpose of Boerne Middle School North campus. In upcoming meetings, the FPFG will review district information, visit specialized campuses across Texas, and use lessons learned from those visits to explore potential program ideas. The group will then synthesize this input and develop a recommendation to share with the Strategic Facilities Planning Focus Group.

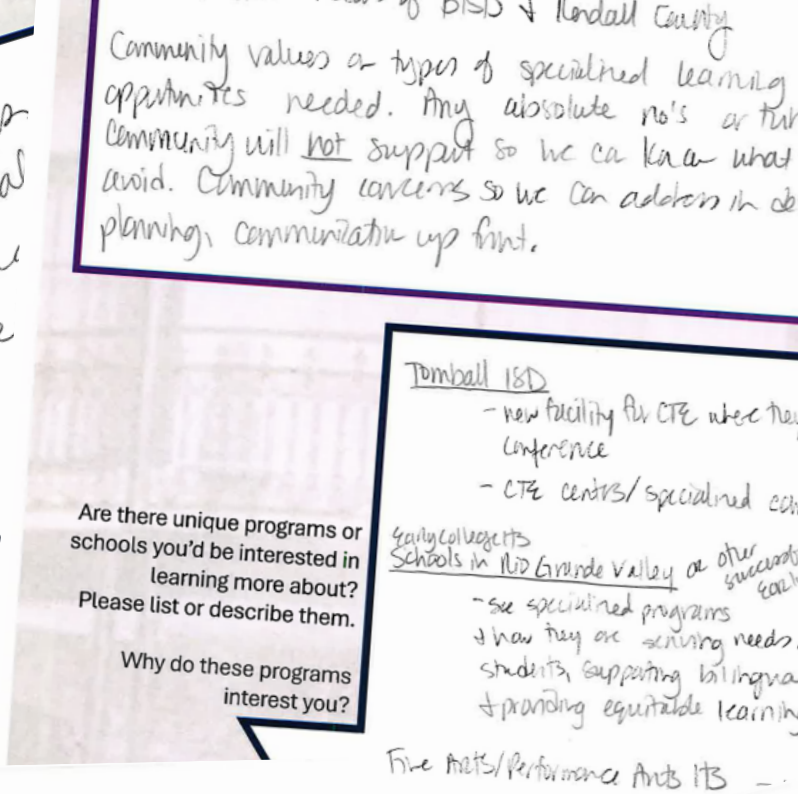

Before the meeting concluded, FPFG members completed an exit ticket. This short exercise allowed participants to share their thoughts and reactions to the discussion. The exit ticket included a series of questions tied directly to topics covered during the meeting. This feedback helps the district understand how participants are engaging with the process.

