

Option #1 - Resubmit Same Budget for Re-Vote

The board can opt to put the identical budget back on the ballot for a revote.

Recommended when failed by narrow margin or Board believes community would support the budget if they had additional information.

Pros

Maximizes the chance of passing the original comprehensive educational plan without service or staff cuts.

Cons

If voter turnout is low or the community is firmly against the tax increase, it risks being voted down a second time and a contingency budget enacted.
