Woodland Middle School

Program Appraisal Policy

Our yearly School Improvement Planning process will include:

- An analysis of our state testing data and other school data as necessary to discover the extent to which our students are meeting state standards and our programs are proving effective.
- Systematic work to identify and address the causes of and barriers to high performance by all students and the movement of students towards our goals.
- A revision of our School Improvement Plan based on our needs assessment data that year.

The Plan will set goals, address barriers, and make indicated changes to programs to help move our students to mastery of state standards according to the timetable established by the Kentucky Board of Education.

We will implement the process to address the effectiveness of all our programs and the resulting Plan will be monitored by the council through ongoing Implementation and impact checks.