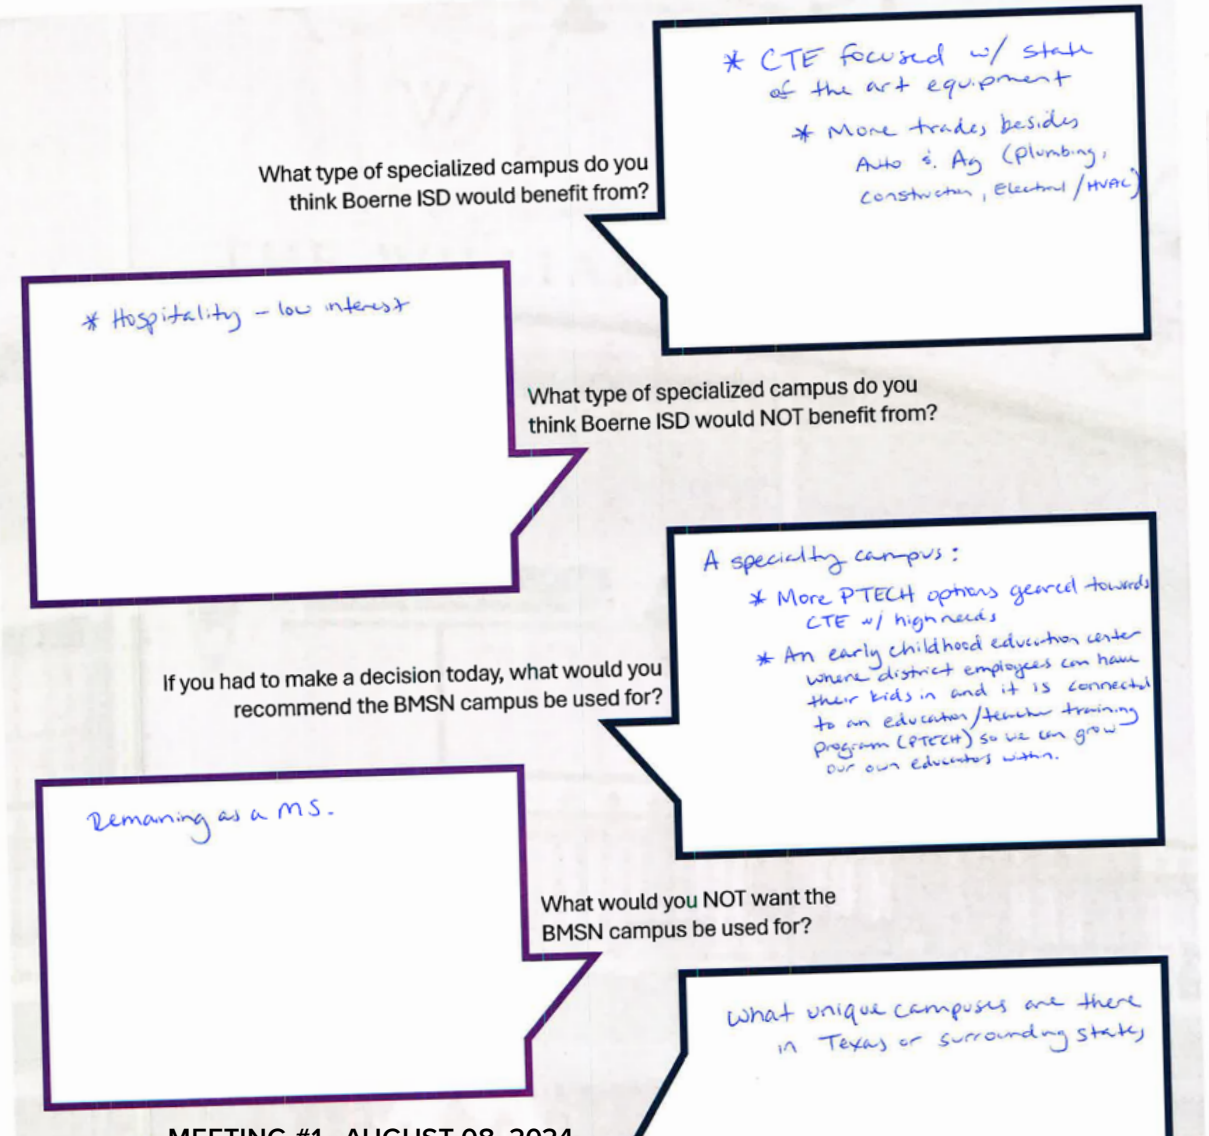

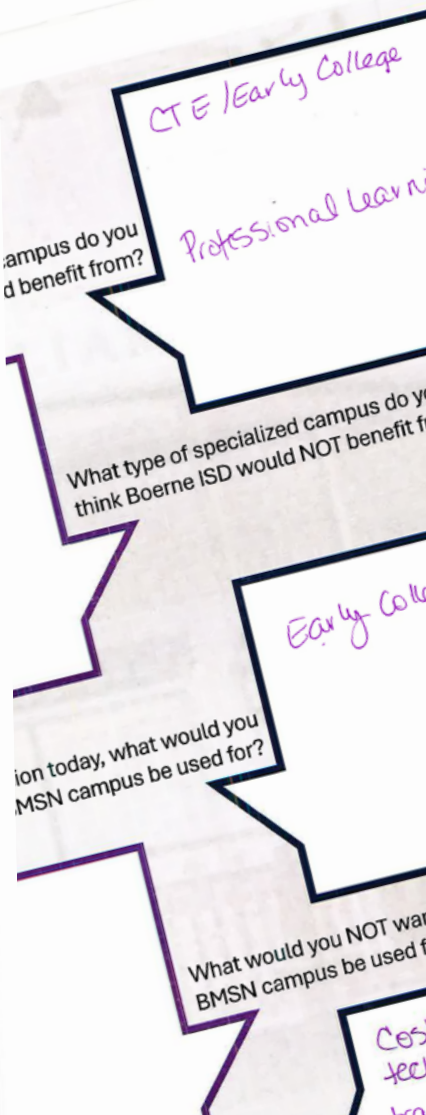

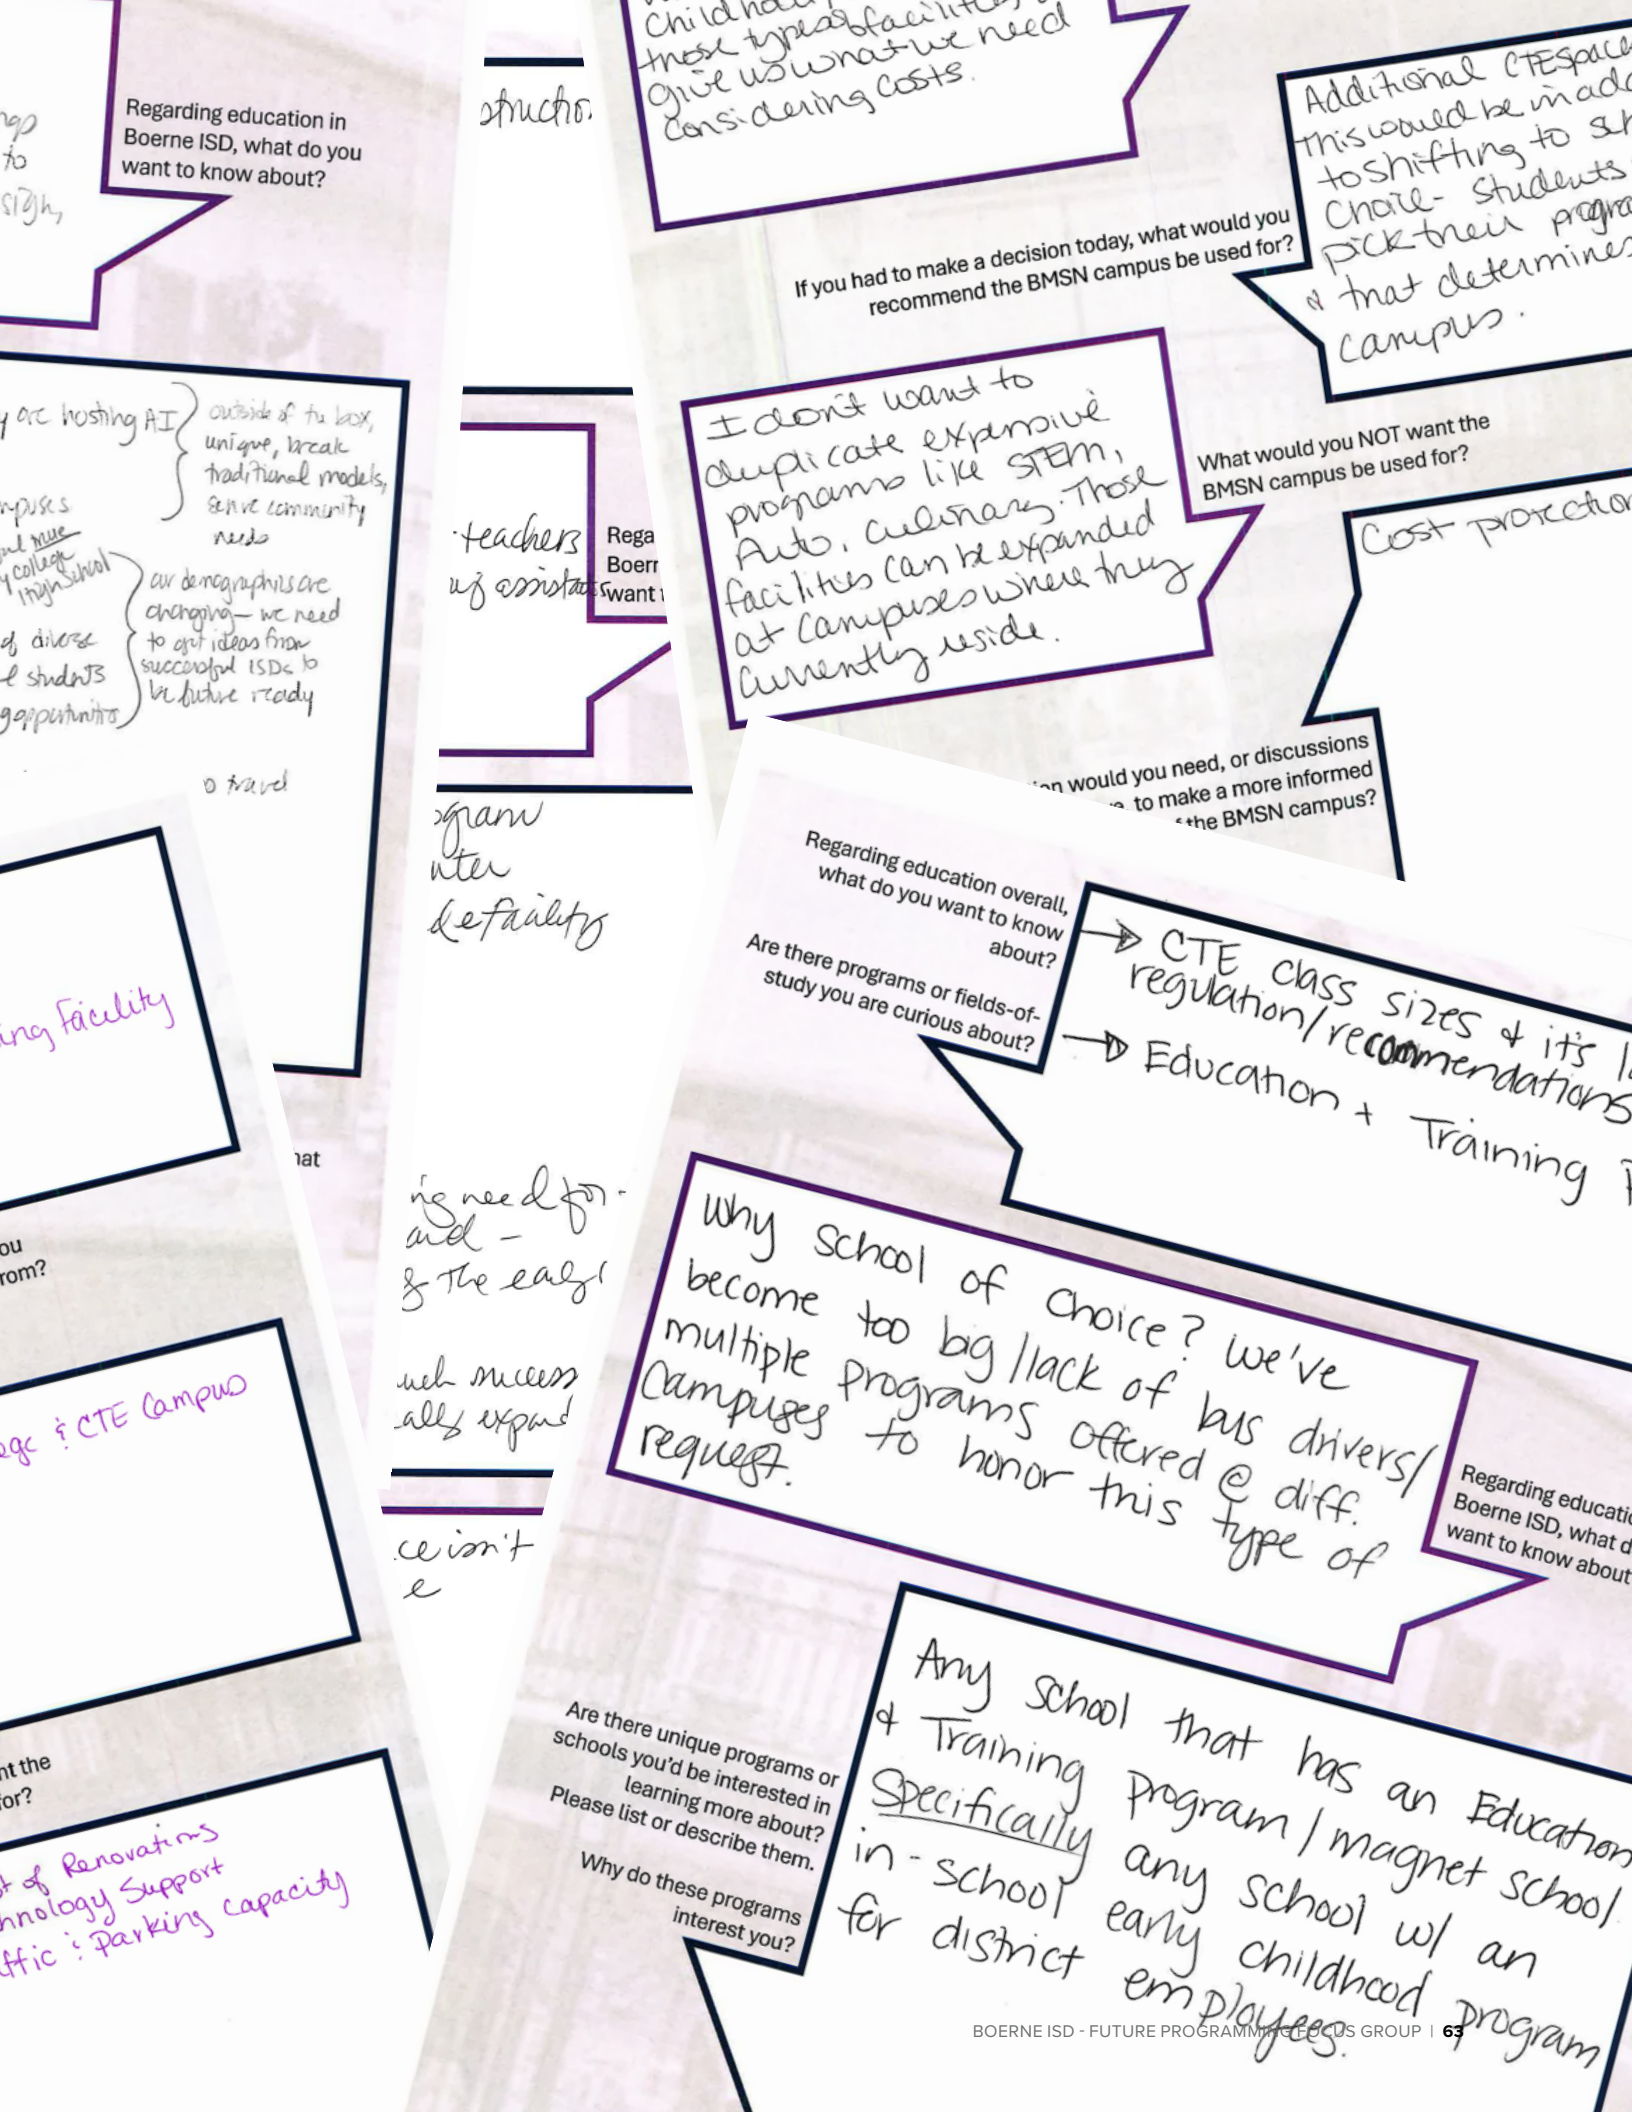

Each FPFG meeting will conclude with an exit ticket. This consistent approach helps the district collect meaningful input over time. By gathering feedback from staff who work directly with students and programs, Boerne ISD ensures that future decisions reflect the people who are central to the district's educational success.

What would you NOT want the BMSN campus be used for?
other options that are vial for the spa are cost e
What information would you need, or discussions would you like to have, to make a more informed decision about the future of the BMSN campus?

DATA COLLECTION PHASE

Boerne ISD will continue to gather and use feedback from each Future Programming Focus Group meeting to inform next steps. This input helps ensure decisions reflect both district priorities and staff experience. As part of this effort, FPFG members built a deeper understanding of Boerne ISD's current curriculum and instructional practices. Members also worked in small teams and traveled across Texas to visit a range of schools and programs. These visits provided real-world examples and helped the group evaluate which approaches could work well for Boerne ISD and which may not. The information collected during this phase will serve as a key resource as the district moves forward with planning and future decisions.

SOAR

MEETING 2: NOVEMBER 04, 2025

Following district updates, the Future Programming Focus Group explored a range of program types and discussed which options could best support Boerne ISD's goals and student needs.

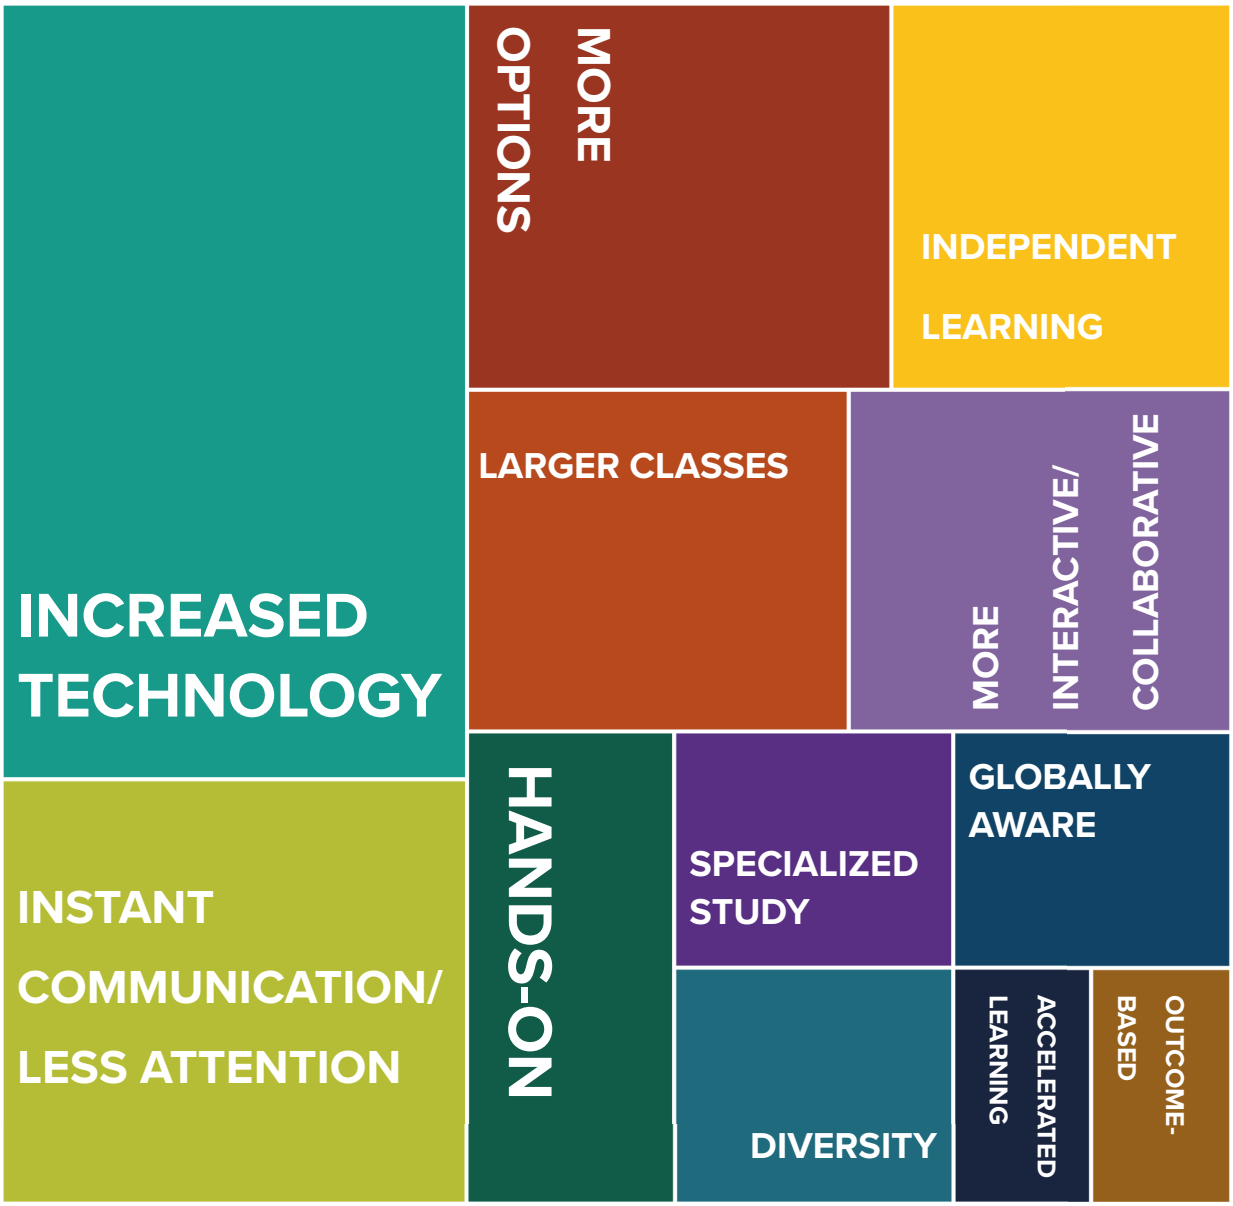

During the meeting, members reviewed different industries and educational program models. The group was introduced to the concept of a specialized campus and discussed how this approach could benefit the district. Participants shared feedback through surveys and group discussion, allowing the team to surface initial ideas, questions, and concerns.

This meeting focused on listening and clarification. It gave FPFG members the opportunity to ask questions and express perspectives before beginning deeper data collection and campus visits. The discussion helped establish a baseline understanding that will support more informed decision-making as the process continues.

MEETING 2: BISD CURRICULUM & INSTRUCTION UPDATE

DISTRICT SCORECARD

STUDENT SUCCESS

By 2028, 100% of Boerne ISD students will engage in innovative learning experiences so they are college, career, and/ or military ready.

TALENT

By 2028, 100% of the Boerne ISD employee experience will prioritize opportunities to perform at and aspire to the highest level of professional performance growth.

