Title I HOPE Resource Guide

Welcome

This resource guide has been created to help Clark County School District (CCSD) families connect with local services and support in Southern Nevada. Whether you need assistance with housing, food, utilities, or other emergency needs, this guide provides information about organizations and programs available in our community.

Tips for Accessing Services

- **Call ahead** - Many programs have limited availability and specific intake hours
- **Bring any documentation you do have** - Have ID, income proof, and family information ready
- **Apply to multiple programs** - Don't rely on just one source of assistance
- **Stay in contact** - Many programs require regular check-ins to maintain eligibility
- **Ask about other services** - Organizations often provide multiple types of assistance

---

The Title I HOPE Program is not officially affiliated with the organizations listed in this guide; however, we occasionally collaborate with community partners to promote student and family success. While the information provided is updated regularly, it does not constitute an exhaustive list of resources, and services or requirements may change over time. We recommend contacting organizations directly to verify current availability and eligibility prior to visiting.

Revised 06/2025

Southern Nevada Coordinated Entry System for Family Housing

What is the Coordinated Entry?

The Southern Nevada Coordinated Entry System is a streamlined process that helps families experiencing homelessness find permanent housing. Instead of going to multiple agencies and filling out the same paperwork repeatedly, this system creates one central point where families can access housing assistance and supportive services. **No guarantee of immediate housing -** While the system helps prioritize families for available housing, there may be a waiting period.

Who Can Use This System?

Your family is eligible if you are currently:

- Living in an emergency shelter
- Staying in a place not meant for people to live (such as a car, abandoned building, or place without electricity, water, or heat)
- Fleeing domestic violence
- At risk of losing your current housing within 14 days

How Does It Work?

Step 1: Complete a Housing Assessment: Visit one of the Coordinated Entry Sites listed below to meet with a case worker who will complete a Southern Nevada Housing Assessment with your family. This assessment helps determine your housing needs and what resources might be available to help you.

Step 2: Work with a Caseworker: Your case worker will help you create a plan to reach your housing goals. They can connect you with services like rental assistance, job training, childcare resources, and other support your family needs.

Step 3: Stay Connected: To remain eligible for housing assistance, you must check in with a qualified homeless service agency at least once per month. This helps ensure you continue to receive support and updates about available housing opportunities.

What Happens After Your Assessment?

After completing your assessment, you will be placed on a prioritized list for housing assistance based on your family's specific needs and circumstances. Your case worker will stay in touch about available housing opportunities and continue working with you on your housing plan. Remember to maintain regular contact with your case worker and update them about any changes in your family's situation, contact information, or housing status.
