Subject: Re: Redistrict map

Good morning,

The new maps responding to Board direction are 111 and 112.

State and Federal law require only that total population be balanced between Trustee Areas. This frequently results in an imbalance in students or student-age population. Balancing the number of students cannot be prioritized over Fair Maps Act criteria.

For a map to be considered by the Board, unfortunately it needs to be published for at least a week prior to the hearing.

Justin

Hello Justin.

What is the new map that the trustees asked you to look at is it 111 and 112?

Also is it legally allowed to have one district representative to have 1/3 of the student population?

That's what 111 and 112 do

Ca. I tweak mine and it to be presented?

Thanks