FISCAL RESPONSIBILITY

By 2028, Boerne ISD will maximize funding and efficiencies so our budget funds 100% of our identified needs

FAMILY & COMMUNITY ENGAGEMENT

By 2028, 100% of Boerne ISD stakeholders will be a part of a culture of trust where they feel engaged and valued.

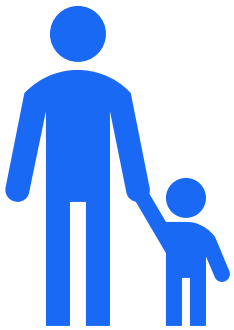

By 2028, 100% of Boerne ISD students will engage in innovative learning experiences so they are college, career, and/ or military ready.

Boerne ISD is a student-centered district, everything they do ties back to the student. Through professional learning, they are building educator capacity to directly influence outcomes and achievements.

MEETING 3: MARCH 20, 2025

The Future Programming Focus Group met to share insights from visits to specialized campuses across Texas and conversations with other school districts.

Members traveled in small teams to Dallas, Austin, Houston, and San Antonio-area districts to study a range of specialized campus models. During these visits, the group examined factors such as transportation needs, student interest in specific programs, facility size, and how each campus served its surrounding community.

The meeting focused on collaborative discussion. Each team shared what they learned and highlighted elements they found effective and relevant for Boerne ISD. This exchange allowed all FPFG members to contribute perspectives and identify common themes.

The discussion helped narrow program options for the future of Boerne Middle School North and provided clearer direction for the next phase of planning.

MEETING #3 - FPFG TOURS - MARCH 20, 2025

BISD STAFF VISITING OTHER FACILITIES

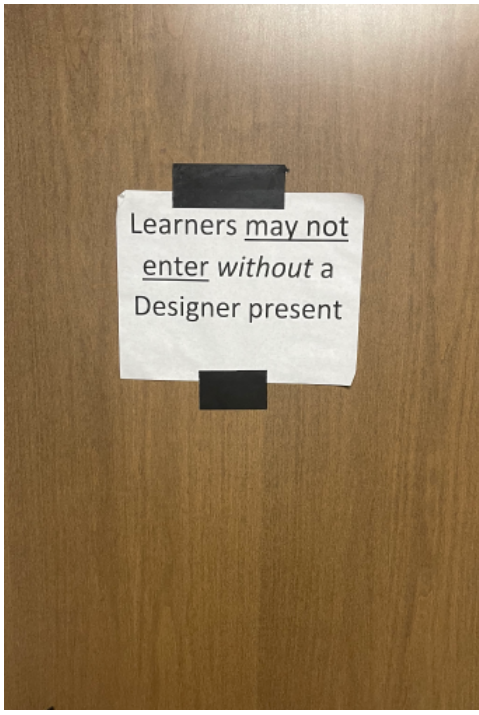

MEETING 3: FPFG TOURS - DALLAS

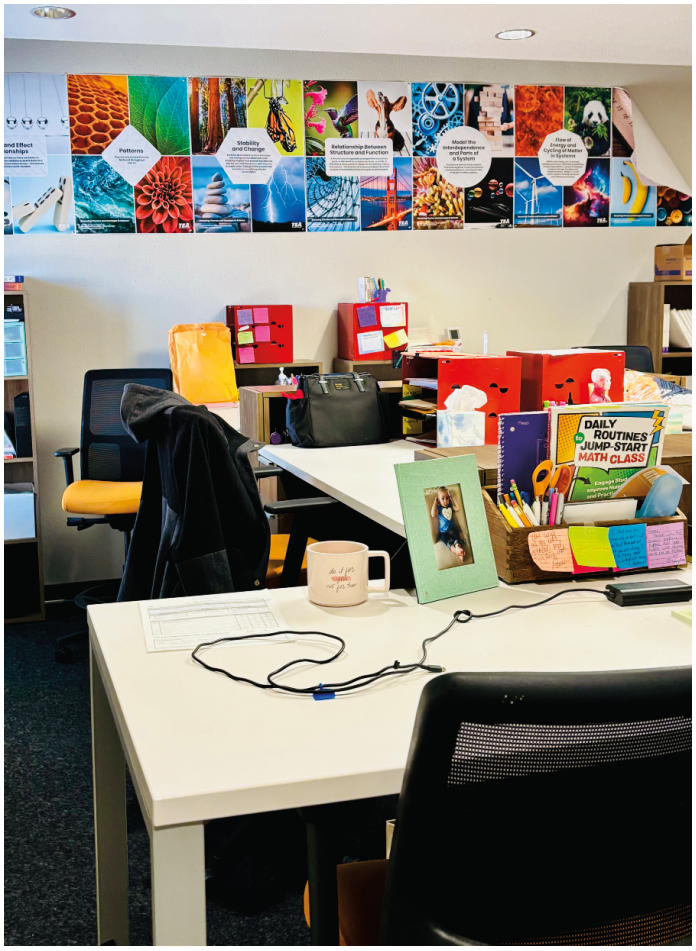

MANSFIELD ISD **JERRY KNIGHT STEM ACADEMY**

MEETING #3 - FPFG TOURS - MARCH 20, 2025

The **Knight STEM Academy** is a repurposed facility focused on STEM-Based instruction (labs, collaborative spaces, makerspaces, etc.).

- MS Honors "learners" eligible to attend
- "Designers" teach not only STEM courses, but core content as well leading to consistent cross-curricular instruction.
- "Designers" (teachers) do not have specific classrooms, instead they share planning spaces.

Repurposed in 2017 from a building on the campus of the Brooks Wester MS - remodeled for the labs, makerspace, and collaborative spaces. Flexible furniture choices as well as repurposing existing furniture (lab tables, storage, etc.)

MEETING 3: FPFG TOURS - DALLAS

MANSFIELD ISD JERRY KNIGHT STEM ACADEMY - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Designers, not teachers
- importance of professional development
- Focused their design model around a specific learner
- Utilized an existing building

I'M NOT SURE ABOUT THIS...

- Exclusive to a specific population
- Population served was small
- Facility design a bit lacking

RELEVANCE TO BOERNE...

- Magnet-type program where students apply could work
- Aspects could work, but not this exact model

CHALLENGES...

- Too exclusive, designed around 1 type of learner
- Very few extracurriculars
- Too small, needs to benefit more students

FINAL THOUGHTS

- Appreciate the strategic planning.

MEETING 3: FPFG TOURS - DALLAS

FORNEY ISD - **THE KEITH BELL OPPORTUNITY CENTRAL**

MEETING #3 - FPFG TOURS - MARCH 20, 2025

The OC is a community-centered facility with elements open to the public (shopping, restaurants, events spaces, tech spaces, etc.)

- College campus "feel"/ shopping mall "feel"
- High school CTE labs, makerspaces, and classrooms
- CTE students work at the shops of business partners and students fully run Blooms, the flower shop
- Many CTE programs have a public-facing retail element/ storefront
- OC Junior -PK program - entrepreneurial play areas replicate The OC's high school CTE programs.

The Forney ISD OC is a 350,000 square foot facility that resulted from the 2019 bond.

MEETING 3: FPFG TOURS - DALLAS

FORNEY ISD - THE KEITH BELL OPPORTUNITY CENTRAL (THE OC) - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- One of a kind facility
- Highly Flexible
- Focused on community
- Directly connecting industry and education

I'M NOT SURE ABOUT THIS...

- Very large & expensive facility
- Requires a lot of staff
- Long term viability with rental retail spaces?

RELEVANCE TO BOERNE...

- Similar communities with business/ industry looking for ways to contribute towards student success.

CHALLENGES...

- Securing partnerships
- OC scale is too big
- Location of BMSN might be an issue (businesses need traffic to make financially attractive)
- Security of outside patrons

FINAL THOUGHTS

- Would this be an option to increase capacity at ES and secondary schools?
- Love the connection between local business/ industry and the students

MEETING 3: FPFG TOURS - DALLAS

ALLEN ISD - **STEAM CENTER**

MEETING #3 - FPFG TOURS - MARCH 20, 2025

The **AISD STEAM Center** is a multi-purpose facility combining HS STEAM classrooms, labs, and makerspaces with destination field experiences for Elementary Schools and Middle Schools.

- Highly flexible indoor and outdoor learning spaces
- College campus "feel" (HS students shuttle to attend classes at the center - the center can accommodate up to 500 students per class period)
- Field experience center - every school day hosts a single grade from an elementary school or middle school campus for a day of STEAM learning.

MEETING 3: FPFG TOURS - DALLAS

ALLEN ISD STEAM CENTER VISIT - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- The natural setting
- Student autonomy & choice
- Integration of K - 8 population
- Connection to community college

I'M NOT SURE ABOUT THIS...

- Shuttling aspects
- Student freedom and choice
- Security issues with such an open campus

RELEVANCE TO BOERNE...

- Connection to every student in the district
- Could provide some capacity of relief
- Dual-credit location

CHALLENGES...

- Potentially a hefty price tag (would require a bond)
- Bond = needs a clear vision & connection to all students

FINAL THOUGHTS

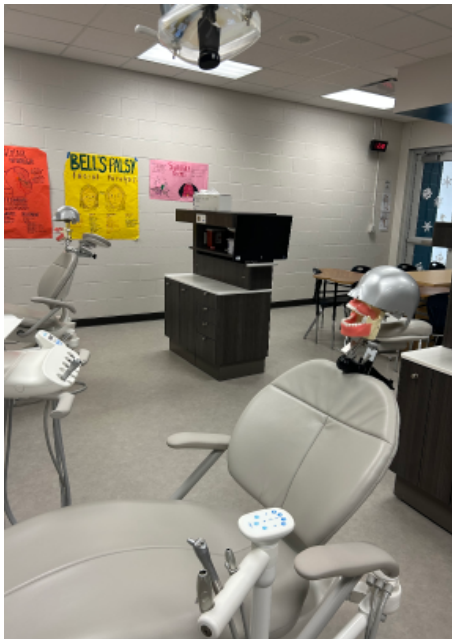

- A definite shift in mindset.
- Highly Flexible = Learning spaces were generalized and intentional at the same time.

MEETING 3: FPFG TOURS - HOUSTON

KATY ISD - **MILLER CAREER & TECHNOLOGY CENTER**

The **Miller Career & Technology Center** has a variety of spaces and programs for high school students.

- There is a variety of spaces to support and serve partners and the greater community in Katy.
- 20 programs of study that serves over a thousand students.
- Specialized career and technology programs as well as core classes for half a day at MCTC while continuing to attend their home high school campus the rest of the day.

MEETING #3 - FPFG TOURS - MARCH 20, 2025

OUR BUSINESS PARTNERS
Miller Career & Technology Center values our business partners and their contributions to our campus success.
Gene Haas Foundation
Trademark Beauty
Laserweld
Westside Lexus
Christian Brothers Automotive
Knust-Godwin
H-E-B
Jeremy Reardon

MEETING 3: FPFG TOURS - HOUSTON

KATY ISD - **MILLER CAREER & TECHNOLOGY CENTER** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- 20 programs of study at one campus
- Serve 1700 students
- 4 programs also serve the community

I'M NOT SURE ABOUT THIS...

- How do they determine what programs to offer?
- Who establishes partnerships with local businesses?

RELEVANCE TO BOERNE...

- Location of BMSN would be great for this type of a facility.

CHALLENGES...

- Parking challenges for BMSN
- Bussing or other transportation could be a challenge

FINAL THOUGHTS

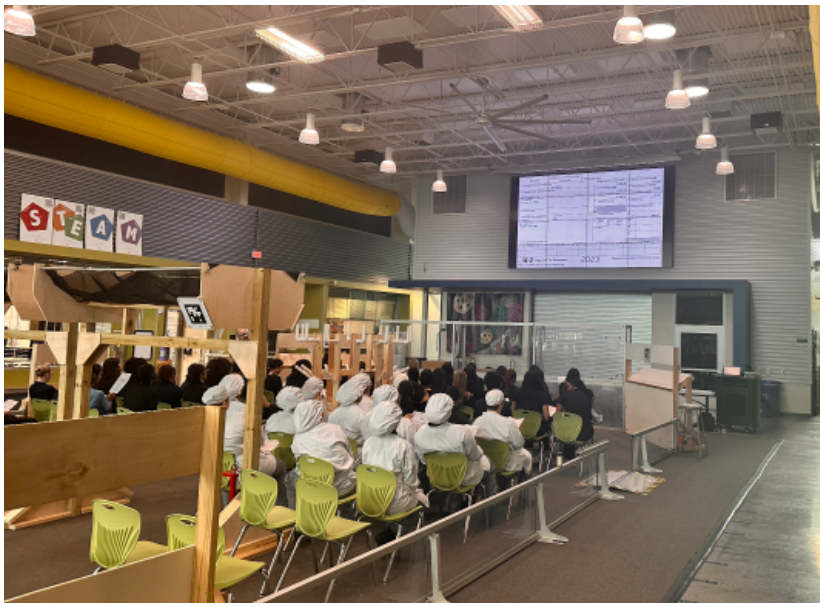

- Centralized location of BMSN make this type of a collective CTE facility attractive

MEETING 3: FPFG TOURS - HOUSTON

KATY ISD - **ROBERT R. SHAW CENTER FOR STEAM**

The **Robert R. Shaw Center for STEAM** is a large resource facility, mainly utilized for Robotics but can be used by all grade levels.

