GRADE 10 PERSONAL PROJECT

MYP students in their final year explore an area of personal interest over an extended period. It provides them the opportunity to consolidate their learning and develop important skills they'll need in both further education and life beyond the classroom. It also helps them develop confidence to become principled, lifelong learners. Today our Grade 10 students shared their Personal Projects with the school community and parents. Congratulations for all your hard work.

GRADE 3 TRIP TO MEFOU PARK

Mefou Field Trip:

The Mefou Primate Sanctuary situated in Yaounde only takes care of apes. All of them have different names, like us!

In our first trip together, we learned that chimpanzees are vegetarians, they eat boiled eggs and some plants. Also monkeys eat fruits and insects. We found out that one gorilla had a hand chopped off because of a poacher. Sadly, there are some baby gorillas who do not want to see any humans because it reminds them of poachers killing their parents.

We realised that they are just like us, humans and also they are very intelligent.

We also saw many very old trees around the park! What a beautiful trip, we want to repeat it!
