

ECE Application 2026-2027

EARLY CHILDHOOD EDUCATION (ECE) PROGRAM APPLICATION

Before completing this application, please read the following information carefully:

Students enrolled in this program will work daily in a preschool setting with young children. Performance will be evaluated based on consistent attendance, professional behavior while working with children, and the ability to collaborate effectively with peers in planning and implementing lessons and activities.

This is a highly project-based program that requires frequent partner and small-group work. Students are expected to communicate appropriately, collaborate respectfully with classmates, and actively engage with children. A positive attitude and willingness to participate are essential. Students must be able to step outside of their comfort zone, contribute to group discussions, and speak up when working with peers and children.

Students will receive training on appropriate teaching practices and strategies for working with young children. Daily attendance, a coachable attitude, and professional conduct are required at all times. **Negative attitudes, inappropriate behavior, or disciplinary actions—including ISS or OSS—will not be tolerated and may result in removal from the program.**

First Name:	Last Name:								
Current Age:	What grade are you going into?								
Why do you want to take this class?									
On a scale of 1-10, how much experience do you have working with children?									
1	2	3	4	5	6	7	8	9	10
No Experience					A Lot of Experience

Consistent attendance is essential to this program. Please rate the student's reliability and attendance.					
Please rate the student's level of responsibility and respect for authority, including their ability to follow directions and complete assigned tasks independently.					
Collaboration is a key component of this program. Please rate the student's ability to work effectively and professionally with peers in both planning and instructional settings.					
Many assignments are completed independently and compiled into a portfolio at the end of the semester. Please rate the student's self-motivation and work ethic.					
Based on your knowledge of this student, would you feel confident trusting them to work appropriately and responsibly with young children?					

Is there anything else you'd like to say about this student?