- There is a variety of activities that occur at the Center for STEAM such as robotics, field trips, family steam nights, summer camps, and more.

MEETING #3 - FPFG TOURS - MARCH 20, 2025

OCEANEERING

Should I file myself?

bp
OCEANEERING

MEETING 3: FPFG TOURS - HOUSTON

KATY ISD - **ROBERT R. SHAW CENTER FOR STEAM** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Full day use
- Highly flexible & multipurpose large space

I'M NOT SURE ABOUT THIS...

- Focused on such a specific program (robotics)

RELEVANCE TO BOERNE...

- Concept of a multipurpose facility would be beneficial

CHALLENGES...

- Would have to be a program-of-study that is well received and in demand

FINAL THOUGHTS

- Multipurpose aspect and full day usage is appealing

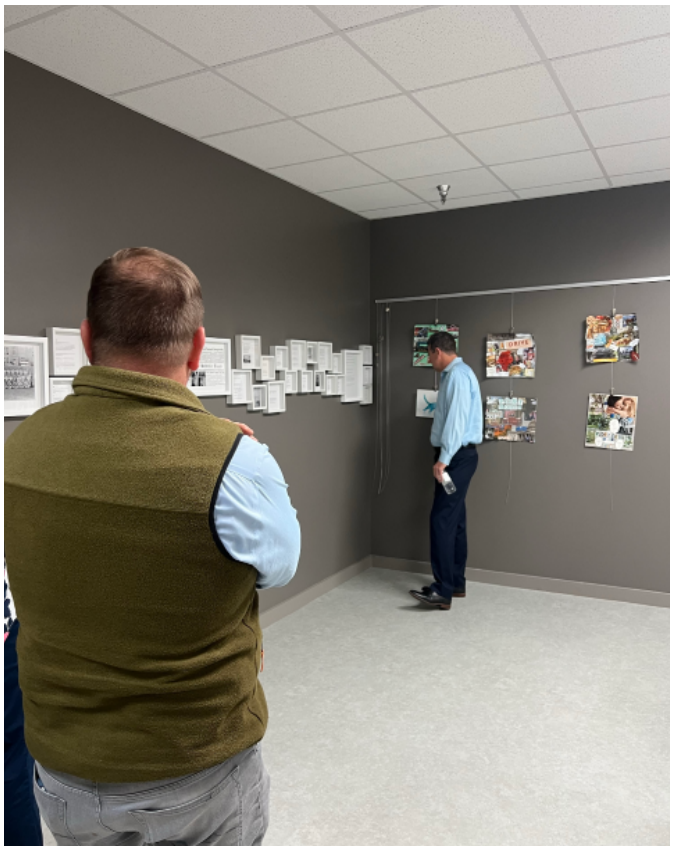

MEETING 3: FPFG TOURS - HOUSTON

BELLVILLE ISD - **BRAHMAS ON THE SQUARE LEARNING CENTER**

The **Brahmas on the Square Learning Center** is located right on the main street of the town's square. As you enter, the district showcases a "museum" of important historic items to the district. There is also a small shop where products made by the students can be sold to the public.

- The community is very involved with this center and there are regular markets that occur in the front portion of the building.

MEETING #3 - FPFG TOURS - MARCH 20, 2025

BELLVILLE
COMMUNITY
MUSEUM

bisd learning center

MEETING 3: FPFG TOURS - HOUSTON

BELLVILLE ISD - **BRAHMAS ON THE SQUARE LEARNING CENTER** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Welcoming to the public (signage & historic features)
- Student work and branding on display
- Right in the middle of town

I'M NOT SURE ABOUT THIS...

- Doesn't align with the needs of BISD students

RELEVANCE TO BOERNE...

- Similar location & similar community
- Like the idea of a space to put CTE on "display" - creates community awareness

CHALLENGES...

- Would need to align more with BISD student needs

FINAL THOUGHTS

- BMSN location is uniquely poised to provide a similar experience/ exposure opportunity

MEETING 3: FPFG TOURS - HOUSTON

ALIEF ISD - **ALIEF EARLY COLLEGE HIGH SCHOOL**

Photo by: https://www.aliefisd.net/o/aechs

The **Alief Early College High School** is a magnet high school and is located on the Houston Community College Campus.

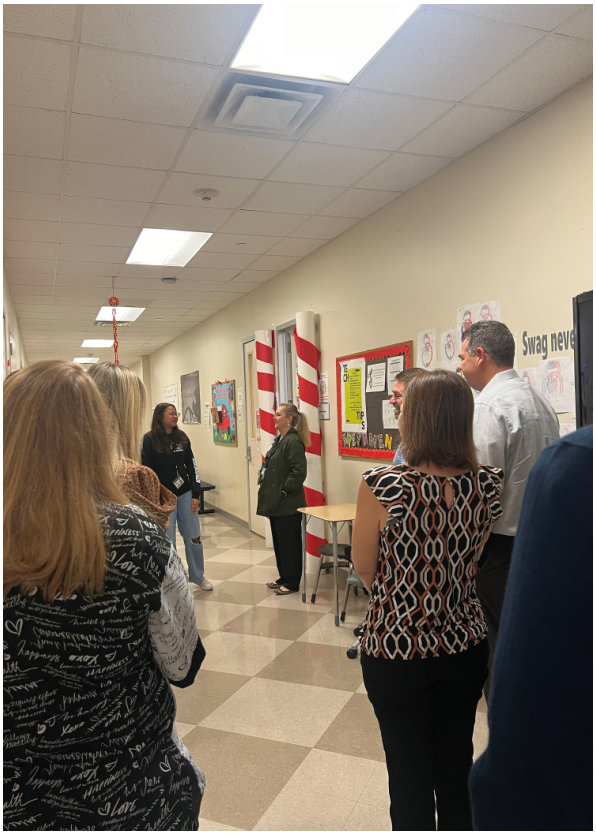

- Being on site of the community college, the students can travel to and from the high school and college buildings. This also provides a sense of independence and college readiness for these students since they are taking classes with other college students as well. The school is a very small high school that focuses on the success of their students and giving them opportunities to compete and do other extracurriculars like in

MEETING #3 - FPFG TOURS - MARCH 20, 2025

Photo by: https://www.aliefisd.net/o/aechs

MEETING 3: FPFG TOURS - HOUSTON

ALIEF ISD - **ALIEF EARLY COLLEGE HIGH SCHOOL** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Staff that is willing to do "the extra"
- Campus on a true bell curve
- Physical proximity to their higher education partner

I'M NOT SURE ABOUT THIS...

- Would need to find staff that is bought in to this model

RELEVANCE TO BOERNE...

- Higher Education partner could be found in ACD (campus forthcoming south of Boerne)

CHALLENGES...

- Is an ECHS more needed/ wanted than a CTE facility?
- With ACD coming to Boerne, would an ECHS make more sense closer to that campus?

FINAL THOUGHTS

- Like the strong connection between staff and students

MEETING 3: FPFG TOURS - HOUSTON

TOMBALL ISD - **TOMBALL INNOVATION CENTER**

Photo by: https://tomballtxedc.org/

MEETING #3 - FPFG TOURS - MARCH 20, 2025

The **Tomball Innovation Center** is a repurposed building that allows for a variety of programs to fit within it's site.

- The Innovation Center offers specialized career and technical education (CTE) programs that are exclusively available at this dedicated facility. The exclusive programs that Tomball Innovation Center include are Aviation Pilots & Maintenance, Electrical Technology, Robotics, and Law Enforcement.

MEETING 3: FPFG TOURS - HOUSTON

TOMBALL ISD - **TOMBALL INNOVATION CENTER** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Intentional for students to receive certifications and/ or credentials
- Immersive environment
- Creative use of an existing facility

I'M NOT SURE ABOUT THIS...

- Facility design issues (narrow hallways)

RELEVANCE TO BOERNE...

- Ideal roadmap for Boerne ISD to use

CHALLENGES...

- Space and land - is BMSN big enough for this type of program?
- Will the community support it?

FINAL THOUGHTS

- This is the premier standard, in my opinion...

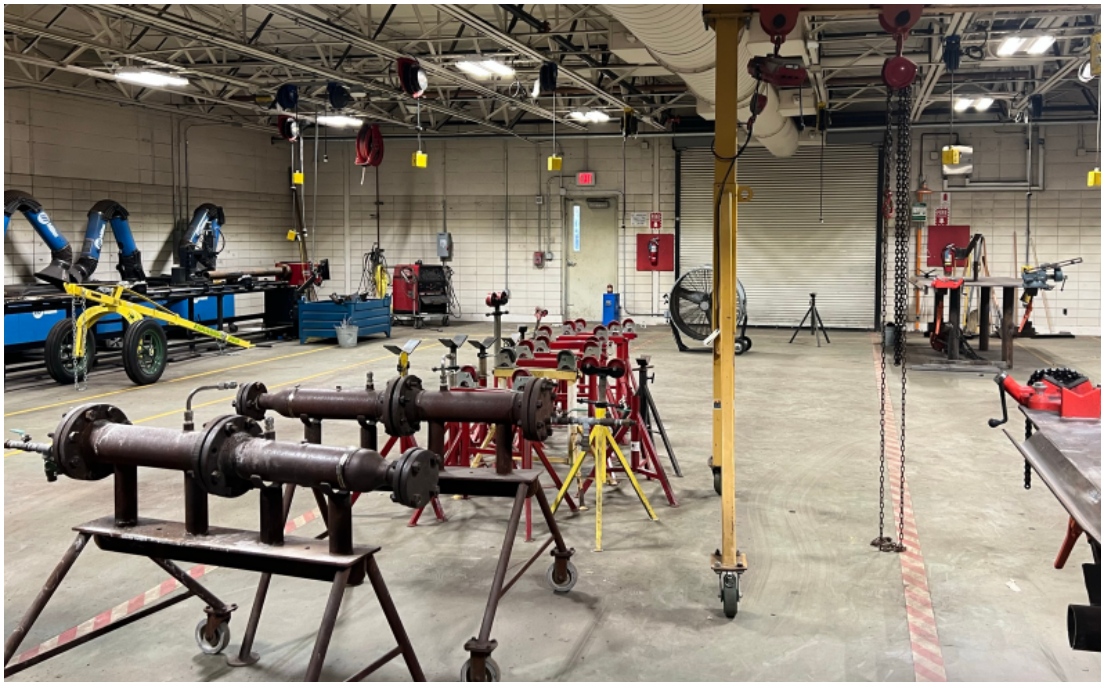

MEETING 3: FPFG TOURS - HOUSTON

GOOSE CREEK ISD - **STUART CAREER TECHNICAL HIGH SCHOOL**

MEETING #3 - FPFG TOURS - MARCH 20, 2025

The **Stuart Career Technical High School** is a repurposed building.

- A standalone campus focused on career and technical training.
- CTE programs are spread across multiple campuses and specialized academies rather than being housed in a single building. The district offers CTE courses at various high schools and dedicated facilities.

MEETING 3: FPFG TOURS - HOUSTON

GOOSE CREEK ISD - **STUART CAREER TECHNICAL HIGH SCHOOL** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Lots of great programs that are relevant to Boerne

I'M NOT SURE ABOUT THIS...

- Program was still growing at GCISD
- Some classes were not fully utilized

RELEVANCE TO BOERNE...

- How would this work with the "shuttle model" we use?
- An existing former ES was utilized for this

CHALLENGES...

- Cost of independent campus vs. supplement campus

FINAL THOUGHTS

- Really enjoyed seeing how other districts are tackling the same problems/ issues that Boerne ISD has.

MEETING 3: FPFG TOURS - HOUSTON

HOUSTON COMMUNITY COLLEGE - **COLLABORATORIUM WEST HOUSTON INSTITUTE**

The **Collaboratorium** is a multipurpose building within the Houston Community College that serves as a makerspace for the HCC community.

- A high-tech space designed for collaboration, innovation, and problem solving.
- It features interactive technology, flexible workspaces, and expert facilitation for strategic planning, workshops, and networking events.
- It includes a large interactive Nureva Wall, breakout rooms, and gathering spaces to enhance teamwork and creativity.
- Available for HCC and external organizations, it provides a dynamic environment for brainstorming and developing actionable solutions.

MEETING #3 - FPFG TOURS - MARCH 20, 2025

LASER
CUTTING
LASER
SION M2
MADEINUSA
www.epiloglaser.com

MEETING 3: FPFG TOURS - HOUSTON

HOUSTON COMMUNITY COLLEGE - **COLLABORATORIUM WEST**

HOUSTON INSTITUTE - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Focused on collaboration
- Makerspace integration was great
- Flexibility

I'M NOT SURE ABOUT THIS...

- Makerspace was only geared for one pathway
- Staffing for the makerspace

RELEVANCE TO BOERNE...

- Great as an idea to promote collaboration between the district and community college

CHALLENGES...

- Cost
- Logistics of traveling to/ from this type of facility

FINAL THOUGHTS

- Would be nice to have in Boerne
- Would need to be flexible and adaptable - not designed around a specific type of technology

MEETING 3: FPFG TOURS - AUSTIN

GEORGETOWN ISD - **FUTURE READY COMPLEX & EARLY CHILDHOOD CENTER**

The **Future Ready Complex** has a variety of CTE programs: advanced engineering, automotive, aviation, cosmetology, culinary arts, drones, health science, and rocketry.

