

Applying for Access Link

Applying for Access Link

An interview, either via phone or in-person, is required for full paratransit eligibility.

You can call 973-491-4224 and select option #1 to discuss NJ TRANSIT's accessible services, including Access Link. The team will educate you about available options and schedule you for an interview, if necessary.

Those who request an interview will be scheduled for one with one of our community-based partners. The interview process requires you to provide information about the disability or disabilities that are preventing you from using the local bus to travel to or from your intended destinations. You are also required to provide current medical verification.
