My kids because they make me want to be better

What would you do if you meet him/her?

Talk, eat, drink with them

MUN TRIP!!!

In Jo'burgh this month, ASOY MUN team showed remarkable teamwork, adaptability, and leadership throughout. They had persuasive amendment speeches that led to resolutions being passed. Our new delegates confidently co-submitted and defended their resolutions. Altogether, every student played a crucial role.

The team asked insightful and challenging questions, making other delegates rethink their positions, while also navigating the complexities of debate with grace and precision.

PYP in ACTION

What a joy to share with Parents and families! We gladly presented, discussed with, taught, exercised and shared highlights from our weeks of learning. Parents learnt about long division, played with numbers, heard about and were questioned about organs, acknowledged the importance of healthy eating and...even tidied up! It was great to welcome so many members of our community on campus at ASOY.

PROUD

MYP/DP in ACTION

Parents were invited to be a student again for a couple of hours! Following a short version of their child's timetable, they participated in lessons planned by the MYP and DP teachers. Among other activities they were involved in, parents researched the five themes of Geography, learned about the Nitrogen cycle, the complexities of international trade or how to use a microscope.

Parents also ran in the gym and performed a scene of a play. It was great to see parents having a firsthand experience of what their children learn and how the MYP and DP concepts are applied in each subject. It was also a good way to reinforce the connections between parents and teachers. Thank you to all the parents who attended.

-Carine Jadot, MYP Coordinator

GISS Movie Night

Friday, October 25, 2024, hosted the first annual event for the GISS club known as Movie Night. GISS club is one of our various clubs whose main purpose and objective is to speak on Global issues and try to find solutions to them locally within the ASOY community. Movie Night was a successful event that promoted school spirit and social gathering amongst middle and high schoolers.

-Manuella (Giss president)

PEER ASSISTANT LEADERS (PAL)

This program helps new PYP students smoothly transition into school. PAL members serve as mentors, guiding younger students by offering support and making them feel welcome. This helps new students feel more confident and comfortable in their new environment. The program also helps them improve their social and communication skills, making it easier to make friends. Overall, PAL's creates a strong sense of community, and having older students to look up to encourages the new PYP students to participate more and settle in easily.

-Kwame Asiedu, Grade 11

In the PAL's sessions, high school students, called "big PALs," are paired with new elementary students("Little PALs.")They participate in activities every Tuesday to help Little PALs feel welcome and comfortable in their new school. High school students can develop leadership skills, empathy, and social responsibility. Through their interactions with younger students, big PALs improve their communication skills and can better understand the challenges faced by newcomers.

Emmanuel Pondi, Grade 10