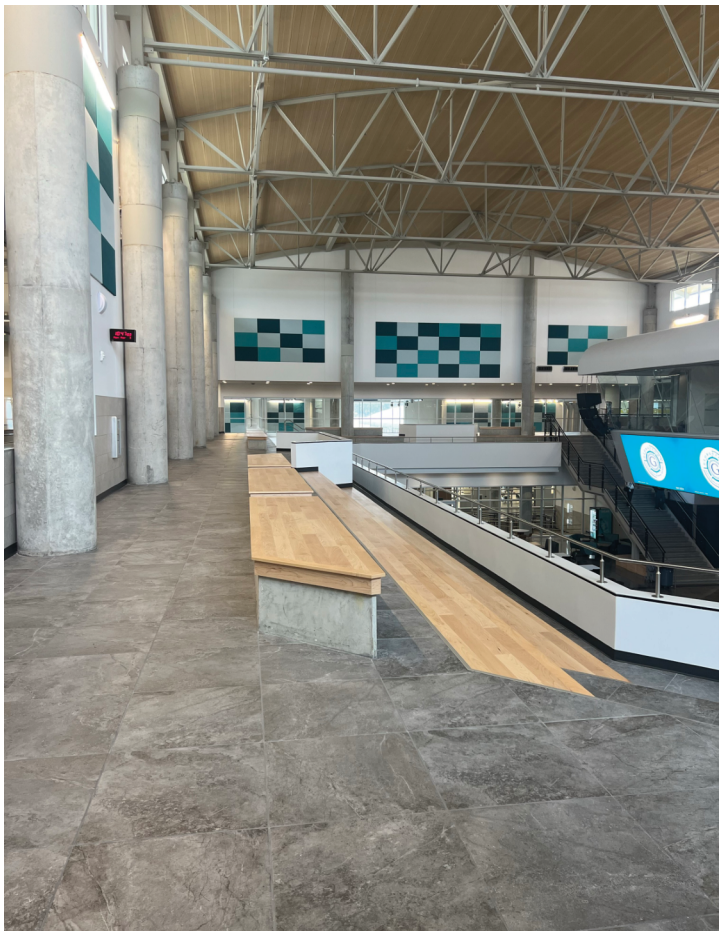

- Facility for advanced CTE courses
- Multi-use
- Early childhood learning center on the same property (CTE learning opportunities)

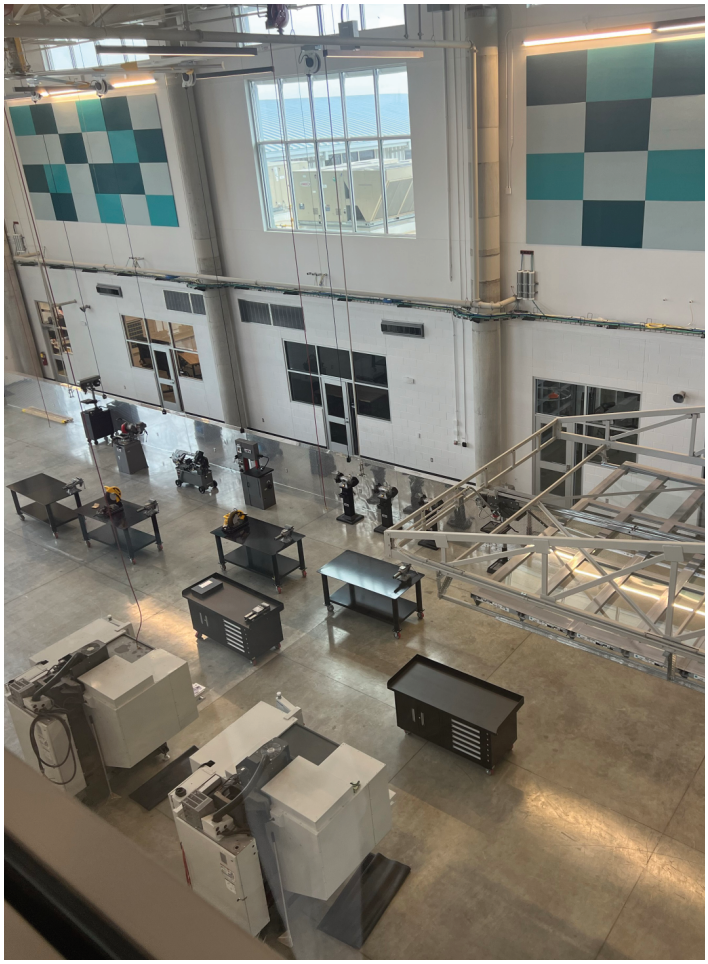

MEETING #3 - FPFG TOURS - MARCH 20, 2025

MEETING 3: FPFG TOURS - AUSTIN

GEORGETOWN ISD - **FUTURE READY COMPLEX & EARLY CHILDHOOD CENTER** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Planned for future growth
- Flexible spaces and building components
- Multi-use spaces
- Open to community

I'M NOT SURE ABOUT THIS...

- Seemed underutilized
- Students not using the facility for a full day
- Building design issues (lack of electrical outlets)

RELEVANCE TO BOERNE...

- Multiple pathways in one facility is great

CHALLENGES...

- Transport to and from the home campuses
- Keeping students interested in their pathway & engage in the full sequence
- Strong recruiting is needed

FINAL THOUGHTS

- Renovating an existing facility (versus building a new one) will have limitations.

MEETING 3: FPFG TOURS - AUSTIN

GEORGETOWN ISD - **HAMMERLUN CENTER FOR LEADERSHIP & LEARNING**

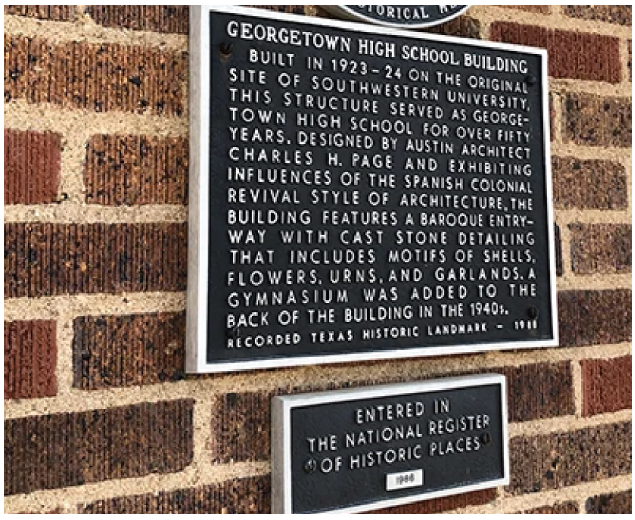

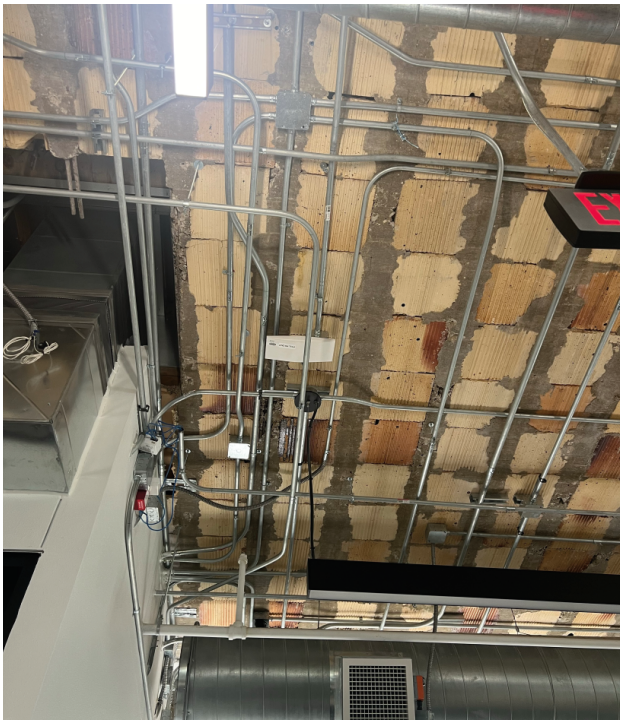

Photo by: https://www.georgetownisd.org/about-gisd/about-us/hammerlun-center-history-tour

MEETING #3 - FPFG TOURS - MARCH 20, 2025

Photo by: https://www.georgetownisd.org/about-gisd/about-us/hammerlun-center-history-tour

The **Hammerlun Center** is a repurposed building that has been renovated while still preserving parts of its history.

- Originally built in 1917
- Repurposed for professional learning, central office, and includes a board room
- Flexible collaborative areas, walls, and usage

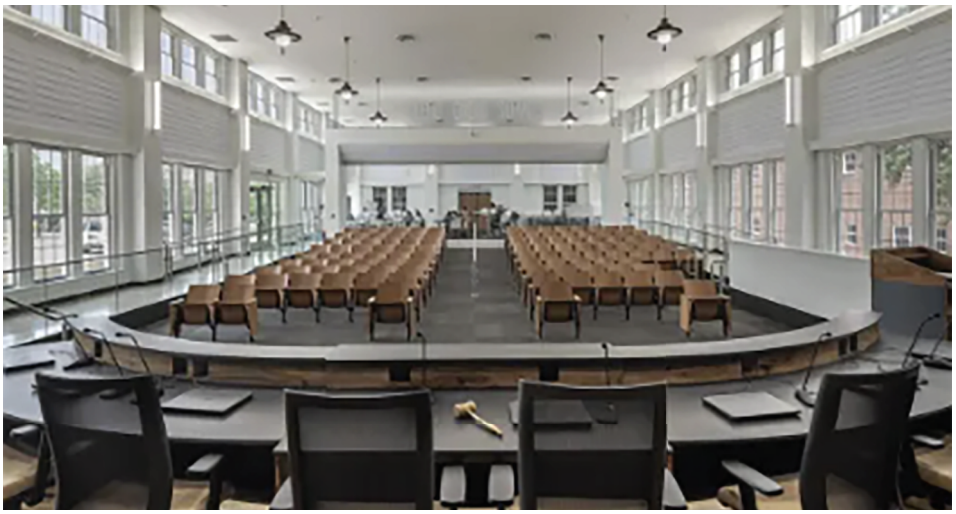

Photo by: https://www.georgetownisd.org/about-gisd/about-us/hammerlun-center-history-tour

MEETING 3: FPFG TOURS - AUSTIN

GEORGETOWN ISD - **HAMMERLUN CENTER FOR LEADERSHIP & LEARNING** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Re-use of historic building
- Designed for collaboration
- Flexible

I'M NOT SURE ABOUT THIS...

- Staff naturally using semi-private areas vs. the large open collaborative areas
- Doesn't "look" like it's related to schools
- Lack of storage

RELEVANCE TO BOERNE...

- Re-use of an existing facility

CHALLENGES...

- Creating a variety of collaborative spaces that users will utilize
- Unlikely that BMSN will be 100% allocated towards a PD program like this

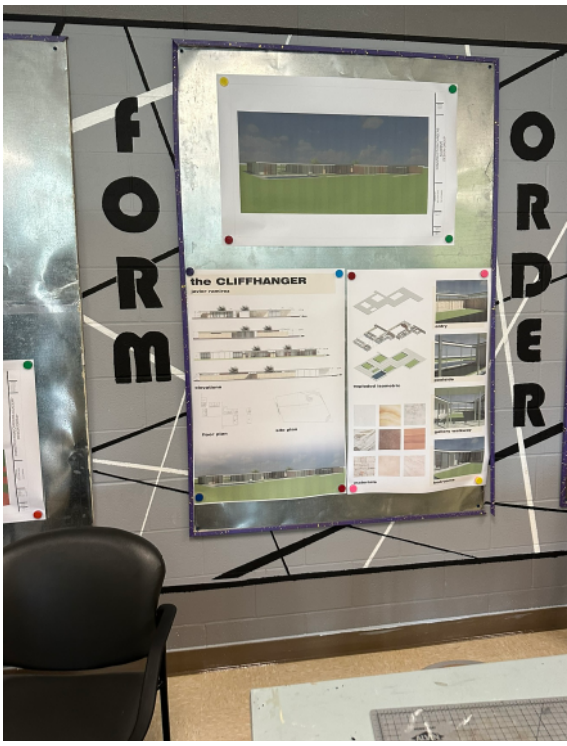

FINAL THOUGHTS

- Might be some good lessons here about re-use of an existing building, but perhaps not much more.

MEETING 3: FPFG TOURS - SAN ANTONIO

NORTHSIDE ISD - **CONSTRUCTION CAREER ACADEMY**

The **Construction Career Academy** is a separate building on the campus of Warren High School. Students go back and forth between the CCA campus and the main Warren campus for core classes. This is a neat facility, the shops are designed for each path (plumbing, electrical, HVAC, etc.).

One of their obstacles is finding outside placement for their students. Due to that limitation, the workshops on site allow them to offer in house practicums vs placing students at external sites. Lots of hands on work. One of the many interesting things they do is build tiny homes and sell them to community members and veterans. They have to build to SA building codes.

