

UNDERSTANDING ADDICTION AND MENTAL HEALTH: Recognizing the Signs & Supporting Recovery

VIRTUAL PSYCHOEDUCATIONAL WORKSHOP

Join us for a psychoeducational prevention and awareness training on substance use, mental health, and co-occurring disorders.

Participants will leave with a deeper understanding of how substance use and mental health intersect, along with practical tools to recognize concerns early and respond effectively.

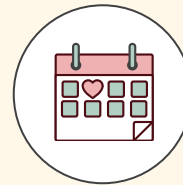

TOPICS COVERED:

- Understand substance use and co-occurring disorders
- Recognize early warning signs
- Explore risk and protective factors
- Learn how to respond effectively
- Explore evidence-based treatment approaches
- Identify resources and next steps
