II. Strategic Technology Planning

1. What is the overall district mission?

The Great Neck Public School district provides an innovative and collaborative educational environment that supports academic excellence and the social and emotional growth of all students so that they may become life-long learners and compassionate, productive members of a diverse, global society.

2. What is the vision statement that guides instructional technology use in the district?

The vision of our Instructional Technology program is to create an educational environment that is strengthened and supported by information and communication technology. Technology is integrated into all aspects of the instructional process by providing students and teachers with a wide range of electronic tools and online resources that enhance learning, increase productivity, promote creativity, and facilitate research, analysis, and communication.

3. At the start of the 2026-27 school year, will the district provide a dedicated mobile device for every student in all grades?

Yes

For help with completing the plan, please visit ITP Resources on our website, contact your district's RIC, or email edtech@nysed.gov.

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities “everywhere, all the time” (National Technology Plan)?

One of the main ways in which we provide “everywhere, all the time” access is through our 1:1 iPad program. We provide every single student and teacher in the district with an iPad. Devices are replaced on a four-year cycle for students and a six-year cycle for teachers. During the pandemic we began providing wireless hotspots to families in need of internet access at home. Our guidance counselors and/or social workers work to identify families in need of internet access at home so that we can provide a hot spot to those who need it.

In addition, all of our teachers use a digital LMS for posting assignments, information, documents, and other class content. In grades prekindergarden-2 teachers use Seesaw. Teachers in grades 3-12 use Google Classroom. This digital platform allows students and families to have access to all school-related content at all times, from anywhere. Similarly, grades, report cards and transcripts, are all distributed electronically, through our Infinite Campus Parent Portal which, again, ensures that parents and students have consistent access to that information.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (*Select all that apply)***

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☐ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☑ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district’s response to any related question(s) in the SSIP.

The district does not have an active SSIP.