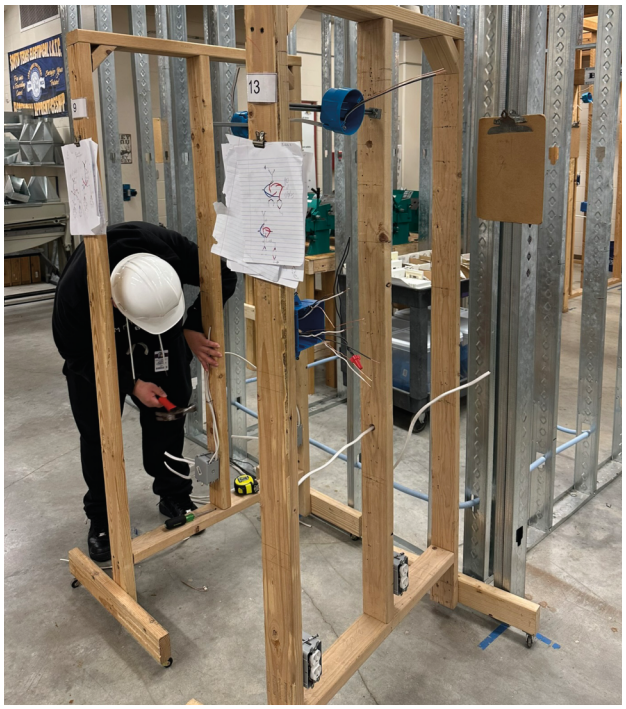

MEETING #3 - FPFG TOURS - MARCH 20, 2025

MEETING 3: FPFG TOURS - SAN ANTONIO

NORTHSIDE ISD - **CONSTRUCTION CAREER ACADEMY** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- This is a program not currently offered in Boerne
- Great that students don't have to "leave" to get hands-on experience

I'M NOT SURE ABOUT THIS...

- Nothing!

RELEVANCE TO BOERNE...

- This type of program is absolutely relevant to Boerne
- Would align with needs of other programs as well (i.e. Robotics)

CHALLENGES...

- Many partnerships would be needed
- Will our community support a "trades-specific" pathway?

FINAL THOUGHTS

- Love this program!
- Truly innovative
- Could unify our district to further close the gaps between ES, MS and HS

MEETING 3: FPFG TOURS - SAN ANTONIO

NORTH EAST ISD - **STEM ACADEMY**

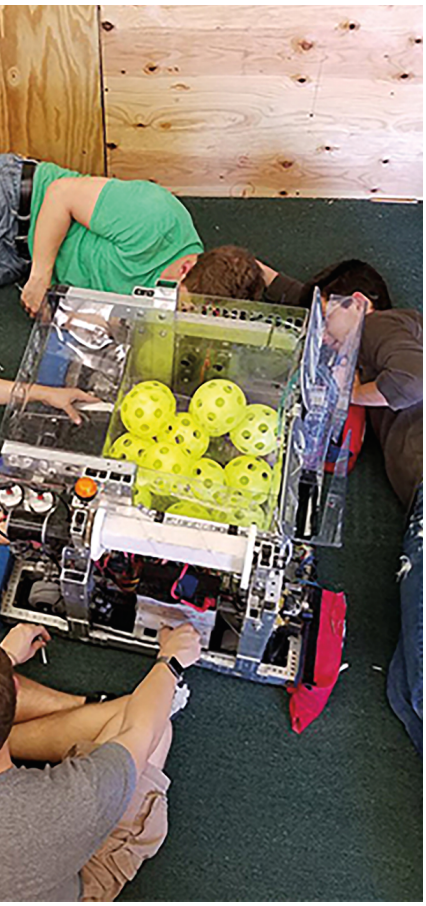

Photo by: https://stem.neisd.net/

The **NEISD STEM Academy** is magnet program (housed at NIMITZ middle school and at LEE High School). Students are admitted as early as middle school via a lottery system. They are facing facility limitations as well. Core content classrooms teach their curriculum through a STEM focus to provide cross curricular support.

MEETING #3 - FPFG TOURS - MARCH 20, 2025

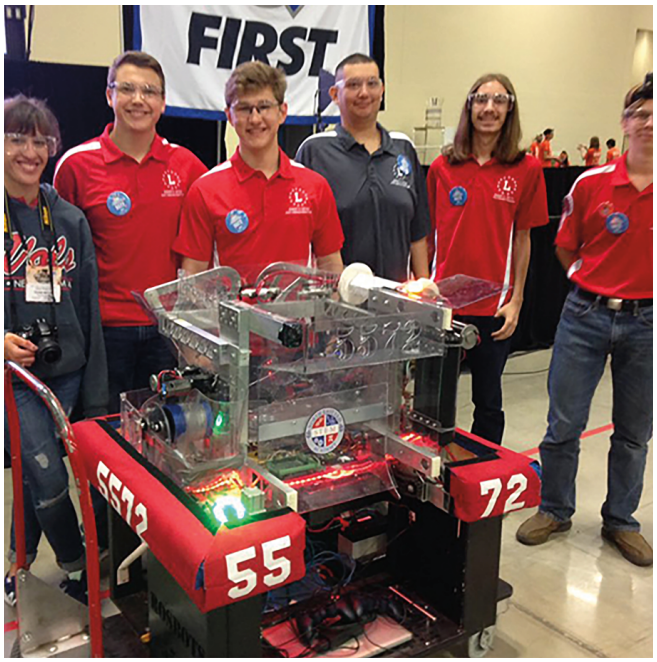

Photo by: https://stem.neisd.net/

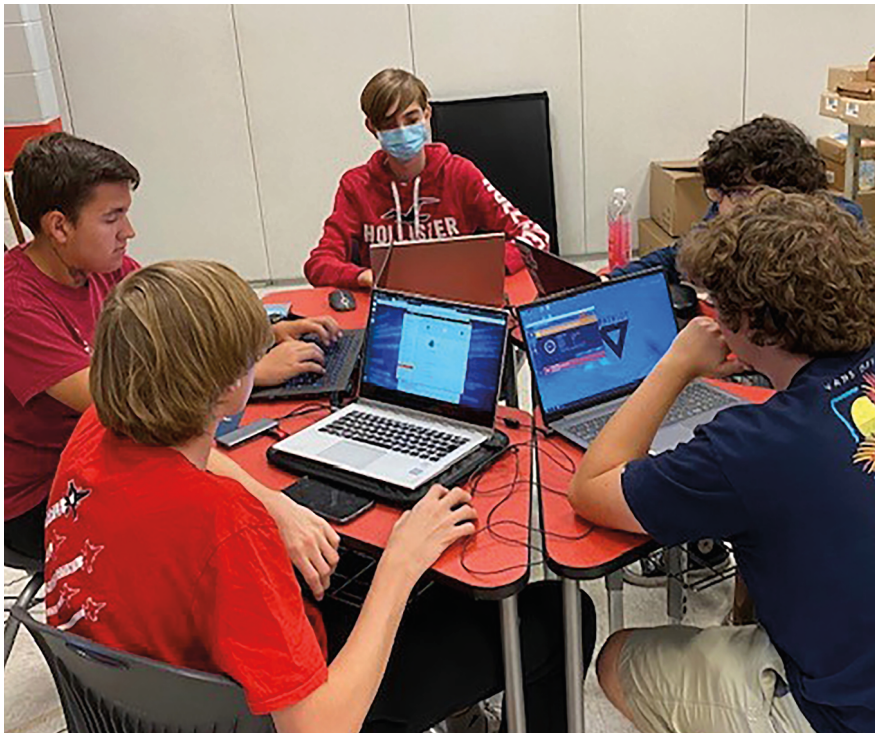

Photo by: https://stem.neisd.net/

MEETING 3: FPFG TOURS - SAN ANTONIO

NORTH EAST ISD - **STEM ACADEMY** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Focus on community and collaboration
- Did the best with the facilities they have

I'M NOT SURE ABOUT THIS...

- Crowded and cluttered
- Storage space needed
- Facilities were not special

RELEVANCE TO BOERNE...

- Similar pathway at Boerne already

CHALLENGES...

- Space and storage issues
- Expansion issues (landlocked)

FINAL THOUGHTS

- Support from 6th-12th grade is great
- BISD is already ahead of this program

MEETING 3: FPFG TOURS - SAN ANTONIO

PRE-K4SA - SOUTH

The **Pre-K4SA - South** is an early childhood facility that includes indoor and outdoor learning activities. It is very intentionally planned out. All furniture in the classroom must be for students - no teacher desks or teacher areas.

- Their facility will be closing and moving to a new location

MEETING 3: FPFG TOURS - SAN ANTONIO

PRE-K4SA - SOUTH - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Loved how students were interacting
- Prioritization of hands-on and outdoor learning
- Well planned

I'M NOT SURE ABOUT THIS...

- Concerned about student-to-teacher ratio that would be needed

RELEVANCE TO BOERNE...

- Similar program in Boerne
- Would be great to expand to early childhood teacher preparation

CHALLENGES...

- Funding sources
- Staffing needs
- Limitations of the existing BMSN campus

FINAL THOUGHTS

- Great program but our district has probably other priorities
- Is a program this robust really a need for our community?

MEETING 3: FPFG TOURS - SAN ANTONIO

JOHNSON CITY - **THE SCIENCE MILL**

The **Science Mill** is a creative use of space- very hands on and creative learning environments

- Both indoor and outdoor learning environments perfect for children to explore their creativity.
- Robotics activities in the summer

MEETING #3 - FPFG TOURS - MARCH 20, 2025

PEARL
GOURAMI

MEETING 3: FPFG TOURS - SAN ANTONIO

JOHNSON CITY - **THE SCIENCE MILL** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Combination of Science + History + Art + Modern
- Hands-on learning

I'M NOT SURE ABOUT THIS...

- Neat and fun, but probably not applicable to Boerne

RELEVANCE TO BOERNE...

- Might have some relevance, with adjustments

CHALLENGES...

- Needs to be adapted to Boerne's needs

FINAL THOUGHTS

- Opportunity to create a really innovative program (summer camps?)
- Need to send our teachers here for some inspiration!

MEETING 3: FPFG TOURS - SAN ANTONIO

NORTHSIDE ISD - HEALTH CAREERS

Photo by: https://www.nisd.net/healthcareers

Photo by: https://www.nisd.net/healthcareers

The **NISD Health Careers** is the only stand-alone magnet in NISD, only HS on block schedule to allow for practicum blocks of three hours.

- Program is geared for students who do not need additional supports
- Includes Fine Arts and Lifetime sports
- Certifications: CNA, Phlebotomy, Pharmacy Technician, Sterile Processing, and Registered Dental Assistant
- 900 students, grades 9-12

MEETING #3 - FPFG TOURS - MARCH 20, 2025

MEETING 3: FPFG TOURS - SAN ANTONIO

NORTHSIDE ISD - **HEALTH CAREERS** - PADLET DISCUSSION BY FPFG MEMBERS THAT VISITED THE CAMPUS

THIS IS GREAT!

- Current equipment
- Real world experience for students

I'M NOT SURE ABOUT THIS...

- Geared towards high-achieving students only
- Limited collaborative interaction (outdated classroom technology)
- Not as much hands-on learning

RELEVANCE TO BOERNE...

- BISD's current P-TECH program feels more innovative

CHALLENGES...

- Logistics of student movement between home campus and a more distant specialized campus?

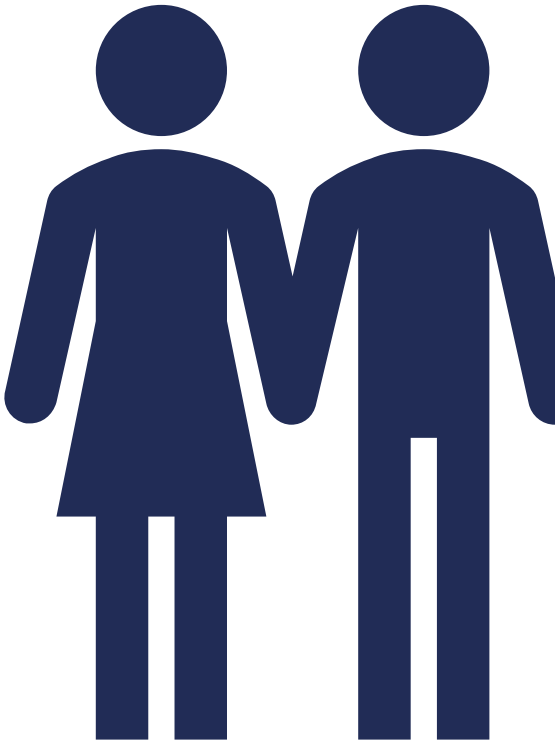

FINAL THOUGHTS

- How would BMSN support a specialized CTE program - just 1 program or multiple programs?

