AP STATISTICS SUMMER ASSIGNMENT 2026-27

1. Use this link to go to Khan Academy online. https://www.khanacademy.org/join/PGQHYXAW

2. Create a new account using your **school ID and password**. All students must sign into the **AP Stats Kimball High School Summer Course** on Khan Academy online to do the assignment. For security reasons and to avoid any outside persons from enrolling in the course and having access to your accounts, any account using a personal username or ID will be deleted and all of the work will be erased. Use the link below to sign in.

   How do you know if you are signed in? It should show on the **left margin** that you are on AP Stats Kimball High School Summer Course:

YOU ARE SIGNED IN TO THE CLASS IF YOU SEE THIS:	YOU ARE **NOT** SIGNED IN TO THE CLASS IF YOU SEE THIS:	YOU ARE **NOT** SIGNED IN TO THE CLASS IF YOU SEE THIS:
		
   Once you are signed in, you will see this in the **middle** of your screen.

   Click on the START button and work your way until the end. You will have until Aug 3rd to finish the entire course.

3. I will be closely monitoring your progress throughout the summer. It is important that you start the online summer course early so you will have enough time to watch all the videos and take the online quizzes that will be given at the end of each unit. Do not wait until a few days before the start of classes. If you do so, you will NOT finish the course.

4. Your performance on the AP Stats summer course will let me know if you are mentally and academically prepared for this class, with the basic expectation that you will be taking the AP test in May 2027. It contains all the pre-requisite skills and concepts that you may or may not have learned in your previous math classes. To ensure success in AP Statistics for the year 2026-27, make sure that you take down notes. These notes will be very useful for reference throughout the school year.

5. **You will be graded for this summer assignment. It will count as your first assignment for the incoming school year. You will also be given a test on what you learned. This will count as your first TEST for the school year 2026-27.**

6. Please let me know early on if there are any issues with creating or signing on to your account. I can be reached at imadarang@tusd.net. I look forward to seeing you in the fall!!
