Would it make back-to-school shopping easier if you could order your 1st grader's school supplies without even leaving the house (other than picking out a backpack and water bottle)?

The 1st grade teachers have created an Amazon supply list to make shopping simple and convenient. Just scan the QR code to order everything on the list, purchase only the items you need, or simply use it as a guide while shopping in stores.

Whether you choose to use the QR code or shop on your own, supplies can be brought to Back-to-School Night in August.