MEETING 3: FPFG TOURS FEEDBACK

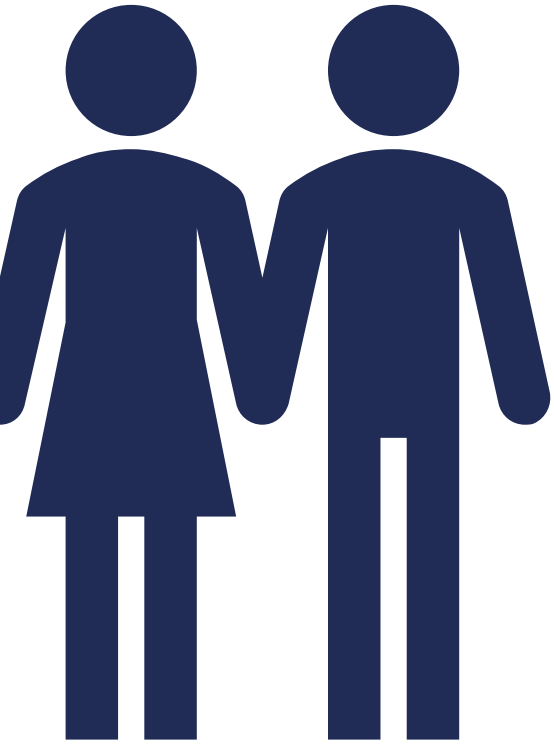

"Sometimes if we look outside the box, amazing opportunities can happen!"

"...it takes more than an innovative building to create a useful learning space for the students... professional development and student voice are equally essential to creating effective learning..."

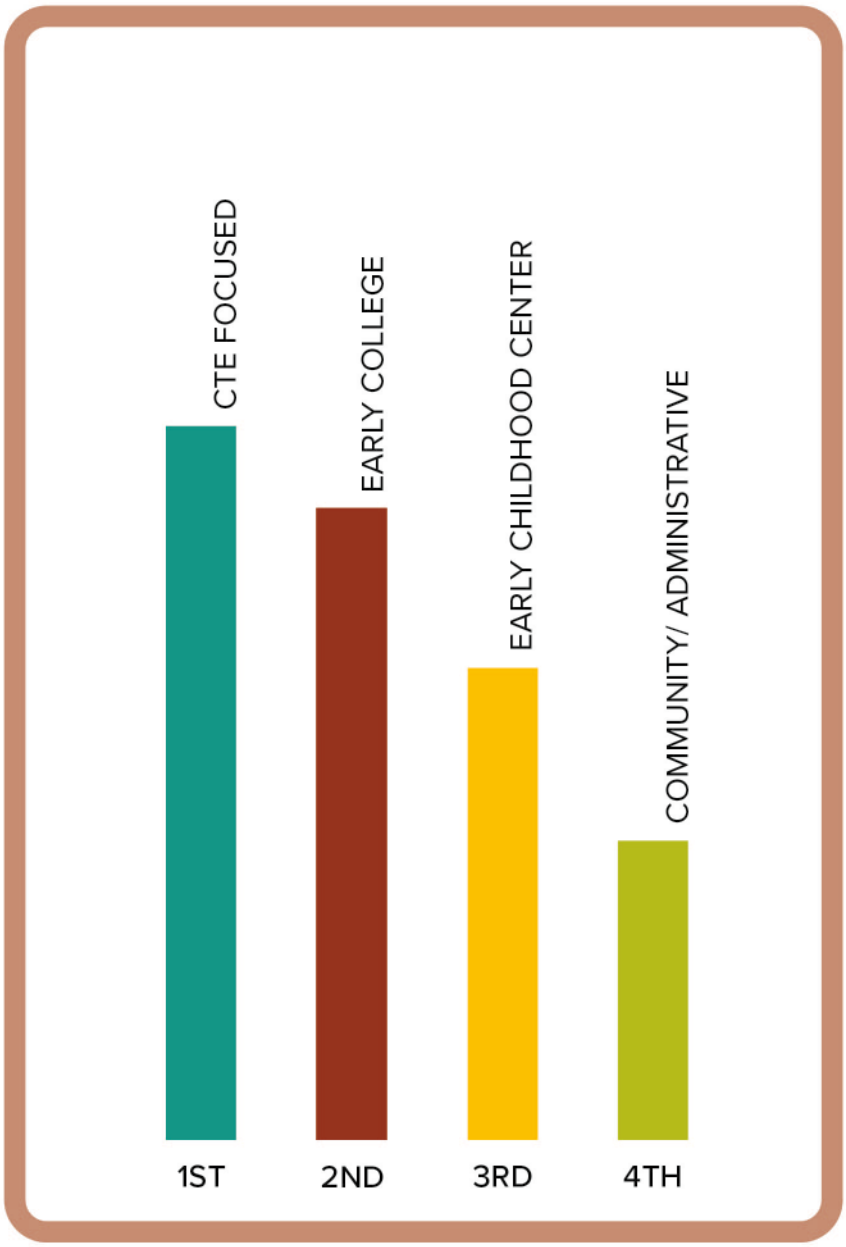

MEETING #3 - FPFG TOURS - MARCH 20, 2025

"Overall, this trip and these visits have changed my mindset from building additional, comprehensive schools to addressing our growth, student needs and preparedness, and our community's needs..."

MEETING 3: EXIT TICKET

RANK THESE PROGRAM TYPES IN YOUR PREFERRED ORDER OF POTENTIAL IMPLEMENTATION FOR BOERNE ISD (1ST=MOST DESIRABLE; 4TH=LEAST DESIRABLE)

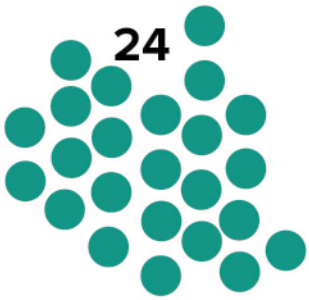

MEETING #3 - FPFG TOURS - MARCH 20, 2025

DO YOU BELIEVE A SINGLE PROGRAM OR COMBINATION OF PROGRAMS SHOULD BE IMPLEMENTED?

COMMUNITY/ ADMINISTRATIVE

MEETING #3 - FPFG TOURS - MARCH 20, 2025

WHAT OTHER QUESTIONS DO YOU HAVE? WHAT HAVE WE NOT DISCUSSED? WHAT "STONES" ARE LEFT UNTURNED?

"Do we have the funding to not only build but also staff?"

"All great ideas start with a crazy idea in mind!!!"

"Will this change increase staffing or pull staffing from other campuses?"

"Timeline for the building of this facility, when decisions would be made, other items you need us to know/ consider before making our decision."

"What is the realistic timeline of this to be fleshed out and implemented?"

"Would like to know district academic ratings for the schools that were visited"

"The options for using the facility to bring in revenue should be discussed or ranked - whether that's for rental, etc."

"Real opportunity to work with local partners for ems/ public safety pathway"

"I think some need to open their minds a little bit more! We have done current programs in our district that are amazing and few do not know about it. I feel that we need to think outside the box!"

"With our district facing financial burdens, how can we ensure this new facility can bring in income as well? (Selling student products & facility rental space)"

"Potentially just examining differences in programming between a center model & academies vs. center models"

"Community input, if it is similar or very different from the focus group. Student course choices over the past few years comparison and future outlook."

The information gathered and shown below are all collected from the responses in the exit ticket from Meeting #3

MEETING 4: APRIL 2, 2025

The purpose of this meeting was to gather final input from the Future Programming Focus Group before reporting back to the Strategic Facilities Planning Focus Group and the Boerne ISD Board of Trustees.

By this point in the process, FPFG members had reviewed district curriculum, growth projections, and program needs. They had also learned about specialized campus models and visited districts across Texas to see what approaches are working for both large and small communities.

During Meeting 4, the group toured Boerne Middle School North in its current condition. Members discussed how lessons learned from other districts could apply to this specific site and shared final thoughts, questions, and concerns. This meeting brought together the full body of work and allowed the group to confirm priorities and prepare clear, informed feedback for district leadership.

MEETING 4: BRAINSTORMING MEETING

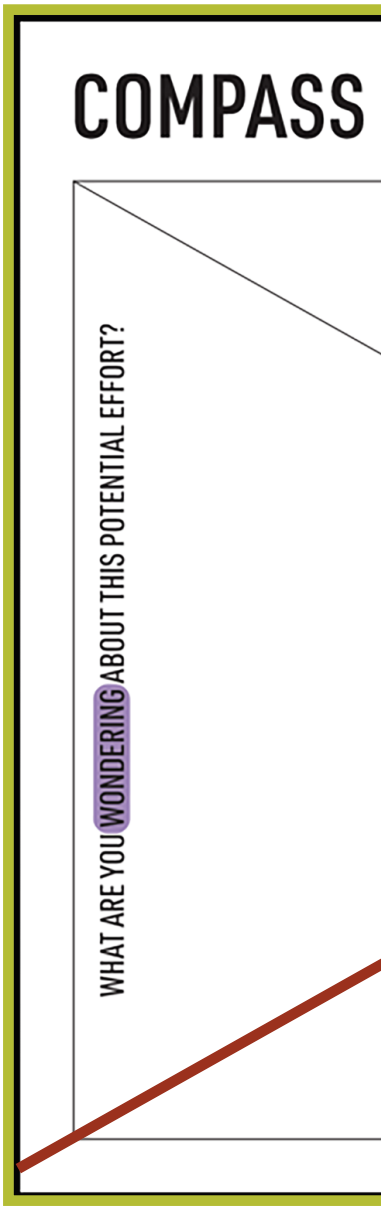

BOERNE MIDDLE SCHOOL NORTH TOUR & COMPASS POINT ACTIVITY

After reviewing examples from other districts, the Future Programming Focus Group visited the Boerne Middle School North campus to evaluate how those ideas could apply to the site.

Members toured the campus and worked in small groups to discuss realistic options for the future of Boerne Middle School North. Feedback was framed around the potential transformation of the campus into a Career and Technical Education and Early College facility.

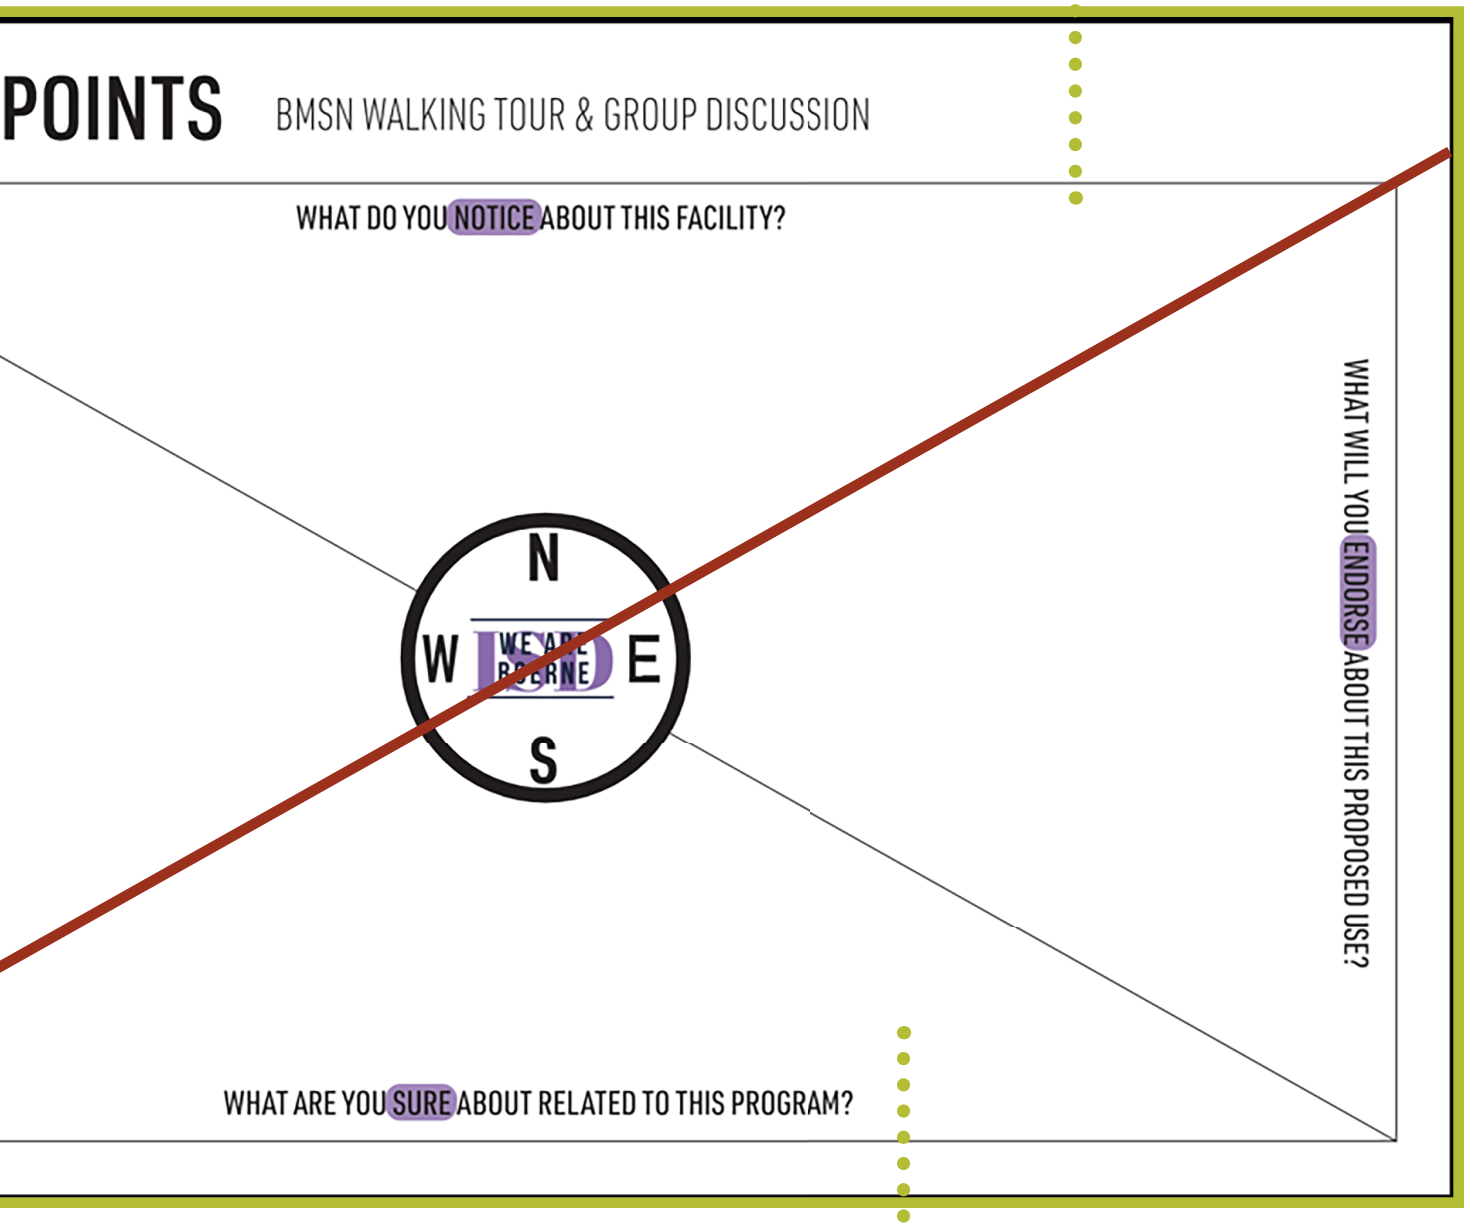

Using a Compass Point worksheet, each group documented thoughts and concerns related to program types, site constraints, and how the campus could support community needs. Groups first completed initial sections of the worksheet before touring the campus. After the tour, they returned to complete the remaining sections, reflecting on how the physical spaces influenced their thinking.

Each group then selected a spokesperson to share key takeaways with the full FPFG. This discussion allowed members to hear different perspectives, identify shared priorities, and surface new ideas that may not have emerged in smaller group conversations.

MEETING #4 - APRIL 2, 2025

childhood
ining
PS
WHAT ARE YOU SURE A
I AM
FREE
CAMPUS
WHAT ARE YOU WONDERING ABOUT THIS POTENTIAL
- I wonder if this would be a stand alone CTE facility (students stay all day) or if it would be a campus shared by both HSs.
- I wonder if the middle green space could house more buildings? or be used for something else
- I wonder about sufficient parking (parking garage??)
- I wonder how the football field be repurposed? (parking)
- I wonder if the 2-story classroom space would be appropriate for early college?
- community gardens
- The community wants this. It is a program that builds workforce ready students and/or college ready students.
- CTE & Early College can be combined but they can be separate too.
CTE + Early College
*WHAT ARE YOU SURE ABOUT RELATED TO THIS PROGRAM?
- There are many multi-
sizes & volumes, spaced a
- There is a lot of green spac
of the campus buildings.
- There are unsecured openings
- There is a stand alone buildi
middle of the courtyard.
- There aren't restrooms in the
classroom
learning
I am sure this facility wi
our students and prepare th
career beyond high school.

COMPASS POINTS

BMSN WALKING TOUR & GROUP DISCUSSION

NAME: TERRY GAULT

WHAT DO YOU NOTICE ABOUT THIS FACILITY?

THE SPACES ARE SMALL AND MAY NEED TO BE REDESIGNED TO BETTER FIT FUTURE NEEDS COLLABORATIVE LEARNING SPACES ETC.

WHAT ARE YOU SURE ABOUT RELATED TO THIS PROGRAM?

I am sure our community would fully support this type of program(s).

WHAT WILL YOU ENDORSE ABOUT THIS PROPOSED USE?

I completely endorse the CTE idea, but I can learn more to an early childhood center to partner w/ it. This center could use the CTE kids.

I am sure we have early college programs already established in brand new buildings

- CTE pathways build job skills needed in the workforce.
- College (early college) only serves a certain % of HS student body. Uncombined with workforce ready, not a good thing.
- CTE & Early College programs are innovative, providing choice & opportunity for all students.

WHAT DO YOU NOTICE ABOUT THIS FACILITY?

this

cost efficiencies - what we do in the meantime w/ current students - how we combine the choppy bits of the campus to make both functional and aesthetically pleasing. what parking would look like, would it be a landaid - what does it look like longterm. I think there is potential but is

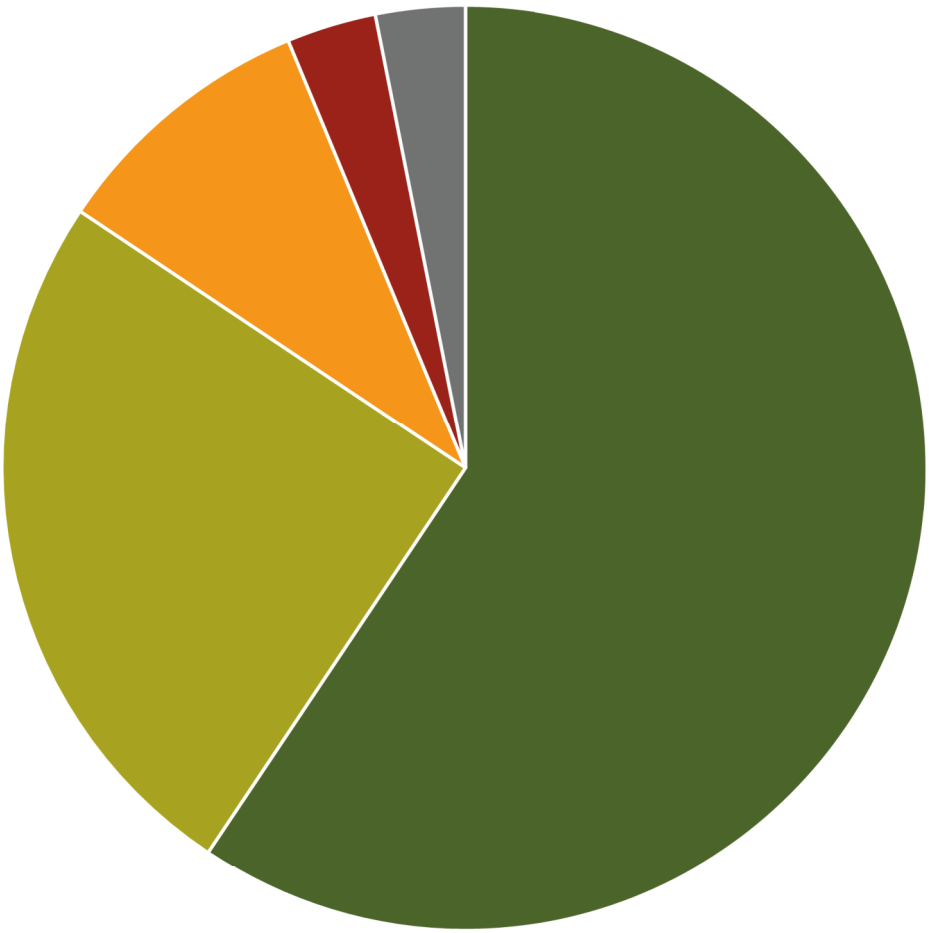

MEETING 4: BRAINSTORMING MEETING

BOERNE MIDDLE SCHOOL NORTH TOUR EXIT TICKET

At the end of the fourth meeting, the FPFG filled out a "temperature check" exit ticket. By this point, the group had reviewed multiple program options. Career and Technical Education and Early College emerged as the top choices among participants. During the meeting, members toured the Boerne Middle School North campus and discussed what could realistically be accomplished through renovation to support a specialized campus.

Exit ticket results showed strong overall support for this direction. Most participants fully supported transforming Boerne Middle School North into a CTE and Early College campus. Eight respondents noted some reservations but still expressed support. Four of the 32 responses reflected higher levels of concern, including one indicating no support. In total, 32 exit tickets were distributed, with one participant choosing not to respond.

WHAT ARE YOU **WONDERING** ABOUT THIS POTENTIAL EFFORT?

The information gathered and shown below are all collected from the responses in the exit ticket from Meeting #4

NEXT STEPS PHASE

The FPFG then focused on the next steps, including a review of district operations, tours of specialized campuses across Texas, and collaborative brainstorming sessions. These efforts allowed the group to evaluate which ideas could be successfully implemented in Boerne ISD. Feedback from each meeting was collected and incorporated throughout the process. This approach ensured decisions were informed by data, staff experience, and shared discussion, creating a strong foundation for planning the future of the Boerne Middle School North campus.

The group's findings and recommendations were presented to the Strategic Facilities Planning Focus Group and the Boerne ISD Board of Trustees at a subsequent board meeting. These presentations reflected the time, care, and collaboration invested by FPFG members to identify the best path forward for Boerne Middle School North.

NEXT STEPS FOR BOERNE ISD

AFTER THE FUTURE PROGRAMMING FOCUS GROUP

DEVELOP THE PROGRAM

- Refine Program Detail
- Establish Course Specifics
- Determine what Business, Industry, or other External Partnerships are needed
- To be led by Boerne ISD Teaching & Learning Dept.

FACILITY ASSESSMENT

- Assess Overall Building + Site Conditions (systems, structure, etc.)
- Assess Functional Condition of the Building + Site (capacity, space adjacencies, level of renovation, etc.)
- Assessments done through the lens of the Program Requirements

MEETING #4 - APRIL 2, 2025

COST IMPLICATIONS

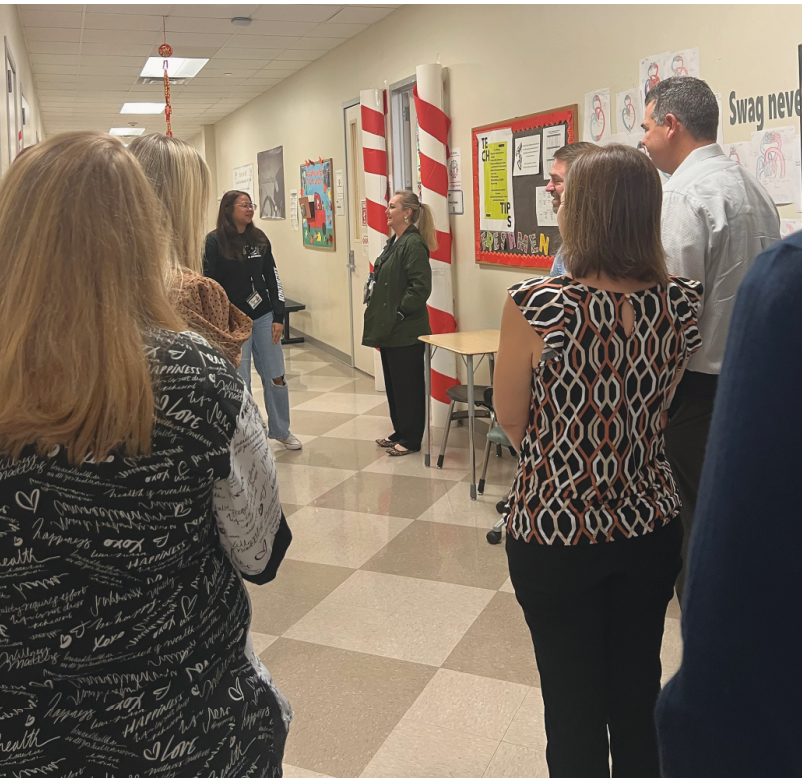

- Budget analysis of renovation efforts needed to implement the program
- Cost comparison to new construction
- Estimated timeframes to be developed, including consideration of phased implementation

REPORT OUT/ RECOMMENDATION

- Report back to SFPFG
- Report back to FPFG
- Report to, with potential recommendation, to Boerne ISD Board of Trustees
- Boerne ISD Board of Trustees will determine the appropriate next steps for implementation

ABOUT PFLUGER

Our story began in 1972, when two men, both names James, started an architecture firm in Austin, Texas. Fifty years later, and only 1.5 miles from that original address, Pfluger is still in Austin—and Dallas, Houston, San Antonio, and Corpus Christi.

Growth brings opportunities and challenges, and with five offices dotting the state, one of the challenges is keeping a common culture. Every member of the firm knows our first clients were small, rural districts, and their values became those of the firm—selflessness, intention, creative problem solving, and graciousness.

Fifty years later, those are still the hallmarks of Pfluger's practice, but as growth continues, how can team members across the state be inspired to use their own creative genius to work with intention, creativity, and kindness? —By developing a common purpose, an aspirational ethos that can be uniquely lived out in their work. That motivation for Pfluger is to design built environments that are functional, beautiful, and inspire people to create a more meaningful human experience.
